MyNorthStarLab , the easy-to-use online companion of the NorthStar series, saves time and improves student results. Saves Time With automatically graded exercises for every unit of each book, instructors no longer have to create or grade homework. This gives them more time to prepare classroom lessons. Instructors can choose exercises and set due dates with just a few clicks. Homework for an entire semester can be set up in less than an hour. Improves Results Students have more opportunities to practice English in more ways -- from video exercises and audio discussion boards to vocabulary games and academic practice. These new exercises help students learn more English, more quickly. Immediate feedback on their performance allows students to come to class better prepared. If students do not pass a section of a unit test, they automatically receive new exercises targeting areas that need improvement. Intercultural Language Activities offers practical teaching ideas which encourage learners to reflect on their own language and culture, as well as that of others. Topics covered in the fourteen chapters include

childhood, food, sport, icons, politics and body language. The book also helps learners mediate in situations of cultural misunderstanding and start web-based intercultural exchanges. It examines interview techniques, how people present themselves, and ways to interpret cultural symbols and characteristics, such as those found in postcards, advertisements and online newspapers. In engaging with these topics, learners become intercultural explorers and raise their level of communicative competence. This is an invaluable resource for any teacher who wishes to combine language learning with cultural exploration. In addition, the accompanying CD-ROM provides print-friendly photocopiable worksheets and reading texts which can be put to immediate use.
