

National Geographic Readers Dolphins

"This quality read-along early reader will introduce children to much more than the sloths of the rain forest, and will encourage them to continue exploring with other books in the series."—School Library Journal

Playful puppies! Cuddly kittens! Beautiful birds! In the next book in the hit Little Kids First Big Book series, readers learn all about pets with fur, feathers, fins, scales, and shells--and how to find and care for the perfect pet for their family. From cats to dogs to guinea pigs to birds to fish to snakes and more, this adorable reference book introduces kids to a wide variety of family-friendly pets. Readers learn which kinds of animals make good pets and which ones are better off staying in the wild, along with how each type of pet eats, sleeps, and plays. Packed with more than 200 colorful photos, the book also provides information on animal breeds, characteristics, and behavior and includes tips for training pets. Filled with fun facts and designed for interactive learning, this book will quickly become a favorite at storytime, bedtime, and any time.

A collection of facts about animal companions includes such entries that reveal a cat's top running speed, the numerous facial expressions made by dogs, and a bird's surprising feather weight.

Provides information about the Earth's water, including rivers, lakes, oceans, the water cycle, climate, water pollution, and conservation.

Presents the stories of three animal workers, a dog that helps stranded dolphins, a monkey that aids a paralyzed man, and a rat that sniffs out land mines.

Provides information about different species of dolphins, including anatomy, behavior, and life cycles.

Curious kids will learn all about adorable and intelligent dolphins, including their social behavior, communication, diet, and playtime. These engaging Explore My World picture books on subjects kids care about combine simple stories with unforgettable photography. They invite little kids to take their first big steps toward understanding the world around them and are just the thing for parents and kids to curl up with and read aloud.

Bright photos and easy-to-read descriptions examine the various animals who live in the warm waters around a coral reef.

Everyone loves the smile on a dolphin's face. Though smart enough to become theme park tricksters, dolphins are first and foremost wild mammals. Melissa Stewart's lively text outlines our responsibility to conserve their natural environment. This high-interest book also offers an interactive experience to boost awareness of these adorable creatures. National Geographic supports K-12 educators with ELA Common Core Resources. Visit www.natgeoed.org/commoncore for more information.

This book looks at dolphins as wild mammals and discusses the need to preserve their natural environment.

Blast off on a trip to discover the fascinating world of meteors. In this image-packed book, kids will learn all about these objects hurtling through space and into our atmosphere. Written in an easy-to-grasp style to encourage the scientists and explorers of tomorrow!

This comical, adorable, and fascinating reader documents the lives of monkeys living in the wild and includes details regarding their behavior, families, and environment. The carefully constructed text guarantees a successful and rewarding reading experience for level 2 readers who are able to read alone, with minor assistance. The photography and extras featured in this title ensure a fun and interactive experience for the reader.
