A family with wanderlust, a sailboat to carry them across oceans, and an 11-pound dog to watch over them... These are the elements of this delightful memoir of adventurous living. Young newlyweds Peter and Dorothy Muilenburg found their way from New Hampshire to the Virgin Islands. He had been a civil rights Freedom Fighter, jailed in Mississippi while protesting racial injustice. In St. John, she founded the Pine Peace School. They both taught. On an East End beach, he built a sailboat strong enough to take them anywhere, and they put to sea with their two young sons. But their crew was not yet complete. Santos, a schipperke, came to them as a tiny puppy and sailed with them all his life—75,000 deep-sea miles—four times across the Atlantic, crisscrossing the Caribbean, coasting the U.S. eastern seaboard, exploring the Med, ranging up African rivers. A lightning rod for trouble, he survived a

kidnapping, hurricanes, raging surf, being lost overboard at sea, and was twice given up for dead. And he watched over his family with fierce and abiding devotion. If you want to see the world—really see it—go by sailboat. And if you want to absorb the world through every pore, take a venturesome dog as your guide. The bright spirit named Santos became a legend to millions of readers through the pages of SAIL and Reader's Digest magazines. Now Peter Muilenburg—a wise and observant chronicler with a true wanderer's desire to engage the world on authentic terms—has written this captivating story of familial love and adventure, unforgettable people and places, and an amazing schipperke who has sailed right into the sea dog hall of fame.

A passionate heroine defies the English class system in this novel set in 1875 London—perfect for lovers of Edith Wharton and *Downton Abbey*. Around the corner from the elegant townhouses on Albion Place is Britannia Mews, a squalid neighborhood where servants and coachmen live. In 1875, it's no place for a young girl of fine breeding, but independent-minded Adelaide Culver is fascinated by what goes on there. Years later, Adelaide shocks her family when she falls in love with an impoverished artist and moves into the mews. But violence shatters Adelaide's dreams. In a dangerous new world, she must fend for herself—until she meets a charismatic stranger and her life takes a turn she never expected. A novel about social manners and mores reminiscent of Edith Wharton, this story of love, family, and the price one must pay for throwing off the shackles of convention is also a witty and incisive dissection of the "upstairs, downstairs" English class system of the last two centuries.

them look the part closely enough at first glance that they are lumped in to a loosely formed concept that is popularly referred to as the "pit bull" or "pitbull." I intentionally use the single word, non-capitalized "pitbull" to refer to dogs under this broad umbrella." This is a book about differences, similarities and assumptions. I started this project by asking people to bring their "pitbulls" and "pit-mixes" to photo shoots in Pennsylvania, New Jersey and Maryland. I didn't ask for breeding papers, I didn't specify purebred American Pit Bull Terriers, I left it up to dog owners to self-identify their dogs as pitbulls or mixes, because they had decided themselves or been told by a shelter, a vet, or a DNA test that is what their dogs were. The result is a collection of dogs that look very, very different from one another, and yet, if a legislator or a landlord saw any of these dogs, he would call them pitbulls. The point is that while some of these dogs are purebred American Pit Bull Terriers (APBTs), the only true "Pit Bull," many of them look the part closely enough at first glance that they are lumped in to a loosely formed concept that is popularly referred to as the "pit bull" or "pitbull." I use the single word, non-capitalized "pitbull" to refer to dogs under this broad umbrella. The dogs featured here are Boxer mixes, American Bulldog mixes, Dogo Argentino mixes, Whippet Mixes and so many other kinds of breed mixes it will not do to list them all. Some of the dogs that look the most "Pit Bull" actually have the least APBT DNA according to their tests. My own Harrison is a strapping young fellow, robust, blocky-headed, strong, and someone cut his ears, but he is more Whippet than

Pit Bull. Laurelai, who started me down this road appears to be purebred APBT. As you go through the book, you may say to yourself, "That's not a Pit Bull" and you may very well be right, but to someone, some landlord, some shelter volunteer, some Breed Specific Legislation enforcer, some fearful neighbor or police officer, that dog IS a pitbull, or pitbull-enough. The misuse of the term is so rampant that "pitbull" has become nearly synonymous with "dog" and while it is true that today's All-American mutt has most of the characteristics that also define a true American Pit Bull Terrier, we are losing sight of what matters most: that a good dog is a good dog, no matter what you call him. The dogs in this book are each unique in their appearance and personalities, but they are united as good dogs, family dogs, therapy dogs, search and rescue dogs, and most importantly, happy dogs. They live with chickens, rabbits, horses, cats, other dogs, babies, cancer patients and humans with special needs. The owners in this book are part of a strong and growing movement of educated dog owners who advocate for education and understanding. These owners come from wildly different walks of life but follow the same road to liberate their happydogs from the crushing weight of societal misconceptions. Hopefully, seeing how different each dog in this project is from the next will illuminate how impractical and absurd it is to refer to them all with one label of any kind. Part of the proceeds from each sale go to pitbull-friendly rescues and dogs in need. Provides weather predictions for the entire United States and includes such features as the best days for fishing, recipes from the Wild West, and tips for tightwads.

When Emily Dickinson was given a puppy by her father, the two were instant best friends. She named him Carlo, after a dog in one of her favorite books, and she delighted in the growing dog's antics. Carlo, a Newfoundland (and possibly part Saint Bernard), grew to a rather large size and was full of energy. He loved his adventures with Emily. They were an odd pair—a tiny woman and a large, galumphing dog. But they were devoted to one another. Carlo gave Emily confidence to wander and explore the woods and hills near her home, and he listened to her stories and poems. This touching story—delightfully illustrated by Catherine Stock—gives a new insight into the life of the famed reclusive poet of Amherst, Massachusetts. Learning of her close friendship and love for Carlo sheds a new light on the thoughts and feelings of a woman believed to be lonely. Carlo is present in much of her poetry, and readers learn of a woman of charm and wit who loved her constant companion.

100 new and classic images of popular Instagram celebrity Jimmy Choo the Bull Terrier On Rafael Mantesso's thirtieth birthday, his wife left him. She took their cookware, their furniture, their photos, their decorations. She left Rafael alone in an empty all-white apartment. The only thing she didn't take was their bull terrier, whom she'd named after her favorite shoe designer: Jimmy Choo. With only Jimmy for company, Rafael found inspiration in his blank walls and his best friend and started snapping photos of Jimmy Choo as he trotted and cavorted around the house in glee. Then, when Jimmy collapsed in happy exhaustion next to the white wall, on a whim Rafael grabbed a marker and drew a new world around his ginger-eared pup. Suddenly, Rafael felt his long-dormant inspiration—for drawing, for art, for life—returning. The result? Hundreds of charming and cheeky images chronicling the owner and dog's relationship and adventures, including poses in a Star Wars stormtrooper helmet, passed out with liquor bottles, and as the shark in Jaws. Mantesso's Instagram feed quickly garnered fans from all over the world and caught the attention of major media outlets like Today, The Huffington Post, USA Today, and the Daily Mail, as well as Jimmy's namesake, the luxury shoe brand Jimmy Choo Ltd. Now, Mantesso presents a definitive selection of new and

Guy Stewart Callendar (1898–1964) is noted for identifying, in 1938, the link between the artificial production of carbon dioxide and global warming. Today this is called the “Callendar Effect.” He was one of Britain’s leading steam and combustion engineers, a specialist in infrared physics, author of the standard reference book on the properties of steam at high temperatures and pressures, and designer of the burners of the notable World War II airfield fog dispersal system, FIDO.

He was keenly interested in weather and climate, taking measurement so accurate that they were used to correct the official temperature records of central England and collecting a series of worldwide weather data that showed an unprecedented warming trend in the first four decades of the twentieth century. He formulated a coherent theory of infrared absorption and emission by trace gases, established the nineteenth-century background concentration of carbon dioxide, and suggested that its atmospheric concentration was rising due to human activities, which was causing the climate to warm. Callendar's contributions to climatology led the way in the mid-twentieth-century transition from the traditional practice of gathering descriptive climate statistics to the new and exciting field of climate dynamics. In the first half of the twentieth century, the carbon dioxide theory of climate change had fallen out of favor with climatists.
