A provocative account of the long, racist history of our immigration system, revealing how it has become the brutal machine that today upends the lives of millions of immigrants Each year in the United States, hundreds of thousands of people are arrested, imprisoned, and deported, trapped in what leading immigrant rights activist and lawyer Alina Das calls the "deportation machine." The bulk of the arrests target people who have a criminal record--so-called "criminal aliens"--the majority of whose offenses are immigration-, drug-, or traffic-related. These individuals are uprooted from their homes, their families, and their communities, and banished. Through the stories of those caught in the system, Das traces the ugly history of immigration policy to explain how the US constructed the idea of the "criminal alien," effectively dividing immigrants into the categories "good" and "bad," "deserving" and "undeserving." As Das argues, we need to confront the cruelty of the machine so that we can build an inclusive immigration policy premised on human dignity and break the cycle once and for all.

Leading in organizations working for justice is not the same as leading anywhere else. Staff expect to be treated as partners and demand internal practices that center equity. Justice leaders must meet these expectations, as well as recognize and address the ways that individuals and organizations inadvertently replicate oppression. Created specifically for social justice leaders, Leading for Justice addresses specific concerns and issues that beset organizations working for social justice and offers practices and models that center justice and equity. Topics include: the role of a supervisor in a social justice organization, the importance of self-awareness, issues of power and privilege, human resources as a justice partner, misses and messes, and clear guidelines for holding people accountable in a manner that is respectful and effective. Written in a friendly, accessible, and supportive tone, and offering discussion questions at the end of each short section to make the book user-friendly for both individuals and teams, Leading for Justice is a book for leaders who want to walk the talk of supporting social justice, in their organizations and in the world.

"The Justice of Mercy is exhilarating reading. Teeming with intelligence and insight, this study immediately establishes itself as the unequalled philosophical and legal exploration of mercy. But Linda Meyer's book reaches beyond mercy to offer reconceptualizations of justice and punishment themselves. Meyer's ambition is to rethink the failed retributivist paradigm of criminal justice and to replace it with an ideal of merciful punishment grounded in a Heideggerian insight into the gift of being-with-others. The readings of criminal law, Heideggerian and Levinasian philosophy, and literature are powerful and provocative. The Justice of Mercy is a radical and rigorous exploration of both punishment and mercy as profoundly human activities." ---Roger Berkowitz, Director of the Hannah Arendt Center for Ethical and Political Thinking, Bard College "This book addresses a question both ancient and urgently timely: how to reconcile the law's call to justice with the heart's call to mercy? Linda Ross Meyer's answer is both philosophical and pragmatic, taking us from the conceptual roots of the supposed conflict between justice and mercy to concrete examples in both fiction and contemporary criminal law. Energetic, eloquent, and moving, this book's defense of mercy will resonate with philosophers, legal scholars, lawyers, and policymakers engaged with criminal justice, and anyone concerned about our current harshly punitive legal system." ---Carol Steiker, Harvard Law School "Far from being a utopian, soft and ineffectual concept, Meyer shows that mercy already operates within the law in ways that we usually do not recognize. . . . Meyer's piercing insights and careful analysis bring the reader to think of law, justice, and mercy itself in a new and far more profound light." ---James Martel, San Francisco State University How can granting mercy be just if it gives a criminal less punishment than he "deserves" and treats his case differently from others like it? This ancient question has become central to debates over truth and reconciliation commissions, alternative dispute resolution, and other new forms of restorative justice. The traditional response has been to marginalize mercy and to cast doubt on its ability to coexist with forms of legal justice. Flipping the relationship between justice and mercy, Linda Ross Meyer argues that our rule-bound and harsh system of punishment is deeply flawed and that mercy should be, not the crazy woman in the attic of the law, but the lady of the house. This book articulates a theory of punishment with mercy and illustrates the implications of that theory with legal examples drawn from criminal law doctrine, pardons, mercy in military justice, and fictional narratives of punishment and mercy. Linda Ross Meyer is Carmen Tortora Professor of Law at Quinnipiac University School of Law; President of the Association for the Study of Law, Culture and the Humanities; and Associate Editor of Journal of Law, Culture and the Humanities. Jacket illustration: "Lotus" by Anthony James In light of the heart-breaking ethnic division rending America today, A House Without Walls seeks to foster multi-ethnic harmony in evangelical congregations by bringing Biblical clarity to current racial and ethnic conversations. It uses Scripture to answer some pressing questions of our day like, "Are all people inherently racist?" "Does the gospel include racial justice?" "Does the Bible advocate for white repentance?" A House Without Walls attempts to realign discussions about race under the Lordship of Jesus Christ, focusing on Biblical understanding and applications. It also includes extra-Biblical research explaining the language and logic of current conversations about race, within an aim towards confidence in engaging the prevalent cultural discourse on race. The hopeful outcome of this work is listing unity among believers from diverse ethnic groups facilitated by this Scriptural study.

No Justice A Heart Wrenching True Story of Abuse of a Twelve-Year-old Child

Pakistan has been labelled as one of the most controversial countries in the world. A country tainted with military dictatorships, tormented by religious extremists and fleeced by years of corrupt democratic rule. It is a place where an endemic culture of nepotism blooms with impunity. The biggest casualty of this political and social homicide are the ordinary citizens who are left to struggle with appalling economic conditions and a system sorely in need of repair. In a climate as unsettling as that, one noise exploded onto the scene with an unyielding aggression. Imran Khan, former cricket celebrity, philanthropist and turned politician, seems to have changed the decorum of Pakistan's botched-up political landscape. An irreverent iconoclast, Khan established his Movement for Justice party back in 1996 and has doggedly moved up the ranks. Brazenly accusing his opponents with unprecedented levels of corruption, Imran's party has gone from being a novice presence to one of the most defiant voices in the parliament's opposition benches. Let There Be Justice: The Political Journey of Imran Khan is an intriguing story of Imran Khan's populist politics, his verve and unfettered commitment which may eventually swing him into power at the next general elections in 2018.

Justice is the act of giving back, restoring, or making something right. Everyone in politics is in the justice business in one form or another. Pursuits of Justice is a collection of speeches and writings completed during the course of Dave Bradley's eight-year tenure in the Arizona State House of Representatives. These writings represent Bradley's thoughts during his elective career. They are not meant to be a broad, sweeping treatise on public policy or political philosophy. Instead, Bradley hopes others may find his writings interesting and helpful in developing their own political thoughts and aspirations.

Describes one Honduran boy's difficult and dangerous journey to find his mother, who had made the trek northward to the United States in search of a better life when Enrique had been five years old, but who had never made enough money to return home for her children, in a poignant account that addresses the issues of family and the implications of illegal immigration. Reprint. 30,000 first printing.

On the morning of 7 November 2011, Tracey Marceau lived every mother's worst nightmare. A young man entered her home, pushing Tracey to the side before kicking and repeatedly stabbing her daughter. Christie died in her mother's arms. Christie's killer, Akshay Chand, was released on bail just a month earlier for kidnapping Christie, during which he threatened to rape and kill her. Christie had begged the courts to keep him in custody, fearing for her life. Her death was entirely preventable. Christie is the story of her life, the events leading up to her killing, and previously untold details of what happened that day. Tracey shares how she and the family pulled together amid unthinkable tragedy and got their lives back on track. Importantly, this book questions how a calculating, cold-blooded killer could be found not guilty on grounds of insanity, and how our country's bail laws could let an ordinary family down so disastrously. Raw, moving and thought-provoking, Christie is a tribute to a daughter taken too soon. 'Christie will never be able to tell her story herself. But as the mum of such a bright star, I will ensure she is heard. I will never give up because I know that she never would have.' This powerful, true story of faith and forgiveness shows that all of us are capable of experiencing the healing and renewal that comes with truly forgiving another. Change of Heart follows the transformative journey undertaken by Jeanne Bishop after the murders of her sister and brother-in-law, a journey that challenged Jeanne's belief in the message of Jesus on the cross and eventually moved her beyond simple forgiveness to the deeper waters of redemption and grace. Jeanne's authentic story will

guide readers past the temptation of anger and revenge, and help them navigate the path of truly forgiving someone whose actions have hardened their heart. From once wishing that her sister's killer languished in a cell for the rest of his life, Jeanne now visits him regularly in prison and publicly advocates for his release. "It's not okay what you did, but I am not going to hate you. I am not going to wish evil on you," writes Bishop of the murderer. "I am going to wish the opposite. I am going to wish that you will be redeemed." "The criminal justice system in the United States, which deems some people unworthy of redemption" even children who commit serious crimes"urgently needs to hear voices that speak for mercy and restoration. Jeanne Bishop's is such a voice" writes Sr. Helen Prejean, activist and author of *Dead Man Walking*. *Change of Heart* confronts these serious and pressing issues of restorative justice, juvenile life sentences, and incarceration in the criminal justice system. Ultimately, Jeanne is writing more than a memoir of finding faith through extraordinary obstacles. Her compelling story offers a better understanding of what it truly means to be a person of faith. It is a call to action that is a "must-read for pastors, social workers, caregivers, and all who seek to build community with people relegated to the margins" (Greg Ellison, Emory University).

The harrowing true story of Robbie Tolan, a young black man who was shot in the chest by a white police officer . . . in his own driveway. *NO JUSTICE* is the harrowing story of Robbie Tolan, who early on one New Year's Eve morning, found himself being rushed to the hospital. A white police officer had shot him in the chest after mistakenly accusing him of stealing his own car...while in his own driveway. In a journey that took nearly a decade, Tolan and his family saw his case go before the United States Supreme Court in a groundbreaking decision, while Tolan struggled with how to put his life back together. Holding him together through this journey was the strength of his mother and father, his faith in God, and an impenetrable belief that he deserved justice like any other American who'd been wronged. *NO JUSTICE* is the story about what happened after the cameras and social media protests went away. Robbie Tolan was left with the physical and mental devastation from having his body violated by someone who was supposed to serve and protect him. His story reminds us that police brutality is not a theoretical talking point in a larger nationwide argument. This story is about Robbie Tolan courageously picking up the pieces of his life, even as he fights for justice for all.
