

National Geographic Readers Level 2 Pandas

From dazzling gemstones to sparkling crystals to molten lava, this brilliantly illustrated book introduces children to the exciting world of rocks and minerals, including both the building blocks and the bling. This level two reader, written in easy-to-grasp text, will help cultivate the geologists of tomorrow! This high-interest, educationally vetted series of beginning readers features the magnificent images of National Geographic, accompanied by texts written by experienced, skilled children's book authors. The inside back cover of the paperback edition is an interactive feature based upon the book. Level 1 books reinforce the content of the book with a kinesthetic learning activity. In Level 2 books readers complete a Cloze letter, or fun fill-in, with vocabulary words. Releases simultaneously in Reinforced Library Binding: 978-1-4263-1039-3 , \$13.90/\$15.95 Can National Geographic supports K-12 educators with ELA Common Core Resources. Visit www.natgeoed.org/commoncore for more information. From the Trade Paperback edition.

Describes the life of the celebrated author and activist for people with disabilities, chronicling her achievements and the challenges she faced along the way.

Presents the life of sea turtles, including where they travel, how they build nests, and what they eat.

Simple, lively text and engaging photos portray a little puppy meeting new friends and seeing new places.

He's quick. He's silent. He has five rows of deadly teeth. Chomp! Meet the shark—the fish who ruled the deep before dinosaurs roamed the Earth! This fish has soft cartilage so he can glide, twist, and turn before his prey can say "gulp!" He can smell a single drop of blood in 25 million drops of ocean. He can feel electricity given off by his prey. He will lose and replace more than 10,000 teeth in his lifetime. Cool photos bring kids into the shark's world. Fun facts go deep into the shark's scary science.

You know fireflies glow in the dark, but did you know there are many other animals that make their own light? Dive deep into the ocean, soar high in the sky, and explore the forest and desert floors to discover animals that glow. Explore the wonderful world of bioluminescence and biofluorescence in this National Geographic Kids Co-reader. Learn how and why animals emit light. Discover their incredible colors in stunning photography of eels, corals, frogs, and more. National Geographic Kids Readers have been a hit in the beginning reader category, and this book builds upon that success with a new approach--parents and children reading together. With the same combination of careful text, brilliant photographs, and fun approach to high-interest subjects that has proved to be a winning formula with kids, National Geographic Co-readers provide one page of adult read-aloud and one page of kid read-aloud text on each spread, building toward a collaborative reading experience.

National Geographic Primary Readers is a high-interest series of beginning reading books that have been developed in consultation with education experts. The books pair magnificent National Geographic photographs with lively text by skilled children's book authors across four reading levels. In this level 2 book, young readers will explore the feathery world of adorable owls. Follow these curious-looking creatures through their wooded habitats, and learn how owls raise their young, hunt, and protect themselves. Beautiful photos and carefully levelled text make this book perfect for reading aloud as kids become more fluent in their reading. Level 2: Becoming fluent These books are a good match for kids who are developing reading stamina and enjoy a longer book. They are ideal for readers of Green, Orange and Turquoise books.

Photographs and text introduce different kinds of volcanoes, where they are located, how and why they erupt, and other interesting data about volcanoes.

Owls National Geographic Readers

National Geographic Primary Readers is a high-interest series of beginning reading books that have been developed in consultation with education experts. The books pair magnificent National Geographic photographs with lively text by skilled children's book authors across four reading levels.
