

New Students Dictionary

A dictionary for use in grades six through nine with an entry list derived from printed materials used in schools. Includes a section on how to use the dictionary. In the United States, 20 percent of the adult population is marginally literate. Of these roughly 30 million people, approximately 1.8 million are enrolled in basic skills literacy programs. Webster's New World has created a dictionary that is uniquely designed to help these beginning readers. Webster's New World Basic Dictionary of American English defines 49,000 of the most commonly used words in the American English lexicon. These are the words adult readers are most likely to encounter in newspapers and magazines, on job applications and product instructions, on advertising billboards and their children's school progress reports. The dictionary defines these words in clear, easy-to-understand language, using only words that are themselves defined in the dictionary, but never condescending to the adult reader. Definitions are liberally supplemented with example phrases and sentences that put words in context and help new readers understand meaning and usage. Special notes on synonyms help new readers differentiate between words with similar meanings. And selected illustrations help readers identify and remember words. This quality paperback book is designed for ease of reading and use, as well as for durability. Primarily created for native English speakers, it is also a valuable reference for more advanced readers of English as a second language. From the editors of the prestigious Webster's New World College Dictionary, the Basic Dictionary of American English brings the full scholarship behind that work to this important new offering in the field of literacy.

The Collins Student's Dictionary, in colour, is specially written for students aged 14+ for use in class and at home and is based on the requirements of the National Curriculum. The content is informed by the requirements of the National Curriculum for students aged 14+, at Key Stage 4 and above or at Level 5 and above in their studies. This edition contains a feature on overused words, encouraging students to seek variety in their vocabulary choice. Help is also given with choosing the correct vocabulary for speaking and writing, and with judging how formal words may be. The Survival Guide to English helps students ensure the language they use fits the context, and is suitable for their audience and purpose, and offers help with writing clearly and effectively, including in exams. Now with a sturdy hardback cover, this edition of the Collins Student's Dictionary is ideal for carrying between home and school.

The perfect dictionary for students studying specialist subjects.

A large print English language dictionary which includes definitions and pronunciations of over 40,000 words.

The American Heritage Student Dictionary

An invaluable resource, with over 40,000 head words, compiled by teachers. It includes: * all the words, phrases and grammar needed to study a wide range of subjects, including agriculture, health care, mechanics, science and technology. * clear, easy

The Oxford Student's Dictionary contains 50,000 cross-curricular words and phrases, including technical vocabulary for the student aged 11+ years. It also includes 10,000 word origins, synonyms and usage notes. The easy pronunciation guides, style and subject labels and derived words all make this an excellent dictionary for the KS3 student.

This dictionary has been specially created to meet the needs of students in Africa and contains a supplement of key words and phrases used by Shakespeare.

A Student's Dictionary of Psychology is an essential reference for all undergraduate psychology students and those studying psychology for the first time, including those in related disciplines such as health care and social science. It provides the reader with clear definitions of key concepts from all areas of psychology. This new edition of A Student's Dictionary of Psychology adopts a slightly different format and extended content to previous editions, but it continues to be an 'explaining' dictionary rather than simply a set of one-line definitions. Following up all the references and cross-references relating to a topic should give the reader a reasonable overview of the subject; in that sense, the authors have often referred to it as a kind of random-access textbook, as well as a dictionary of the main terms in psychology. Key features include: Over 2,400 entries in total; Extensive cross referencing for easy navigation; Mini biographies of key psychologists; Common abbreviations and a list of key reference works; Study notes section. This new edition includes increased coverage of psychoneurology, social, clinical, and cognitive psychology, and research methodology, as well as several other terms which have come into common usage in recent years. It also includes a list of common abbreviations, and expanded coverage of significant figures in the history of psychology. This comprehensive dictionary will support the reader all the way through their psychology studies.

52,000 words, phrases and meanings in British and American English with curricular words highlighted Collocation and thesaurus boxes help students expand their vocabulary and sound more natural 40 Reference pages help students improve their academic writing and study skills Over 200 diagrams and illustrations make it easier to understand and describe scientific and technical processes Oxford 3000™ keyword entries show students the most important words to know in English, and Academic Word List words are also clearly marked CD-ROM includes the full A-Z dictionary, Oxford Wordfinder Dictionary, Oxford Genie, Topic Dictionary, My Topics Dictionary, plus language games and exercises to build vocabulary and practise for exams

This bestselling title has been fully revised and expanded. The concise, clearly written definitions offered in the dictionary reflect the curricula for grades 3 through 6. The thesaurus provides synonyms, antonyms, and related words that enrich vocabulary. The world atlas, created by the editors of Encyclopdia Britannica, is an invaluable aid to students in their studies of world events.
