Singapore gained independence in 1965, a city-state in a world of nation-states. Yet its long and complex history reaches much farther back. Blending modernity and tradition, ideologies and ethnicities, a peculiar set of factors make Singapore what it is today. In this thematic study of the island nation, Michael D. Barr proposes a new approach to understand this development. From the pre-colonial period through to the modern day, he traces the idea, the politics and the geography of Singapore over five centuries of rich history. In doing so he rejects the official narrative of the so-called 'Singapore Story'. Drawing on in-depth archival work and oral histories, Singapore: A Modern History is a work both for students of the country's history and politics, but also for any reader seeking to engage with this enigmatic and vastly successful nation.

U2 were Formed at a Dublin Secondary School by Adam Clayton, Bono, The Edge and Larry Mullen Jr. Like most bands, they wanted to be among the best in the world. By 1991, with Achtung Baby in the pipeline and War, The Unforgettable Fire and The Joshua Tree behind them, they were arguably deserving of that intention. Yet there was more to the band than the stadium records that made their fans deliriously happy and the music's creators artistically and lucratively fulfilled. Their second album, October, opened the four piece into a spiritual journey that fed their later work. Their double album Rattle and Hum proved one of the greatest torchbearers of American music of its time. And then there were Zooropa and Pop - dance oriented albums that showed the initially-punk oriented quartet exploring effects, sounds and territories that few of their contemporaries dared contemplate. That they should exist forty years after their debut is testament to the will, fortitude and versatility U2 holds. Their most recent works Songs of Innocence and Songs of Experience have proven their most reflective and perhaps their most autobiographical. What lies next for U2 only the band know, but this book delves into their past work, without leaving a passenger behind.

The evaluation of reproductive, maternal, newborn, and child health (RMNCH) by the Disease Control Priorities, Third Edition (DCP3) focuses on maternal conditions, childhood illness, and malnutrition. Specifically, the chapters address acute illness and undernutrition in children, principally under age 5. It also covers maternal mortality, morbidity, stillbirth, and influences to pregnancy and pre-pregnancy. Volume 3 focuses on developments since the publication of DCP2 and will also include the transition to older childhood, in particular, the overlap and commonality with the child development volume. The DCP3 evaluation of these conditions produced three key findings: 1. There is significant difficulty in measuring the burden of key conditions such as unintended pregnancy, unsafe abortion, nonsexually transmitted infections, infertility, and violence against women. 2. Investments in the continuum of care can have significant returns for improved and equitable access, health, poverty, and health systems. 3. There is a large difference in how RMNCH conditions affect different income groups; investments in RMNCH can lessen the disparity in terms of both health and financial risk.

From the New York Times bestselling author of *Dreamland*, a searing follow-up that explores the terrifying next stages of the opioid epidemic and the quiet yet ardent stories of community repair. Sam Quinones traveled from Mexico to main streets across the U.S. to create *Dreamland*, a groundbreaking portrait of the opioid epidemic that awakened the nation. As the nation struggled to put back the pieces, Quinones was among the first to see the dangers that lay ahead: synthetic drugs and a new generation of kingpins whose product could be made in Magic Bullet blenders. In fentanyl, traffickers landed a painkiller a hundred times more powerful than morphine. They laced it into cocaine, meth, and counterfeit pills to cause tens of thousands of deaths - at the same time as Mexican traffickers made methamphetamine cheaper and more potent than ever, creating, Sam argues, swaths of mental illness and a surge in homelessness across the United States. Quinones hit the road to investigate these new threats, discovering how addiction is exacerbated by consumer-product corporations. "In a time when drug traffickers act like corporations and corporations like traffickers," he writes, "our best defense, perhaps our only defense, lies in bolstering community." Amid a landscape of despair, Quinones found hope in those embracing the forgotten and ignored, illuminating the striking truth that we are only as strong as our most vulnerable. Weaving analysis of the drug trade into stories of humble communities, *The Least of Us* delivers an unexpected and awe-inspiring response to the call that shocked the nation in Sam Quinones's award-winning *Dreamland*.
