grounding in English fundamentals. You Can Teach Grammar is a self-contained TESOL grammar course book. It covers all the parts of speech and major sentence structures and provides self-practice quizzes to check comprehension. In addition, the book directly addresses common classroom problems associated with each grammar topic. In the classroom, knowledge of the grammar alone is insufficient. Imparting English grammar skills in memorable and meaningful ways can be tricky, particularly for new teachers. For this reason, You Can Teach Grammar includes a variety of teaching ideas for each grammar topic. You Can Teach Grammar is designed as both a course book and a general reference. Its logical layout and detailed indexing make it a useful resource for teachers in the field as well as for teachers-in-training.

**NATIONAL BESTSELLER** • For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. “A brilliant and thoroughly modern guide to learning new languages.”—Gary Marcus, cognitive psychologist and author of the New York Times bestseller *Guitar Zero* At thirty years old, Gabriel Wyner speaks six languages fluently. He didn’t learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he’s discovered. Starting with pronunciation, you’ll learn how to rewire your ears and turn foreign sounds into familiar sounds. You’ll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you’ll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you’ll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.

‘A book for children from 8 to 80. I love the humanity of this story and how one man’s efforts can change the future for so many. It’s a real message of hope.’

Michael Morpurgo Discover this beloved masterpiece of nature writing that is a hymn to creation and to the power of the individual to do their bit to change the world for the better. In 1910, while hiking through the wild lavender in a wind-swept, desolate valley in Provence, a man comes across a shepherd called Elzéard Bouffier. Staying with him, he watches Elzéard sorting and then planting hundreds of acorns as he walks through the wilderness. Ten years later, after surviving the First World War, he visits the shepherd again and sees the young forest he has created spreading slowly over the valley. Elzéard’s solitary, silent work continues and the narrator returns year after year to see the miracle he is gradually creating: a verdant, green landscape that is a testament to one man’s creative instinct. A beautiful story of hope, survival and selflessness, *The Man Who Planted Trees* resonates as strongly with readers today as when it was first published.

Over the past few decades, the book series *Linguistische Arbeiten* [Linguistic Studies], comprising over 500 volumes, has made a significant contribution to the development of linguistic theory both in Germany and internationally. The series will continue to deliver new impulses for research and maintain the central insight of linguistics that progress can only be made in acquiring new knowledge about human languages both synchronically and diachronically by closely combining empirical and theoretical analyses. To this end, we invite submission of high-quality linguistic studies from all the central areas of general linguistics and the linguistics of individual languages which address topical questions, discuss new data and advance the development of linguistic theory.
