In this new account of Franklin's early life, Pulitzer finalist Nick Bunker portrays him as a complex, driven young man who elbows his way to success. From his early career as a printer and journalist to his scientific work and his role as a founder of a new republic, Benjamin Franklin has always seemed the inevitable embodiment of American ingenuity. But in his youth he had to make his way through a harsh colonial world, where he fought many battles with his rivals, but also with his wayward emotions. Taking Franklin to the age of forty-one, when he made his first electrical discoveries, Bunker goes behind the legend to reveal the sources of his passion for knowledge. Always trying to balance virtue against ambition, Franklin emerges as a brilliant but flawed human being, made from the conflicts of an age of slavery as well as reason. With archival material from both sides of the Atlantic, we see Franklin in Boston, London, and Philadelphia as he develops his formula for greatness. A tale of science, politics, war, and religion,

this is also a story about Franklin's forebears: the talented family of English craftsmen who produced America's favorite genius.

Focusing on families and their shared traits makes bird identification easier than ever. This guide takes readers beyond merely identifying birds to understanding them. Many birders can tell the difference between a White-eyed and Bell's Vireo but cannot begin to describe a vireo and what distinguishes members of this family from warblers or flycatchers. The "species by species" approach makes it difficult to appreciate birds for what they are: members of well-organized groupings united by common traits. Putting the focus on families, and their shared characteristics, makes bird identification easier and more meaningful. More than 150 color photos illustrate the 81 bird families of the United States and Canada.

"What a treat. Glamorous and nostalgic and very sexy, Cape May is a novel about marriage, lust, shabby seaside towns and lots of gin. Brilliantly unsettling—one of those books that stays with you." - Paula Hawkins, #1 New York Times bestselling author of *The Girl on the Train* and *Into the Water* A mesmerizing debut novel by Chip Cheek, *Cape May* explores the social and sexual mores of 1950s America through the eyes of a newly married couple from the genteel south corrupted by sophisticated New England urbanites. Late

September 1957. Henry and Effie, very young newlyweds from Georgia, arrive in Cape May, New Jersey, for their honeymoon only to find the town is deserted. Feeling shy of each other and isolated, they decide to cut the trip short. But before they leave, they meet a glamorous set of people who sweep them up into their drama. Clara, a beautiful socialite who feels her youth slipping away; Max, a wealthy playboy and Clara's lover; and Alma, Max's aloof and mysterious half-sister, to whom Henry is irresistibly drawn. The empty beach town becomes their playground, and as they sneak into abandoned summer homes, go sailing, walk naked under the stars, make love, and drink a great deal of gin, Henry and Effie slip from innocence into betrayal, with irrevocable consequences. Erotic and moving, this is a novel about marriage, love and sexuality, and the lifelong repercussions that meeting a group of debauched cosmopolitans has on a new marriage.

A glorious photographic tour of the public and private gardens of New Jersey—from historic formal gardens of former estates, to suburb gardens, horticulturists' havens, and fresh takes on front yards. The most densely populated state in the nation and one of the original thirteen, home to the largest public iris garden in the country, and the glacier-swept endpoint of the last Ice Age—for Nancy Berner and Susan Lowry, who look to gardens as an entry to the history and culture of a region, New Jersey presents an array of surprising diversity. Its temperate climate makes it possible to grow a wide range of plants, while its complex topography—ranging from mountains to rolling hills and flat basins, the scrubby Pine Barrens and the rich Coastal Plain—demands innovative approaches to design. The twenty-eight selected gardens—from Skylands, with its specimen trees, woodland and rock gardens, and lilac collection close to the New York border, to the elegant formal gardens of Short Hills, Bernardville, and Oldwick, to a wildlife garden filled with frogs and butterflies and a lighthouse garden near Cape May—illustrate the ways in which New Jersey's long garden traditions are upheld to this day. Gemma and Andrew Ingalls' stunning photographs bring out the manifold ways in which a garden might speak to us in its owner's or designer's voice, expressing a particular point of view.

Lighthouses were built on the Hudson River in New York between 1826 to 1921 to help guide freight and passenger traffic. One of the most famous was the iconic Statue of Liberty. This fascinating history with photos will bring the time of traffic along the river alive. Set against the backdrop of purple mountains, lush hillsides, and tidal wetlands, the lighthouses of the Hudson River were built between 1826 and 1921 to improve navigational safety on a river teeming with freight and passenger traffic. Unlike the towering beacons of the seacoasts, these river lighthouses were architecturally diverse, ranging from short conical towers to elaborate Victorian houses. Operated by men and women who at times risked and lost their lives in service of safe navigation, these beacons have overseen more than a century of extraordinary technological and social change. Of the dozens of historic lighthouses and beacons that once dotted the Hudson

River, just eight remain, including the iconic Statue of Liberty, New York Harbor's great monument to freedom and immigration, which served as an official lighthouse between 1886 and 1902. Hudson River Lighthouses invites readers to explore these unique icons and their fascinating stories.

Includes 500 colour photographs of 220 lighthouses, 12 maps, index and a chronological list of over 400 Australian lighthouses.

From the bestselling author of *Assassination Vacation* and *Unfamiliar Fishes*, a humorous and insightful account of the Revolutionary War hero Marquis de Lafayette--the one Frenchman we could all agree on--and an insightful portrait of a nation's idealism and its reality. On August 16, 1824, an elderly French gentlemen sailed into New York Harbor and giddy Americans were there to welcome him. Or, rather, to welcome him back. It had been thirty years since the Revolutionary War hero the Marquis de Lafayette had last set foot in the United States, and he was so beloved that 80,000 people showed up to cheer for him. The entire population of New York at the time was 120,000. Lafayette's arrival in 1824 coincided with one of the most contentious presidential elections in American history, Congress had just fought its first epic battle over slavery, and the threat of a Civil War loomed. But Lafayette, belonging to neither North nor South, to no political party or faction, was a walking, talking reminder of the sacrifices and bravery of the revolutionary generation and what they wanted this country to be. His return was not just a reunion with his beloved Americans, it was a reunion for Americans with their own astonishing singular past. Lafayette in the Somewhat United States is a humorous and insightful portrait of the famed Frenchman, the impact he had on our young country, and his

ongoing relationship with some of the instrumental Americans of the time, including George Washington, Alexander Hamilton, Thomas Jefferson, and many more.

Greetings from New Jersey is the first book to look back at the postcards that have played a part in New Jersey's travel industry. Helen-Chantal Pike organizes her book by the state's six official tourism regions: Gateway, Skylands, the Delaware River, the Southern Shore, Greater Atlantic City, and the Shore. Through her section introductions and lengthy captions, she offers a lively history of each region in general and each postcard in particular. Her final chapter describes the history of postcard use from 1893, and details the different collectible genres of postcards. Loaded with full-color reproductions of vintage postcards, Greetings from New Jersey will interest all residents, visitors, and historians.

Volumes 12 and 13 of this highly acclaimed documentary edition cover the first Congress's second session, from January to August 1790. Among other important issues in this critical period, Congress debated Hamilton's report on the public credit, federal assumption of state Revolutionary War debts, and antislavery petitions from Pennsylvania Quakers. The editors once more have assembled the most complete and reliable text of the debates by examining a variety of sources: stenographer Thomas Lloyd's shorthand notes, his Congressional Register, and contemporary newspaper accounts.

On a quest for what matters most, Timothy Shriver discovers a radically different, inspiring way of life. At a time when we are all more rudderless than ever, we look for the very best teachers and mentors to guide us. In *Fully Alive*, an unusual and gripping memoir, Timothy Shriver shows how his teachers have been the world's most forgotten minority: people with intellectual

disabilities. In these pages we meet the individuals who helped him come of age and find a deeper and more meaningful way to see the world. Shriver's journey begins close to home, where the quiet legacy of his aunt Rosemary, a Kennedy whose intellectual disability kept her far from the limelight, inspired his family to devote their careers to helping the most vulnerable. He plays alongside the children of Camp Shriver, his mother's revolutionary project, which provided a space for children with intellectual disabilities to play, and years later he gains invaluable wisdom from the incredible athletes he befriends as chairman of the organization it inspired, Special Olympics. Through these experiences and encounters with scholars, spiritual masters, and political icons such as Nelson Mandela, Shriver learns how to find humility and speak openly of vulnerability and faith. *Fully Alive* is both a moving personal journey and a meditation on some of the greatest wisdom and the greatest contradictions of our society. Is disability to be feared or welcomed, pitied or purged? Shriver argues that we all have different abilities and challenges we should embrace. Here we see how those who appear powerless have turned this seeming shortcoming into a power of their own, and we learn that we are all totally vulnerable and valuable at the same time.

On September 14, 1716, Boston Light became the first lighthouse established in Colonial America. With many ships floundering in the treacherous waters of the Massachusetts harbor, there was a great need for navigational aid. At night and during storms, it was difficult to discern the entrance to the main shipping channel of Nantasket Roads, situated between the Brewster islands and the town of Hull. The ledges had become a graveyard for ships, resulting

in great loss to human life and cargo—a deterrent to European colonization efforts. Ship captains and merchants petitioned the colonial government for a lighthouse to be erected on Little Brewster Island as a way of safe passage to the inner harbor. Three hundred years later, Boston Light continues to serve its purpose. Today, the lighthouse is protected by an ever-present Coast Guard civilian keeper and a cadre of specially trained Coast Guard Auxiliary volunteer assistant keepers.

An award-winning historian surveys the astonishing cast of characters who helped turn Manhattan into the world capital of commerce, communication and entertainment -- The basis for the major motion picture of the same name. An entrancing memoir of how one woman's journey of self-discovery gave her the courage to persevere in re-creating her life. Life is a work in progress, as ever-changing as a sandy shoreline along the beach. During the years Joan Anderson was a loving wife and supportive mother, she had slowly and unconsciously replaced her own dreams with the needs of her family. With her sons grown, however, she realized that the family no longer centered on the home she provided, and her relationship with her husband had become stagnant. Like many women in her situation, Joan realized that she had neglected to nurture herself and, worse, to envision fulfilling goals for her future. As her husband received a wonderful job opportunity out-of-state, it seemed that the best part of her own life was finished. Shocking both of them, she refused to follow him to his new job and decided to retreat to a family cottage on Cape Cod. At first casting about for direction, Joan soon began to take pleasure in her surroundings and call on resources she didn't realize she had. Over the course of a year, she gradually discovered that her life as an "unfinished woman" was full of possibilities. Out of that magical, difficult, transformative year

came *A Year by the Sea*, a record of her experiences and a treasury of wisdom for readers. New parents and parents of toddlers face unique challenges when it comes to planning outdoor trips. “Family-friendly trail” is often a misleading phrase, and doesn’t take young children under the age of 5 into consideration, whose safety and comfort require a different perspective. The unpredictable nature of little ones leads many parents to put their adventure dreams on the back burner, missing out on years of meaningful experiences as a family. *Hike it Baby* presents 100 outdoor adventures across the U.S. that you can take with babies and toddlers (really!), along with everything you need to know about exploring the natural world. Sourced from real families using *Hike it Baby*’s trail-tested system, this book helps moms and dads get out there in their comfort zone, yet feel like hardcore adventurers! Whether you’ve always wanted to hike part of the Appalachian Trail, splash around in gentle Northwest waterfalls, or scramble up rocks in the desert surrounded by Joshua Trees, this book shows you how to plan a truly memorable journey together.

Children in today's world are inundated with information about who to be, what to do and how

to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.
