The availability of digital editions of early modern works brings a wealth of exciting archival and primary source materials into the classroom. But electronic archives can be overwhelming and hard to use, for teachers and students alike, and digitization can distort or omit information about texts. Teaching Early Modern English Literature from the Archives places traditional and electronic archives in conversation, outlines practical methods for incorporating them into the undergraduate and graduate curriculum, and addresses the theoretical issues involved in studying them. The volume discusses a range of physical and virtual archives from 1473 to 1700 that are useful in the teaching of early modern literature--both major sources and rich collections that are less known (including affordable or free options for those with limited institutional resources).

Although the volume focuses on English literature and culture, essays discuss a wide range of comparative approaches involving Latin, French, Spanish, German, and early American texts and explain how to incorporate visual materials, ballads, domestic treatises, atlases, music, and historical documents into the teaching of literature. Excerpt from The Fables of Aesop A Charity. They told him that he should have Wrought in Summer, if he would not have Wanted in Winter. (e.g., whether teachers are responsible for student learning and how to measure student learning); (3) "Assessing Teacher Performance through Comparative Student Growth: The Dallas Value-Added Accountability System"; (4) "Assessing Teacher Performance through Repeated Measures of Student Gains: The Tennessee Value-Added Assessment System"; (5) "Assessing Teacher Performance with Student Work: The Oregon Teacher Work Sample Methodology"; (6) "Assessing Teacher Performance in a Standards-Based Environment: The Thompson, Colorado, School District"; and (7) "Teacher Evaluation and Student Achievement: What are the Lessons Learned and Where Do We Go from Here?" (e.g., basic requirements of fair testing programs that are to be used to inform teacher evaluation). Chapters 3-6 include information on the purposes of the accountability system and how it was developed; student assessment strategies; how the accountability system works; how the accountability system relates to teacher evaluation; the advantages and disadvantages of the accountability system for teacher evaluation; and results of implementation.
