Beauty Meets Beast in San Francisco Accepting employment as a governess after hard times hit her family, medieval scholar Rosalind Hawkins is surprised when she learns that her mysterious employer has no children, no wife, and she is not to meet with him face to face. Instead, her duties are to read to him, through a speaking tube, from ancient manuscripts in obscure, nearly-forgotten dialects. A requirement for the job was skill in translating medieval French, and she now understands the reason for that requirement, and assumes her unseen employer's interest in the descriptions of medieval spells and sorcery is that of an eccentric antiquary. What she does not realize is that his interest is anything but academic. He has a terrible secret and is desperately searching for something that can reverse the effects of the misfired spell which created his predicament. A WWII history told from US and Japanese perspectives—"an impressively researched chronicle of the months leading up to the atomic bombing of Hiroshima" (Publishers Weekly). During the closing months of World War II, two military giants locked in a death embrace of cultural differences and diplomatic intransigence. While developing history's deadliest weapon and weighing an invasion that would have dwarfed D-Day, the US called for the "unconditional surrender" of Japan. The Japanese Empire responded with a last-ditch plan termed Ketsu-Go, which called for the suicidal resistance of every able-bodied man and woman in "The Decisive Battle" for the homeland. In 140 Days to Hiroshima, historian David Dean Barrett captures war-room drama on both sides of the conflict. Here are the secret strategy sessions, fierce debates, looming assassinations, and planned invasions that resulted in Armageddon on August 6, 1945. Barrett then examines the next nine chaotic days as the Japanese government struggled to respond to the reality of nuclear war.
