From Christina Lamb, the coauthor of the bestselling *I Am Malala* and an award-winning journalist—an essential, groundbreaking examination of how women experience war. In *Our Bodies, Their Battlefields*, longtime intrepid war correspondent Christina Lamb makes us witness to the lives of women in wartime. An award-winning war correspondent for twenty-five years (she's never had a female editor) Lamb reports two wars—the “bang-bang” war and the story of how the people behind the lines live and survive. At the same time, since men usually act as the fighters, women are rarely interviewed about their experience of wartime, other than as grieving widows and mothers, though their experience is markedly different from that of the men involved in battle. Lamb chronicles extraordinary tragedy and challenges in the lives of women in wartime. And none is more devastating than the increase of the use of rape as a weapon of war. Visiting warzones including the Congo, Rwanda, Nigeria, Bosnia, and Iraq, and spending time with the Rohingya fleeing Myanmar, she records the harrowing stories of survivors, from Yazidi girls kept as sex slaves by ISIS fighters and the beekeeper risking his life to rescue them; to the thousands of schoolgirls abducted across northern Nigeria by Boko Haram, to the Congolese gynecologist who stitches up more rape victims than anyone on earth. Told as a journey, and structured by country, *Our Bodies, Their Battlefields* gives these women voice. We have made significant progress in international women's rights, but across the world women are victimized by wartime atrocities that are rarely recorded, much less punished. The first ever prosecution for war rape was in 1997 and there have been remarkably few convictions since, as if rape doesn't matter in the reckoning of war, only killing. Some courageous women in countries around the world are taking things in their own hands, hunting down the war criminals themselves, trying to trap them through Facebook. In this profoundly important book, Christina Lamb shines a light on some of the darkest parts of the human experience—so that we might find a new way forward. *Our Bodies, Their Battlefields* is as inspiring and empowering as it is urgent, a clarion call for necessary change.

A NATIONAL BESTSELLER "No One Is Talking About This reaches for the sublime, online and off...Lockwood is a modern word witch, her writing splendid and sordid by turns." —New York Times Book Review "Wow. I can't remember the last time I laughed

so much reading a book. What an inventive and startling writer...I'm so glad I read this. I really think this book is remarkable." —David Sedaris From "a formidably gifted writer" (The New York Times Book Review), a book that asks: Is there life after the internet? As this urgent, genre-defying book opens, a woman who has recently been elevated to prominence for her social media posts travels around the world to meet her adoring fans. She is overwhelmed by navigating the new language and etiquette of what she terms "the portal," where she grapples with an unshakable conviction that a vast chorus of voices is now dictating her thoughts. When existential threats--from climate change and economic precariousness to the rise of an unnamed dictator and an epidemic of loneliness--begin to loom, she posts her way deeper into the portal's void. An avalanche of images, details, and references accumulate to form a landscape that is post-sense, post-irony, post-everything. "Are we in hell?" the people of the portal ask themselves. "Are we all just going to keep doing this until we die?" Suddenly, two texts from her mother pierce the fray: "Something has gone wrong," and "How soon can you get here?" As real life and its stakes collide with the increasingly absurd antics of the portal, the woman confronts a world that seems to contain both an abundance of proof that there is goodness, empathy, and justice in the universe, and a deluge of evidence to the contrary. Fragmentary and omniscient, incisive and sincere, *No One Is Talking About This* is at once a love letter to the endless scroll and a profound, modern meditation on love, language, and human connection from a singular voice in American literature.

"For anyone who is a mother, or who has a mother, [Mom Genes] is an eye-opening tour through the biology and psychology of a role that is at once utterly ordinary and wondrously strange." —Annie Murphy Paul, author of *Origins* From the New York Times bestselling author of *The Lion in the Living Room* comes a fascinating and provocative exploration of the biology of motherhood. Everyone knows how babies are made, but scientists are only just beginning to understand the making of a mother. *Mom Genes* reveals the hard science behind our tenderest maternal impulses, tackling questions such as whether a new mom's brain ever really bounces back, why mothers are destined to mimic their own moms (or not), and how maternal aggression makes females the world's most formidable creatures. Part scientific odyssey, part memoir, *Mom Genes* weaves the latest research with Abigail Tucker's personal experiences to create a delightful, surprising, and poignant portrait of motherhood. It's vital reading for anyone who has ever wondered what rocks the hand that rocks the cradle.

The purpose of the book is as much to help the reader to gain the insight to develop a 'world view' of how the Internet supports business marketing efforts, and how the different elements of the Web's infrastructure (Search Engines, Social Media Sites, Individual Websites, Review Portals, etc.) can work together to help any business find the people who most need their services, as it is to leverage that insight to assist them build their business to foster mutually beneficial relationships with visitors and prospects who are ultimately transformed into long-term customers. Most readers of this book will either be starting up a new business, or be at the point where they realize they have to obtain a clear idea of what's involved with the basics of online marketing, and who want to establish an Online Marketing Program that will not only add new customers in the short term, but also provide the foundation for growing their business far into the future.

On any given day, "Wisdom Collectors," which can include scholars, poets and general enthusiasts, are lined up awaiting the next nuggets of wisdom. Each word of wisdom builds on previous words of wisdom whether spoken or written by such individuals as Abigail Adams, Abraham Lincoln, Andy Rooney, Angela Lansbury, Ann Richards, Aristotle or Audrey Hepburn. These are just a few of the A's. The B's through Z's are just as impressive. Nancy Hopkins Reily has now dealt with these words of wisdom, sometimes in rhyme, metered, and narrative verse, and presented them in a musical beat that not everyone will recognize—all done with an uncanny imagination that cuts through to the core of every issue and includes the youth and adults. *Wisdom Collectors* also delve into the living of life such as traveling, cooking, photographing, retiring and preparing for emergencies. "These selective nuggets," Nancy says, "are welcome to all members and non-members of the Wisdom Collectors whose current membership, by the way, is one person—me." Nancy's wisdom began when she was a young native Dallas, Texan and learned that it was okay to say, "I don't know." Graduated from Southern Methodist University, she claimed that she wasn't very sexy if her high heel shoes hurt her feet. As a beginning homemaker, there was nothing like the sound of scraping burnt toast. In raising two children, Nancy realized that each age came in the right sequence. And just as she finished her work as a mother, she became a grandmother. One grandson taught her that Louisiana doesn't drain very well. When she began her writing career, she declared that fifty percent of writing is just showing up to write and to surround yourself with talented people. Nancy says that the best advice she has been given is, "Drink very little liquid, if any, after six pm." And, upon reflection she wonders, "Do I want to be a pioneer woman and be among the first women to stop cooking?" NANCY HOPKINS REILY is also the author of "Classic Outdoor Color Portraits, A Guide for Photographers;" "Georgia O'Keeffe, A Private Friendship, Part I, Walking the Sun Prairie Land;" "Georgia O'Keeffe, A Private Friendship, Part II, Walking the Abiquiu and Ghost Ranch Land;" and "Joseph Imhof, Artist of the Pueblos" with Lucille Enix, all from Sunstone Press.

From social psychologist Dr. Devon Price, a fascinating and thorough examination of what they call the "laziness lie"—which falsely tells us we are not working or learning hard enough—filled with practical and accessible advice for overcoming society's pressure to "do more." Extra-curricular activities. Honors classes. 60-hour work weeks. Side hustles. Like many Americans, Dr. Devon Price believed that productivity was the best way to measure self-worth. Price was an overachiever from the start, graduating from both college and graduate school early, but that success came at a cost. After Price was diagnosed with a severe case of anemia and heart complications from overexertion, they were forced to examine the darker side of all this productivity. *Laziness Does Not Exist* explores the psychological underpinnings of the "laziness lie," including its origins from the Puritans and how it has continued to proliferate as digital work tools have blurred the boundaries between work and life. Using in-depth research, Price explains that people today do far more work than nearly any other humans in history yet most of us often still feel we are not doing enough. Dr. Price offers science-based reassurances that productivity does not determine a person's worth and suggests that the solution to problems of overwork and stress lie in resisting the pressure to do more and instead learn to embrace

doing enough. Featuring interviews with researchers, consultants, and experiences from real people drowning in too much work, *Laziness Does Not Exist* encourages us to let go of guilt and become more attuned to our own limitations and needs and resist the pressure to meet outdated societal expectations.

No one wants to read what you've written. Your reader will not excitedly open your brief, relishing some quality time with your legal argument. No, your reader wants only to have finished your brief and to understand what she needs to form an opinion. The judges and clerks don't want to read your brief, they want to have read it. Keep this in mind while you write. How can I be clearer? How can I be simpler? How can I be shorter? How can I make it easy for my reader? Be generous, not worrying about how the readers will judge you, but how your writing can ease their burden. This handbook suggests ways to simplify your writing. But they're not enough. The key is to write and rewrite. Your first ideas are the puzzle pieces fresh out of the box. You will need to move them around the table and experiment until they fit together neatly. One idea should naturally lead to the next, not shoved together awkwardly. You will be finished when you no longer see a puzzle, but a clear picture comprising simple ideas. Give your reader a picture, not a puzzle.

Parenting in the new millennium! We spend more money on our kids than ever before. They tend to do less work around the house than ever. Add to that the fact that they have more freedom of movement and we end up with a situation where jobs that historically went to young people are being given to senior citizens and even the mentally challenged. The perception is that our children today are lazy and have low work ethic. The federal government says more and more of them will be living at home with their parents longer. *Nobody Wants Your Child* explains to parents in a common sense way how we got in this situation and more importantly how to make sure that our kids will be wanted

in the work place.

The premise of this bizarre comedy is that the world doesn't care about your troubles. Tell people you're dying and they'll invite you to see the Wizard of Oz. Tell them you're not dying and they'll insist you are. They'll photograph you, interview you, bring you beer; do anything but look at what is happening. In the midst of this insanity Edie and Joe prove that love is the medicine of the moment. Excellent roles for all.-- from publisher.

In this book, Michelle shares her personal story and journey, from growing up in a 'normal' family, to enduring 'normal' growing up stuff, and walking out a 'normal, nothing-to-see-here' kind of life. She is transparent and bluntly truthful at times, walking you through the emotions of a 'normal' story, and exposing some of the lies the enemy told her along the way to keep her quiet. There is no such thing as a 'normal story', The world screams so loudly at most of us, telling us that we have nothing to say, nothing to share, nothing to tell, because our story is way too common and uninspiring. We hide in the shadow of other people's 'amazing stories' and we opt out of telling our own. In this book, you'll be encouraged to:--Share your own story with unapologetic confidence--See your testimony in a new light--Identify and break the enemy's lies concerning your life There is no journey that's been a waste of steps. There is no road that wasn't worth taking. So grab a cup of coffee, sit down, and walk through Michelle's life with her, and see what God can do with a life surrendered to Him. Your life is way too breathtaking for you to keep it hidden any longer. Let's not just tell our story. How about we shout it? Yes, that's much better...you do have a story worth telling!

From bestselling writer David Graeber—"a master of opening up thought and stimulating debate" (Slate)—a powerful argument against the rise of meaningless, unfulfilling jobs...and their consequences. It went viral. After one million online views in seventeen different languages, people all over the world are still debating the answer. There are hordes of people—HR consultants, communication coordinators, telemarketing researchers, corporate lawyers—whose jobs are useless, and, tragically, they know it. These people are caught in bullshit jobs. This book is for everyone who wants to turn their vocation back into an avocation and "a thought-provoking examination of our working lives" (Financial Times).

There's a mantra that real writers know but wannabe writers don't. And the secret phrase is this: NOBODY WANTS TO READ YOUR SH*T. Recognizing this painful truth is the first step in the writer's transformation from amateur to professional. From Chapter Four: "When you understand that nobody wants to read your shit, you develop empathy. You acquire the skill that is indispensable to all artists and entrepreneurs—the ability to switch back and forth in your imagination from your own point of view as writer/painter/seller to the point of view of your reader/gallery-goer/customer. You learn to ask yourself with every sentence and every phrase: Is this interesting? Is it fun or challenging or inventive? Am I giving the reader enough? Is she bored? Is she following where I want to lead her?"

No One Wants You A true story of a child forced into prostitution Random House

We are all different in some ways, yet, very similar because we all respond to emotions of love, affection, joy and sorrow. These feelings are common to all-across ethnicities, geographies and boundaries. Yet there are certain factors which

contribute to our identity, which visibly make us look dissimilar, and impacts how we connect and belong. The colour of the skin, through its subtle and attached symbolism and beliefs, its presence or the lack of it, tells a story of human dynamics that is constructive and/or destructive, depending on the lens used. It has the visual power to influence, pronounce judgements, divide, confer privileges and even influence the right to love, hate, embrace, protect or kill merely based on colour—the colour of the skin. *Colour Matters?* explores these cross-cultural dynamics and highlights the difficulties of being a minority in different geographies. The book is replete with stories of individuals across continents and multi-ethnic, multi-professional backgrounds narrating their personal experiences and, hence, learnings from their own encounters. In a world where the race and racism debate continues to occupy a crucial space in public discourse it is worthwhile to embark on an exploratory journey to deconstruct such ideas and discover what really lies beneath. Given away by her mother at five months old, raped on the day of her first communion at age seven - when Celine Roberts was told 'No one wants you', she believed it. Illegitimate and unwanted, Celine was forced by her foster mother into prostitution. Her bones were broken, her nose was crushed and she ate candle wax to stay alive. Celine was finally rescued and sent to an industrial school, where she picked up the pieces of her shattered life. She also began the search for her parents. But what she found gave her battered survival instincts the hardest knock of all ... Full of the most heartbreaking tragedy but ultimately survival and hope, *No One Wants You* is the remarkably honest and compelling memoir of a woman triumphing over her brutal past.

Draws on real-life stories and figures, including Martin Luther King, Jr. and Steve Jobs, to examine the qualities a good leader requires in order to inspire and motivate people.

Beginning in the William Morris mail room in 1955, Bernie Brillstein wanted only three things: “to walk into a restaurant and have people know who I am...to be the guy who gets the phone calls and doesn’t have to make them...to represent the one performer people must have.” Throughout his long career at the top of the entertainment industry—as TV and movie producer, agent and brilliant personal manager—Brillstein has accomplished it all. *Where Did I Go Right?* is Brillstein’s street-smart, funny, and thoroughly human story of a life in show business. With his trademark wit and candor, he speaks out for the first time about his feud with Mike Ovitz, and how it felt to pass the leadership of his company to his partner, Brad Grey, and “no longer be the king.” He describes his close relationship with John Belushi and what it was like being alone with Belushi’s body as it lay “stretched out across two cramped seats in a tiny jet, wrapped up in a body bag” on the way to his funeral. He shares stories about Jim Hensen and Gilda Radner, about Lorne Michaels and the early days of *Saturday Night Live*. He takes us behind the scenes at such hits as *The Blues Brothers*, *Ghostbusters*, and *The Muppet Show*. Brillstein also reveals his secrets about how to survive and prosper in Hollywood, the real meaning of “the art of the deal,” the difference between “hot” and “good,” and why instinct is so crucial to the future of the entertainment industry. “Becoming successful is the most fun of all. I’m not talking about being successful or staying successful. Brooklyn, 2008. Eighteen-year-old Deya, Isra’s oldest daughter, must meet with potential husbands at her grandmother Fareeda’s insistence, though her only desire is to go to college. But her grandmother is firm on the matter: the only way to secure a worthy future for Deya is through marriage to the right man. But fate has a will of its own, and soon Deya will find herself on an unexpected path that leads her to shocking truths about her family—knowledge that will force her to question everything she thought she knew about her parents, the past, and her own future. In the present book, *How to Win Friends and Influence People*, Dale Carnegie says, “You can make someone want to do what you want them to do by seeing the situation from the other person's point of view and arousing in the other person an eager want.” You learn how to make people like you, win people over to your way of thinking, and change people without causing offense or arousing resentment. For instance, “let the other person feel that the idea is his or hers” and “talk about your own mistakes before criticizing the other person.” This book is all about building relationships. With good relationships, personal and business successes are easy and swift to achieve.

However, there is a promise that is seldom mentioned and very rarely claimed, one that holds the key to seeing our destinies fulfilled. It is The Promise No One Wants.
