Elie Wiesel, the bestselling author of *Night*, Holocaust survivor, and Nobel Peace Prize winner, offers a profound fictional account of what one Holocaust survivor must endure to find out what happened to his friend and savior after the war—while also discovering the meaning of his own survival. Raphael Lipkin is a man obsessed. He hears voices. He talks to ghosts. He is spending the summer at the Mountain Clinic, a psychiatric hospital in upstate New York—not as a patient, but as a visiting professional with a secret, personal quest. A professor of literature and a Holocaust survivor, Raphael, having rebuilt his life since the war, sees it on the verge of coming apart once more. He longs to talk to Pedro, the man who rescued him as a fifteen-year-old orphan from postwar Poland and brought him to Paris, becoming his friend, mentor, hero, and savior. But Pedro disappeared inside the prisons of Stalin's Russia shortly after the war. Where is Pedro now, and how can Raphael discern what is true and what is false without him? A mysterious nighttime caller directs Raphael's search to the Mountain Clinic, a unique asylum for patients whose delusions spring up from the Bible. Amid patients calling themselves Adam, Cain, Abraham, Joseph, Jeremiah, and God, Raphael searches for Pedro's truth and the meaning of his own survival in an extraordinary novel that penetrates the mysteries of good, evil, and madness.

Three works deal with a concentration camp survivor, a hostage holder in Palestine, and a recovering accident victim.

This award-winning novel of love, survival, and agonizing regret in post-WWII Brooklyn “belongs on that small shelf reserved for American masterpieces” (The Washington Post Book World). Winner of the National Book Award and a modern classic, *Sophie's Choice* centers on three characters: Stingo, a sexually frustrated aspiring novelist; Nathan, his charismatic but violent Jewish neighbor; and Sophie, an Auschwitz survivor who is Nathan's lover. Their entanglement in one another's lives will build to a stirring revelation of agonizing secrets that will change them forever. Poetic in its execution, and epic in its emotional sweep, *Sophie's Choice* explores the good and evil of humanity through Stingo's burgeoning worldliness, Nathan's volatile personality, and Sophie's tragic past. Mixing elements from Styron's own experience with themes of the Holocaust and the history of slavery in the American South, the novel is a profound and haunting human drama, representing Styron at the pinnacle of his literary brilliance. This ebook features an illustrated biography of William Styron, including original letters, rare photos, and never-before-seen documents from the Styron family and the Duke University Archives.

In this first volume of his two-volume autobiography, Wiesel takes us from his childhood memories of a traditional and loving Jewish family in the Romanian village of Sighet through the horrors of Auschwitz and Buchenwald and the years of spiritual struggle, to his emergence as a witness for the Holocaust's martyrs and survivors and for the State of Israel, and as a spokesman for humanity. With 16 pages of black-and-white photographs. "From the abyss of the death camps Wiesel has come as a messenger to mankind--not with a message of hate and revenge, but with one of brotherhood and atonement." --From the citation for the 1986 Nobel Peace Prize

The creation of the Pentagon in seventeen whirlwind months during World War II is one of the great construction feats in American history, involving a tremendous mobilization of manpower, resources, and minds. In astonishingly short order, Brigadier General Brehon B. Somervell conceived and built an institution that ranks with the White House, the Vatican, and a handful of other structures as symbols recognized around the world. Now veteran military reporter Steve Vogel reveals for the first time the remarkable story of the Pentagon's construction, from its dramatic birth to its rebuilding after the September 11 attack. At the center of the story is the tempestuous but courtly Somervell—“dynamite in a Tiffany box,” as he was once described. In July 1941, the Army construction chief sprang the idea of building a single, huge headquarters that could house the entire War Department, then scattered in seventeen buildings around Washington. Somervell ordered drawings produced in one weekend and, despite a firestorm of opposition, broke ground two months later, vowing that the building would be finished in little more than a year. Thousands of workers descended on the site, a raffish Virginia neighborhood known as Hell's Bottom, while an army of draftsmen churned out designs barely one step ahead of their execution. Seven months later the first Pentagon employees skirted seas of mud to move into the building and went to work even as construction roared around them. The colossal Army headquarters helped recast Washington from a sleepy southern town into the bustling center of a reluctant empire. Vivid portraits are drawn of other key figures in the drama, among them Franklin D. Roosevelt, the president who fancied himself an architect; Secretary of War Henry L. Stimson and Army Chief of Staff General George C. Marshall, both desperate for a home for the War Department as the country prepared for battle; Colonel Leslie R. Groves, the ruthless force of nature who oversaw the Pentagon's construction (as well as the Manhattan Project to create an atomic bomb); and John McShain, the charming and dapper builder who used his relationship with FDR to help land himself the contract for the biggest office building in the world. The Pentagon's post-World War II history is told through its critical moments, including the troubled birth of the Department of Defense during the Cold War, the tense days of the Cuban Missile Crisis, and the tumultuous 1967 protest against the Vietnam War. The pivotal attack on September 11 is related with chilling new detail, as is the race to rebuild the damaged Pentagon, a restoration that echoed the spirit of its creation. This study of a single enigmatic building tells a broader story of modern American history, from the eve of World War II to the new wars of the twenty-first century. Steve Vogel has crafted a dazzling work of military social history that merits comparison with the best works of David Halberstam or David McCullough. Like its namesake, The Pentagon is a true landmark.

From Elie Wiesel, a recipient of the Nobel Peace Prize and one of our fiercest moral voices, a provocative and deeply thoughtful new novel about a life shaped by the worst horrors of the twentieth century and one man's attempt to reclaim happiness. Doriel, a European expatriate living in New York, suffers from a profound sense of desperation and loss. His mother, a member of the Resistance, survived World War II only to die in an accident, together with his father, soon after. Doriel was a child during the war, and his knowledge of the Holocaust is largely limited to what he finds in movies, newsreels, and books—but it is enough. Doriel's parents and their secrets haunt him, leaving him filled with longing but unable to experience the most basic joys in life. He plunges into an intense study of Judaism, but instead of finding solace, he comes to believe that he is possessed by a dybbuk. Surrounded by ghosts, spurred on by demons, Doriel finally turns to Dr. Thérèse Goldschmidt, a psychoanalyst who finds herself particularly intrigued by her patient. The two enter into an uneasy relationship based on exchange: of dreams, histories, and secrets. Despite Doriel's initial resistance, Dr. Goldschmidt helps to bring him to a crossroads—and to a shocking denouement. In Doriel's journey into the darkest regions of the soul, Elie Wiesel has written one of his most profoundly moving works of fiction, grounded always by his unparalleled moral compass.

Distinguished psychotherapist and survivor Elhanan Rosenbaum is losing his memory to an incurable disease. Never having spoken of the war years before, he resolves to tell his son about his past—the heroic parts as well as the parts that fill him with shame—before it is too late. Elhanan's story compels his son to go to the Romanian village where the crime that continues to haunt his father was committed. There he encounters the improbable wisdom of a gravedigger who leads him to the grave of his grandfather and to the truths that bind one generation to another.

Describes growing up in an Africa that no longer exists, training and breeding race horses, flying mail to Sudan, and being the first woman to fly the Atlantic, east to west

Twenty years after he and his family were deported from Sighet to Auschwitz, Elie Wiesel returned to his town in search of the watch—a bar mitzvah gift—he had buried in his backyard before they left.

The Nobel Peace Prize-winner reflects on a variety of subjects, including the moral responsibility of governments and individuals, the role of the state, capital punishment, and mercy killing.

Collection of critical essays about Elie Wiesel's Holocaust memoir, *Night*.

There are probably no two men of such stature who can speak to the Holocaust as Christian theologian Johann Baptist Metz, author of *A Passion for God* and Jewish writer, Nobel laureate and human rights activist, Elie Wiesel, author of *Night*. One was drafted into the German army at the age of fifteen; the other was interned at Auschwitz. Both came from upbringings of deep faith, only to have their lives broken by the horrors they witnessed during the war. Both share the sense that the Holocaust is a rift in history itself, after which nothing could ever be seen in the same way as before. Yet for both, there is hope ... "nonetheless."

Presents the life of author, speaker, and Nobel Peace Prize winner Elie Wiesel.

"Based on an actual event that occurred during World War II, this heartbreaking narrative poem about history, immortality, and the power of song is accompanied by magnificent full-color paintings by award-winning artist Mark Podwal. It is the evening before the holiday of Purim, and the Nazis have given the ghetto's leaders twenty-four hours to turn over ten Jews to be hung to "avenge" the deaths of the ten sons of Haman, the villain of the Purim story, which celebrates the triumph of the Jews of Persia over potential genocide some 2,400 years ago. If they refuse, the entire ghetto will be liquidated. The terrified leaders go to the ghetto's rabbi for advice; he tells them to return the next morning. Over the course of the night the rabbi calls up the spirits of rabbis from centuries past for advice; each is rendered speechless by what the rabbi describes. The 18th century mystic and founder of Hasidism, the Ba'al Shem Tov, tries to intercede with God by singing a niggun, a wordless, joyful melody with the power to break the chains of evil, but his efforts end in failure. Then the beloved Rabbi Levi Yitzhak of Berdichev appears. There is only one possible response, he says. And the ghetto rabbi agrees. That evening, everyone in the ghetto is herded into the synagogue courtyard. When no one steps forward, they are informed that in an hour they will all be killed. How does one prepare to die? The question is laid before the ghetto rabbi, and he teaches them the song that the Ba'al Shem Tov taught him the night before. As their voices soar upward, they are joined by Jews from centuries past from all over the world, all singing the Ba'al Shem Tov's niggun as the massacre begins. And as the souls of these men, women, and children rise to the heavens, their song continues, uninterrupted, to the end of time and beyond"--

The author, at age eighty-two, was told that he needed immediate surgery to clear his blocked arteries. On what he knew might very well be his deathbed, he reflected on his many losses and accomplishments, and on all that remained to be done. Fortunately, he survived the life-threatening heart surgery to turn those reflections into a book which discusses his affection for his family both departed and still living, his aspirations for his writing, and his hope that he improved the world

The national director of the Anti-Defamation League presents a critical assessment of the "Israel Lobby" and other stereotype-based ideologies, arguing that long-standing prejudices are reemerging in virulent new forms throughout the globe, in a cautionary report that poses decisive solutions to key international issues. What is the difference between writing a novel about the Holocaust and fabricating a memoir? Do narratives about the Holocaust have a special obligation to be 'truthful'--that is, faithful to the facts of history? Or is it okay to lie in such works? In her provocative study *A Thousand Darkesses*, Ruth Franklin investigates these questions as they arise in the most significant works of Holocaust fiction, from Tadeusz Borowski's Auschwitz stories to Jonathan Safran Foer's postmodernist family history. Franklin argues that the memory-obsessed culture of the last few decades has led us to mistakenly focus on testimony as the only valid form of Holocaust writing. As even the most canonical texts have come under scrutiny for their fidelity to the facts, we have lost sight of the essential role that imagination plays in the creation of any literary work, including the memoir. Taking a fresh look at memoirs by Elie Wiesel and Primo Levi, and examining novels by writers such as Piotr Rawicz, Jerzy Kosinski, W.G. Sebald, and Wolfgang Koeppen, Franklin makes a persuasive case for literature as an equally vital vehicle for understanding the Holocaust (and for memoir as an equally ambiguous form). The result is a study of immense depth and range that offers a lucid view of an often cloudy field. "Wiesel's account of his time in concentration camps during the Holocaust with updated front and back matter to include speeches and essays commemorating his recent death"--

In the wake of Bernie Madoff's ruinous investment schemes, Abe Foxman takes a cultural and political look at the many variations throughout history of the assumptions made about Jews and money. These include Jews as greedy global capitalists; Jews as wealthy secret communists; Jews as cheapskates; and Jews controlling the media with their money to unduly influence society. Foxman makes the case that these stereotypes have permeated cultures globally and argues that these beliefs are rooted in deep-seated and pervasive anti-Semitism. As with all forms of bigotry, society at large needs to respond to the persistence of stereotypes by educating the young, denouncing hate speech, and by encouraging Jews, like all groups, to express pride in their ethnic and religious heritage.

The narrative of a boy who lived through Auschwitz and Buchenwald provides a short and terrible indictment of modern humanity. A former Glasgow alcoholic pays tribute to his relationship with a faithful Doberman named Martin, an astute canine whom the author credits with saving his life by motivating him to make healthier choices.

A man seriously injured when hit by a car is taken to the hospital where a doctor, the woman who loves him, and his artist friend lead him to yearn for life rather than death.

Shares a dialog on the Holocaust, anti-Semitism, and faith

In *Wise Men and Their Tales*, a master teacher gives us his fascinating insights into the lives of a wide range of biblical figures, Talmudic scholars, and Hasidic rabbis. The matriarch Sarah, fiercely guarding her son, Isaac, against the negative influence of his half-brother Ishmael; Samson, the solitary hero and protector of his people, whose singular weakness brought about his tragic end; Isaiah, caught in the middle of the struggle between God and man, his messages of anger and sorrow counterbalanced by his timeless, eloquent vision of a world at peace; the saintly Rabbi Yehoshua ben Levi, who by virtue of a lifetime of good deeds was permitted to enter heaven while still alive and who tried to ensure a similar fate for all humanity by stealing the sword of the Angel of Death. Elie Wiesel tells the stories of these and other men and women who have been sent by God to help us find the godliness within our own lives. And what interests him most about these people is their humanity, in all its glorious complexity. They get angry—at God for demanding so much, and at people, for doing so little. They make mistakes. They get frustrated. But through it all one constant remains—their love for the people they have been charged to teach and their devotion to the Supreme Being who has sent them. In these tales of battles won and lost, of exile and redemption, of despair and renewal, we learn not only by listening to what they have come to tell us, but by watching as they live lives that are both grounded in earthly reality and that soar upward to the heavens.

*A New Translation From The French* By Marion Wiesel *Night* is Elie Wiesel's masterpiece, a candid, horrific, and deeply poignant autobiographical account of his survival as a teenager in the Nazi death camps. This new translation by Marion Wiesel, Elie's wife and frequent translator, presents this seminal memoir in the language and spirit truest to the author's original intent. And in a substantive new preface, Elie reflects on the enduring importance of *Night* and his lifelong, passionate dedication to ensuring that the world never forgets man's capacity for inhumanity to man. *Night* offers much more than a litany of the daily terrors, everyday perversions, and rampant sadism at Auschwitz and Buchenwald; it also eloquently addresses many of the philosophical as well as personal questions implicit in any serious consideration of what the Holocaust was, what it meant, and what its legacy is and will be.

An autobiographical narrative, in which the author describes his experiences in Nazi concentration camps.

As this concluding volume of his moving and revealing memoirs begins, Elie Wiesel is forty years old, a writer of international repute. Determined to speak out more actively for both Holocaust survivors and the disenfranchised everywhere, he sets himself a challenge: "I will become militant. I will teach, share, bear witness. I will reveal and try to mitigate the victims' solitude." He makes words his weapon, and in these pages we relive with him his unstinting battles. We see him meet with world leaders and travel to regions ruled by war, dictatorship, racism, and exclusion in order to engage the most pressing issues of the day. We see him in the Soviet Union defending persecuted Jews and dissidents; in South Africa battling apartheid and supporting Mandela's ascension; in Cambodia and in Bosnia, calling on the world to face the atrocities; in refugee camps in Albania and Macedonia as an emissary for President Clinton. He chastises Ronald Reagan for his visit to the German military cemetery at Bitburg. He supports Lech Walesa but challenges some of his views. He confronts Francois Mitterrand over the misrepresentation of his activities in Vichy France. He does battle with Holocaust deniers. He joins tens of thousands of young Austrians demonstrating against re nascent fascism in their country. He receives the Nobel Peace Prize. Through it all, Wiesel remains deeply involved with his beloved Israel, its leaders and its people, and laments its internal conflicts. He recounts the behind-the-scenes events that led to the establishment of the Holocaust Museum in Washington, D.C. He shares the feelings evoked by his return to Auschwitz, by his recollections of Yitzhak Rabin, and by his memories of his own vanished family. This is the magnificent finale of a historic memoir.

Mark Hanna—the turn-of-the-century iron-and-coal-magnate-turned-operative who leveraged massive contributions from the robber barons—was famously quoted as saying: "There are two things that are important in politics. The first is money, and I can't

remember what the second one is.” To an extent that would have made Hanna blush, a series of developments capped by the Supreme Court’s 2010 Citizens United decision effectively crowned a bunch of billionaires and their operatives the new kings of politics. Big Money is a rollicking tour of a new political world dramatically reordered by ever-larger flows of cash. Ken Vogel has breezed into secret gatherings of big-spending Republicans and Democrats alike—from California poolsides to DC hotel bars—to brilliantly expose the way the mega-money men (and rather fewer women) are dominating the new political landscape. Great wealth seems to attach itself to outsize characters. From the casino magnate Sheldon Adelson to the bubbling nouveau cowboy Foster Friess; from the Texas trial lawyer couple, Amber and Steve Mostyn, to the micromanaging Hollywood executive Jeffrey Katzenberg—the multimillionaires and billionaires are swaggering up to the tables for the hottest new game in politics. The prize is American democracy, and the players’ checks keep getting bigger.
