#1 NEW YORK TIMES BESTSELLER • In *Sapiens*, he explored our past. In *Homo Deus*, he looked to our future. Now, one of the most innovative thinkers on the planet turns to the present to make sense of today's most pressing issues. "Fascinating . . . a crucial global conversation about how to take on the problems of the twenty-first century."—Bill Gates, *The New York Times* Book Review NAMED ONE OF THE BEST BOOKS OF THE YEAR BY FINANCIAL TIMES AND PAMELA PAUL, *KQED* How do computers and robots change the meaning of being human? How do we deal with the epidemic of fake news? Are nations and religions still relevant? What should we teach our children? Yuval Noah Harari's *21 Lessons for the 21st Century* is a probing and visionary investigation into today's most urgent issues as we move into the uncharted territory of the future. As technology advances faster than our understanding of it, hacking becomes a tactic of war, and the world feels more polarized than ever, Harari addresses the challenge of navigating life in the face of constant and disorienting change and raises the important questions we need to ask ourselves in order to survive. In twenty-one accessible chapters that are both provocative and profound, Harari builds on the ideas explored in his previous books, untangling political, technological, social, and existential issues and offering advice on how to prepare for a very different future from the world we now live in: How can we retain freedom of choice when Big Data is watching us? What will the future workforce look like, and how should we ready ourselves for it? How should we deal with the threat of terrorism? Why is liberal democracy in crisis? Harari's unique ability to make sense of where we have come from and where we are going has captured the imaginations of millions of readers. Here he invites us to consider values, meaning, and personal engagement in a world full of noise and uncertainty. When we are deluged with irrelevant information, clarity is power. Presenting complex contemporary challenges clearly and accessibly, *21 Lessons for the 21st Century* is essential reading. "If there were such a thing as a required instruction manual for politicians and thought leaders, Israeli historian Yuval Noah Harari's *21 Lessons for the 21st Century* would deserve serious consideration. In this collection of provocative essays, Harari . . . tackles a daunting array of issues, endeavoring to answer a persistent question: 'What is happening in the world today, and what is the deep meaning of these events?'"—BookPage (top pick)

New York Times Bestseller A Summer Reading Pick for President Barack Obama, Bill Gates, and Mark Zuckerberg From a renowned historian comes a groundbreaking narrative of humanity's creation and evolution—a #1 international bestseller—that explores the ways in which biology and history have defined us and enhanced our understanding of what it means to be "human." One hundred thousand years ago, at least six different species of humans inhabited Earth. Yet today there is only one—homo sapiens. What happened to the others? And what may happen to us? Most books about the history of humanity pursue either a historical or a biological approach, but Dr. Yuval Noah Harari breaks the mold with this highly original book that begins about 70,000 years ago with the appearance of modern cognition. From examining the role evolving humans have played in the global ecosystem to charting the rise of empires, *Sapiens* integrates history and science to reconsider accepted narratives, connect past developments with contemporary concerns, and examine specific events within the context of larger ideas. Dr. Harari also compels us to look ahead, because over the last few decades humans have begun to bend laws of natural selection that have governed life for the past four billion years. We are acquiring the ability to design not only the world around us, but also ourselves. Where is this leading us, and what do we want to become? Featuring 27 photographs, 6 maps, and 25 illustrations/diagrams, this provocative and insightful work is sure to spark debate and is essential reading for aficionados of Jared Diamond, James Gleick, Matt Ridley, Robert Wright, and Sharon Moalem.

The boat is pumped out and back in business within days and Noah's dad is stuck in the clink. Now Noah is determined to succeed where his dad failed. He will prove that the Coral Queen is dumping illegally . . . somehow. His allies may not add up to much—his sister Abbey, an unreformed childhood biter; Lice Peeking, a greedy sot

with poor hygiene; Shelly, a bartender and a woman scorned; and a mysterious pirate—but Noah's got a plan to flush this crook out into the open. A plan that should sink the crooked little casino, once and for all.

#1 NEW YORK TIMES BESTSELLER • More than one million copies sold! A “brilliant” (Lupita Nyong’o, Time), “poignant” (Entertainment Weekly), “soul-nourishing” (USA Today) memoir about coming of age during the twilight of apartheid “Noah’s childhood stories are told with all the hilarity and intellect that characterizes his comedy, while illuminating a dark and brutal period in South Africa’s history that must never be forgotten.”—Esquire Winner of the Thurber Prize for American Humor and an NAACP Image Award • Named one of the best books of the year by The New York Time, USA Today, San Francisco Chronicle, NPR, Esquire, Newsday, and Booklist Trevor Noah’s unlikely path from apartheid South Africa to the desk of The Daily Show began with a criminal act: his birth. Trevor was born to a white Swiss father and a black Xhosa mother at a time when such a union was punishable by five years in prison. Living proof of his parents’ indiscretion, Trevor was kept mostly indoors for the earliest years of his life, bound by the extreme and often absurd measures his mother took to hide him from a government that could, at any moment, steal him away. Finally liberated by the end of South Africa’s tyrannical white rule, Trevor and his mother set forth on a grand adventure, living openly and freely and embracing the opportunities won by a centuries-long struggle. Born a Crime is the story of a mischievous young boy who grows into a restless young man as he struggles to find himself in a world where he was never supposed to exist. It is also the story of that young man’s relationship with his fearless, rebellious, and fervently religious mother—his teammate, a woman determined to save her son from the cycle of poverty, violence, and abuse that would ultimately threaten her own life. The stories collected here are by turns hilarious, dramatic, and deeply affecting. Whether subsisting on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to survive the life-and-death pitfalls of dating in high school, Trevor illuminates his curious world with an incisive wit and unflinching honesty. His stories weave together to form a moving and searingly funny portrait of a boy making his way through a damaged world in a dangerous time, armed only with a keen sense of humor and a mother’s unconventional, unconditional love.

Official U.S. edition with full color illustrations throughout. NEW YORK TIMES BESTSELLER Yuval Noah Harari, author of the critically-acclaimed New York Times bestseller and international phenomenon Sapiens, returns with an equally original, compelling, and provocative book, turning his focus toward humanity’s future, and our quest to upgrade humans

into gods. Over the past century humankind has managed to do the impossible and rein in famine, plague, and war. This may seem hard to accept, but, as Harari explains in his trademark style—thorough, yet riveting—famine, plague and war have been transformed from incomprehensible and uncontrollable forces of nature into manageable challenges. For the first time ever, more people die from eating too much than from eating too little; more people die from old age than from infectious diseases; and more people commit suicide than are killed by soldiers, terrorists and criminals put together. The average American is a thousand times more likely to die from bingeing at McDonalds than from being blown up by Al Qaeda. What then will replace famine, plague, and war at the top of the human agenda? As the self-made gods of planet earth, what destinies will we set ourselves, and which quests will we undertake? Homo Deus explores the projects, dreams and nightmares that will shape the twenty-first century—from overcoming death to creating artificial life. It asks the fundamental questions: Where do we go from here? And how will we protect this fragile world from our own destructive powers? This is the next stage of evolution. This is Homo Deus. With the same insight and clarity that made Sapiens an international hit and a New York Times bestseller, Harari maps out our future.

This is the story of Noah (Genesis 5:32-10:1) in pictures.--

A long time ago, the people of the world were not treating each other kindly. God was very sad, and so he decided to send a flood to cover the entire world. However, one man, Noah, and his family were very good people, so God told Noah to build a big boat and to gather two of every kind of animal to be kept safe in the boat when the flood arrived. Noah did as God commanded and soon he, his family, and all the animals were drifting in the flood waters. After many weeks of waiting, the flood went away and Noah, his family, and the animals were able to again return to land. God set a rainbow in the sky, promising Noah that he would never again flood the earth. Share this remarkable and classic Bible story with young ones with this delightful new picture book. With stunning art by Helen Dardik, and simplified text for little readers, The Story of Noah's Ark is sure to become a favorite for families.

HOW HAD MRS. OLINSKI CHOSEN her sixth-grade Academic Bowl team? She had a number of answers. But were any of them true? How had she really chosen Noah and Nadia and Ethan and Julian? And why did they make such a good team? It was a surprise to a lot of people when Mrs. Olinski's team won the sixth-grade Academic Bowl contest at Epiphany Middle School. It was an even bigger surprise when they beat the seventh grade and the eighth grade, too. And when they went on to even greater victories, everyone began to ask: How did it happen? It happened at least partly because Noah had been the best man (quite by accident) at the wedding of Ethan's grandmother and Nadia's grandfather. It happened because Nadia discovered that she could not let a lot of baby turtles die. It happened when Ethan could not let Julian face disaster alone. And it happened because Julian valued something important in himself and saw in the other three something he also valued. Mrs. Olinski, returning to teaching after having been injured in an automobile accident, found that her Academic Bowl team became her answer to finding confidence and success. What she did not know, at least at first, was that her team knew more than she did the answer to why they had been chosen. This is a tale about a team, a class, a school, a series of contests and, set in the midst of this, four jewel-like short stories -- one for each of the team members -- that ask questions and demonstrate surprising answers.

A stunning investigation of the life and legend of Mexican kingpin Joaquín Archivaldo "El Chapo" Guzmán Loera, building on Noah Hurowitz's revelatory coverage for Rolling Stone of El Chapo's federal drug-trafficking trial. This is the true story of how El Chapo built the world's wealthiest and most powerful drug-trafficking operation, based on months' worth of trial testimony and dozens of interviews with cartel gunmen, Mexican journalists and political figures, Chapo's family members, and the DEA agents who brought him down. Over the course of three decades, El Chapo was responsible for smuggling hundreds of tons of cocaine, marijuana, heroin, meth, and fentanyl around the world, becoming in the process the most celebrated and reviled drug lord since Pablo Escobar. El Chapo waged ruthless wars against his rivals and former allies, plunging vast areas of Mexico into unprecedented levels of violence, even as many in his home state of Sinaloa continued to view him as a hero. This unputdownable book, written by a great new talent, brings El Chapo's exploits into a focus that previous profiles have failed to capture. Hurowitz digs in deep beyond the legends and delves into El Chapo's life and legacy—not just the hunt for him, revealing some of the most dramatic and often horrifying moments of his notorious career, including the infamous prison escapes, brutal murders, multi-million-dollar government payoffs, and the paranoia and narcissism that led to his downfall. From the evolution of organized crime in Mexico to the militarization of the drug war to the devastation wrought on both sides of the border by the introduction of synthetic opioids like fentanyl, this book is a gripping and comprehensive work of investigative, on-the-ground reporting.
