Italian Waters Pilot Rod and Lucinda Heikell,2024-03-26 Italian Waters Pilot is the only guide for yachtsmen in English that covers the coasts of the Ligurian and Tyrrhenian Seas, Sardinia, Sicily, the Ionian 'heel' and Malta in one volume. This new eleventh edition has numerous updates throughout, with contact details, plans and text undergoing a thorough revision. Care has been taken to research the details of marina developments. Where available, information is given on proposed changes and extensions to yacht harbours. Marine reserves are an important feature of the coasts and off-lying islands, particularly in Sardinia and Sicily, and this edition provides updated details of the latest regulations. Climate change and extreme weather events are becoming a major issue and this edition includes a section on the how climate change might affect sailing in the Mediterranean. Italian Waters Pilot is the last word on the area for yachts cruising there and on their way between the eastern and western Mediterranean. Rod and Lucinda Heikell have also authored companion guides on France, Greece and Turkey, acclaimed as the best pilot books available. Recommended by the Royal Cruising Club and The Cruising Association. Amazon customer reviews: We sail the Med summers and keep the Heikells' pilot books by our side. We update them as they are published. Last summer we sailed to Italy and consider their books a necessary part of both our planning and charting. Can't do without them! PH The Heikells have produced a very informative volume again. Great details of coast and up to date marina details. A must if you are sailing in the area. IB Ideal for our purposes. Detailed with useful comments about weather, safety, services, officials, eating and drinking ashore. C It not only provides the necessary information for the sailor but also gives the most interesting local and historical information. A most interesting book. CC

Ancient Marbles in Naples in the Eighteenth Century Eloisa Dodero,2019-09-16 In *Ancient Marbles in Naples in the Eighteenth Century* Eloisa Dodero aims at documenting the history of numerous private collections formed in Naples during the 18th century, with particular concern for the “Neapolitan marbles” and the circumstances of their dispersal. Research has thus made it possible to formulate a synthesis of the collecting dynamics of Naples in the 18th century, to define the

interest of the great European collectors, especially British, in the antiquities of the city and its territory and to draw up a catalogue which for the first time brings together the nucleus of sculptures reported in the Neapolitan collections or coming from irregular excavations, most of which shared the destiny of dispersal, in some cases here traced in definitive fashion.
