Meredith Ray shows that women were at the vanguard of empirical culture during the Scientific Revolution. They experimented with medicine and alchemy at home and in court, debated cosmological discoveries in salons and academies, and in their writings used their knowledge of natural philosophy to argue for women's intellectual equality to men. First published in 1891, Pellegrino Artusi's *La scienza in cucina e l'arte di mangiar bene* has come to be recognized as the most significant Italian cookbook of modern times. It was reprinted thirteen times and had sold more than 52,000 copies in the years before Artusi's death in 1910, with the number of recipes growing from 475 to 790. And while this figure has not changed, the book has consistently remained in print. Although Artusi was himself of the upper classes and it was doubtful he had ever touched a kitchen utensil or lit a fire under a pot, he wrote the book not for professional chefs, as was the nineteenth-century custom, but for middle-class family cooks: housewives and their domestic helpers. His tone is that of a friendly advisor – humorous and nonchalant. He indulges in witty anecdotes about many of the recipes, describing his

experiences and the historical relevance of particular dishes. Artusi's masterpiece is not merely a popular cookbook; it is a landmark work in Italian culture.

This English edition (first published by Marsilio Publishers in 1997) features a delightful introduction by Luigi Ballerini that traces the fascinating history of the book and explains its importance in the context of Italian history and politics. The illustrations are by the noted Italian artist Giuliano Della Casa.

Ellen Hidding, scrivendo a quattro mani con Stefano Romanò, esordisce nel mondo della letteratura con una collezione di storie dedicate ai più piccini. Fiabe moderne, senza orchi e fate, ma ricche di situazioni tanto incredibili quanto concretamente reali, come quelle che mamma Ellen deve affrontare ogni giorno con la sua simpatica e scatenata figlia; quindi, largo spazio alle «birbonate», ai giochi e ai pasticci combinati da una bimba di nome Renèe e dai suoi amici: Noa, Bruno, Matilde, e quel golosone e combinaguai del pupazzo Leo, frutto della fantasia e della verve di Stefano Romanò. Attraverso le loro peripezie, i lettori in erba possono imparare in maniera intuitiva e divertente ciò che è giusto e ciò che non lo è, migliorando la propria comprensione del mondo e facendosi un sacco di risate. L'opera è composta da 366 fiabe: una introduttiva e le restanti da leggersi una al giorno per un anno, magari la sera, per accompagnare i bimbi nel mondo dei sogni. Si comincia con il volume «Inverno» e con i

In this book the bestselling author and psychoanalyst Massimo Recalcati offers a fundamental re-examination of what 'being a mother' means today, in a world where new social and sexual freedoms mean that motherhood is no longer the sole destiny of women. Questioning the belief that a mother's love is natural and unconditional, he paints a more complex and troubling picture of the mother-child

relationship, observing that mothers may even resent their children as a result of unresolved conflicts between different dimensions of love. The mother's hands not only nurture but can also potentially harm. Recalcati argues that it is precisely in these competing demands that motherhood fulfils its function: only if the mother is 'not-all-mother' can a child experience the absence that enables it to access the symbolic and cultural world. Recalcati cuts through conventional wisdom to offer a fresh perspective on the changing nature of motherhood today. An international bestseller, this book will appeal to a wide general readership, as well as to students and scholars of gender studies, psychoanalysis and related disciplines.

In the explosive finale to the epic romantic saga, Bella has one final choice to make. Should she stay mortal and strengthen her connection to the werewolves, or leave it all behind to become a vampire? When you loved the one who was killing you, it left you no options. How could you run, how could you fight, when doing so would hurt that beloved one? If your life was all you had to give, how could you not give it? If it was someone you truly loved? To be irrevocably in love with a vampire is both fantasy and nightmare woven into a dangerously heightened reality for Bella Swan. Pulled in one direction by her intense passion for Edward Cullen, and in another by her profound connection to werewolf Jacob Black, a tumultuous year of temptation, loss, and strife have led her to the ultimate turning point. Her imminent choice to either join the dark but seductive world of immortals or to pursue a fully human life has become the thread from which the fates of two tribes hangs. This astonishing, breathlessly anticipated conclusion to the Twilight Saga illuminates the secrets and mysteries of this spellbinding romantic epic. It's here! #1 bestselling author Stephenie Meyer makes a triumphant return to the world of Twilight with the highly anticipated

"In an era of growing anti-intellectualism, [Judt's] essays remind us of what we gain when we stick fast to high ethical and intellectual standards, and what is lost when we let them slip." —Mark Mazower, *Financial Times* "Scintillating journalism . . . This collection is a reminder of Judt's clear mind and prose and, as Homans says in her lovely introduction, his fidelity to hard facts and to honest appraisal of the modern scene." —Samuel Moyn, *The New York Times Book Review* In an age in which the lack of independent public intellectuals has often been sorely lamented, the historian Tony Judt played a rare and valuable role, bringing together history and current events, Europe and America, what was and what is with what should be. In *When the Facts Change*, Tony Judt's widow and fellow historian Jennifer Homans has assembled an essential collection of the most important and influential pieces written in the last fifteen years of Judt's life, the years in which he found his voice in the public sphere. Included are seminal essays on the full range of Judt's concerns, including Europe as an idea and in reality, before 1989 and thereafter; Israel, the Holocaust and the Jews; American hyperpower and the world after 9/11; and issues of social inclusion and social justice in an age of increasing inequality. Judt was at once most at home and in a state of what he called internal exile from his native England, from Europe, and from America, and he finally settled in New York—between them all. He was a historian of the twentieth

century acutely aware of the dangers of ethnic exceptionalism, and if he was shaped by anything, it was the Jewish past and his own secularism. His essays on Israel ignited a firestorm debate for their forthright criticisms of Israeli government policies relating to the Palestinians and the occupied territories. Those crucial pieces are published here in book form for the first time, including an essay, never previously published, called "What Is to Be Done?" These pieces are suffused with a deep compassion for the Israeli dilemma, a compassion that instilled in Judt a sense of responsibility to speak out and try to find a better path, away from what he saw as a road to ruin. When the Facts Change also contains Judt's homages to the culture heroes who were some of his greatest inspirations: Amos Elon, François Furet, Leszek Kolakowski, and perhaps above all Albert Camus, who never accepted the complacent view that the problem of evil couldn't lie within us as well as outside us. Included here too is a magnificent two-part essay on the social and political importance of railway travel to our modern conception of a good society; as well as the urgent text of "What Is Living and What Is Dead in Social Democracy," the final public speech of his life, delivered from a wheelchair after he had been stricken with a terrible illness; and a tender and wise dialogue with his then-teenage son, Daniel, about the different outlooks and burdens of their two generations. To read When the Facts Change is to miss Tony Judt's voice terribly, but to cherish it for what it was, and still is: a wise, human, deeply informed view on our most pressing concerns, delivered in good faith.

Retraces the history of postmodern philosophy and proposes solutions to overcome its impasses. Philosophical realism has taken a number of different forms, each applied to different topics and set against different forms of idealism and subjectivism. Maurizio Ferraris's *Manifesto of New Realism* takes aim at postmodernism and hermeneutics, arguing against their emphasis on reality as constructed and interpreted. While acknowledging the value of these criticisms of traditional, dogmatic realism, Ferraris insists that the insights of postmodernism have reached a dead end. Calling for the discipline to turn its focus back to truth and the external world, Ferraris's manifesto—which sparked lively debate in Italy and beyond—offers a wiser realism with social and political relevance. “In the new atmosphere of

The Anarchist Cookbook will shock, it will disturb, it will provoke. It places in historical perspective an era when "Turn on, Burn down, Blow up" are revolutionary slogans of the day. Says the author "This book... is not written for the members of fringe political groups, such as the Weatherman, or The Minutemen. Those radical groups don't need this book. They already know everything that's in here. If the real people of America, the silent majority, are going to survive, they must educate themselves. That is the purpose of this book." In what the author considers a survival guide, there is explicit information on the uses and effects of drugs, ranging from pot to heroin to peanuts. There is detailed advice concerning electronics, sabotage, and surveillance, with data on everything from bugs to scramblers. There is a comprehensive chapter on natural, non-lethal, and lethal weapons, running the gamut from cattle prods to sub-machine guns to bows and arrows.

The New York Times bestselling author of *Complications* examines, in riveting accounts of medical failure and triumph, how success is achieved in a complex and risk-filled profession. The struggle to perform well is universal: each one of us faces fatigue, limited resources, and imperfect abilities in whatever we do. But nowhere is this drive to do better more important than in medicine, where lives are on the line with every decision. In his new book, Atul Gawande explores how doctors strive to close the gap between best intentions and best performance in the face of obstacles that sometimes seem insurmountable. Gawande's gripping stories of diligence, ingenuity, and what it means to do right by people take us to battlefield surgical tents in Iraq, to labor and delivery rooms in Boston, to a polio outbreak in India, and to malpractice courtrooms around the country. He discusses the ethical dilemmas of doctors' participation in lethal injections, examines the influence of money on modern medicine, and recounts the astoundingly contentious history of hand washing. And as in all his writing, Gawande gives us an inside look at his own life as a practicing surgeon, offering a searingly honest firsthand account of work in a field where mistakes are both unavoidable and unthinkable. At once unflinching and compassionate, *Better* is an exhilarating

Protagonisti di queste storie sono individui anonimi e personaggi illustri, scrittori, artisti, intellettuali.
