Provides information on stylistic aspects of research papers, theses, and dissertations, including sections on writing fundamentals, MLA documentation style, and copyright law.

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

The nature writings of pioneering environmentalist and Sierra Club founder John Muir are like no other. In this essay from 1894, Muir describes the grandeur of the winds at play in the forests, with stunning and musical detail about the trees of the Sierra and their individual reaction to the wind. Muir's story of climbing a 100-foot Douglas Spruce to experience the sway and swirl of a storm for himself is unforgettable. This short work is part of Applewood's "American Roots," series, tactile mementoes of American passions by some of America's most famous writers.

Flexible, easy to use, just enough detail?and now the number-one best seller. With just enough detail ? and color-coded links that send students to more detail if they need it ? this is the rhetoric that tells students what they need to know and resists the temptation to tell them everything there is to know. Designed for easy reference ? with menus, directories, and a combined glossary/index. The Third Edition has new chapters on academic writing, choosing genres, writing online, and choosing media, as well as new attention to multimodal writing. The Norton Field Guide to Writing is available with a handbook, an anthology, or both ? and all versions are now available as low-cost ebooks.

A book students love, now more streamlined and accessible. America has sold more than 1.8 million copies over the past eight editions because it's a book that students

enjoy reading. Effective storytelling, colorful anecdotes, and biographical sketches make the narrative absorbing and the material more memorable. The Ninth Edition includes refreshed and updated coverage of African American history and has been streamlined from 37 to 34 chapters.

'My name is Adam Meltzer and the last thing I remember was being stung by a bee while swinging at a robot-shaped piata on my twelfth birthday. I was dead before the candy hit the ground.' *Memoirs of a Neurotic Zombie* is narrated by the hilarious Adam Meltzer - pre-teen, worrywart, and now zombie. Adam's family gets the fright of their lives when he turns up at their door . . . three months after his funeral. Soon Adam's back at school trying to fit in and not draw extra attention to himself, but when he sees his neighbour Ernesto transform into a chupacubra, and the beautiful Corina (Adam's number one mega-crush) turns out to be a (vegan) vampire, undead life is never going to be the same again. A hilarious adventure caper - if Ferris Bueller met *Shaun of the Dead* - all about friendship and being yourself . . . even if you're undead.

teaching information literacy and writing in upper-level general education and disciplinary courses, specialized approaches for graduate courses, and preparing graduate assistants to teach information literacy.

Laurie Kirszner and Stephen Mandell, authors with nearly thirty years of experience teaching college writing, know what works in the classroom and have a knack for picking just the right readings. In *Patterns for College Writing*, they provide students with exemplary rhetorical models and instructors with class-tested selections that balance classic and contemporary essays. Along with more examples of student writing than any other reader, *Patterns* has the most comprehensive coverage of active reading, research, and the writing process, with a five-chapter mini-rhetoric; the clearest explanations of the patterns of development; and the most thorough apparatus of any rhetorical reader, all reasons why *Patterns for College Writing* is the best-selling reader in the country. And the new edition includes exciting new readings and expanded coverage of critical reading, working with sources, and research. It is now available as an interactive Bedford e-book and in a variety of other e-book formats that can be downloaded to a computer, tablet, or e-reader. Read the preface.

Emphasizing the relevance of politics and government in everyday life, *We the People* provides tools to help students think critically about American government and politics. The Sixth Edition has been carefully updated to reflect most recent developments, including the ongoing conflict in Iraq and the 2006 midterm elections. Complemented by

a rich package of multimedia tools for instructors and students, including a new video-clip DVD, *We the People* is now more pedagogically effective than ever.

An introduction to the art of rhetoric explains how persuasion can profoundly influence personal and professional successes and reveals an array of techniques employed by such personalities as Aristotle and Winston Churchill.

The High Hallack Cycle continues with unlikely compatriots bound together by danger as they search for a terrible treasure in the Witch World. Brixia knows what evil powers can do to a person, a people, and a land. Once a highborn Lady of a hall in High Hallack, she now scours the deserted Dales, where the Darkness has devastated all in its path. Her only companion is her loyal feline, Uta—until she meets the travelers. One is a madman. A broken lord driven by desire whose only wish is to find the powerful magical item known as Zarsthor's Bane—an object as wreathed in mystery and ancient lore as it is cloaked in peril. The other is a squire devotedly following his demented master. All three soon find themselves drawn into the dreaded Waste in search of the mystical totem. But such a prize comes at a price none of them are prepared to pay—a price worse than death itself . . . Zarsthor's Bane is the 2nd book in the Witch World: High Hallack Cycle, but you may enjoy reading the series in any order.

In recent years, Earth systems science has advanced rapidly, helping to transform climate change and other planetary risks into major political issues. Changing the

Atmosphere strengthens our understanding of this important link between expert knowledge and environmental governance. In so doing, it illustrates how the emerging field of science and technology studies can inform our understanding of the human dimensions of global environmental change. Incorporating historical, sociological, and philosophical approaches, *Changing the Atmosphere* presents detailed empirical studies of climate science and its uptake into public policy. Topics include the scientific, political, and social processes involved in the creation of scientific knowledge about climate change; the historical and contemporary role of expert knowledge in creating and perpetuating policy concern about climate change; and the place of science in institutions of global environmental governance such as the World Meteorological Organization, the Framework Convention on Climate Change, and the Intergovernmental Panel on Climate Change. Together, the essays demonstrate fundamental connections between the science and politics of planet Earth. In the struggle to create sustainable forms of environmental governance, they indicate, a necessary first step is to understand how communities achieve credible, authoritative representations of nature. With iconic movies like *Who's Afraid of Virginia Woolf?*, *The Graduate*, and *Carnal Knowledge*, Mike Nichols was the most prominent American director during the cultural

upheavals of the 1960s. *Mike Nichols: Sex, Language, and the Reinvention of Psychological Realism* argues that he overhauled the style of psychological realism, and, in doing so, continues to shape the legacies of Hollywood cinema. It also reveals that misreadings of his films were central to foundational debates at the emergence of Cinema Studies as a discipline, inviting new reflections on critical dogma. Focusing on Nichols' classic movies, as well as later films such as *Silkwood*, *The Birdcage*, and *Angels in America*, Kyle Stevens demonstrates that Nichols' realism lies not in the plausibility of his characters but in their inherent mystery. By attending to the puzzling words and silences, breaths and laughter, that comprise these characters, Stevens uncovers new insights into the subversive potential of a range of cinematic elements, and reveals how Nichols' satirical oeuvre, and Hollywood itself, participated in several of the nation's most urgent social, political, and philosophical advances.

The Bedford Introduction to Literature responds to the teaching and learning needs of all kinds of literature classrooms and composition courses where literature is a focus. Author Michael Meyer understands that a particular challenge for instructors is that students do not necessarily see literature as relevant to their lives. They may be new to the study of literature, may have difficulty reading it, and may lack confidence in their critical abilities and writing skills. With these factors in mind, Meyer has put together a lively collection of stories, poems, and plays from many periods, cultures, and themes, with voices ranging from the traditional to the latest and hottest contemporary authors. As an experienced anthologist and instructor of literature, Meyer has a knack for choosing enticing selections including humorous works and readings from popular culture that students both enjoy and respond to. Complementing this unparalleled collection are proven editorial features that offer students real help with reading, appreciating, and writing about literature. The Bedford Introduction to Literature is a book designed to bring literature to life and to make students life-long readers. - Publisher.

The fight for the future of the city street between pedestrians, street railways, and promoters of the automobile between 1915 and 1930. Before the advent of the automobile, users of city streets were diverse and included children at play and pedestrians at large. By 1930, most streets were primarily a motor thoroughfares where children did not belong and where pedestrians were condemned as “jaywalkers.” In *Fighting Traffic*, Peter Norton argues that to accommodate automobiles, the American city required not only a physical change but also a social one: before the city could be reconstructed for the sake of motorists, its streets had to be socially reconstructed as places where motorists belonged. It was not an evolution, he writes, but a bloody and sometimes violent revolution. Norton describes how street users struggled to define and redefine what streets were for. He examines developments in the crucial transitional years from the 1910s to the 1930s, uncovering a broad anti-automobile campaign that reviled motorists as “road hogs” or “speed demons” and cars as “juggernauts” or “death cars.” He considers the perspectives of all users—pedestrians, police (who had to become “traffic cops”), street railways, downtown businesses, traffic engineers (who often saw cars as the problem, not the solution), and automobile promoters. He finds that pedestrians and parents campaigned in moral terms, fighting for “justice.” Cities and downtown businesses tried to regulate traffic in the name of “efficiency.” Automotive interest groups, meanwhile, legitimized their claim to the streets by invoking “freedom”—a rhetorical stance of particular power in the United States. *Fighting Traffic*

offers a new look at both the origins of the automotive city in America and how social groups shape technological change.

Adapting the methods of the much admired and extremely successful composition anthology *Ways of Reading*, this brief reader offers eight substantial essays about visual culture (illustrated with evocative photographs) along with demanding and innovative apparatus that engages students in conversations about the power of images.

Archival research of any magnitude can be daunting. With this in mind, Alexis E. Ramsey, Wendy B. Sharer, Barbara L'Eplattenier, and Lisa Mastrangelo have developed an indispensable volume for the first-time researcher as well as the seasoned scholar. *Working in the Archives* is a guide to the world of rhetoric and composition archives, from locating an archival source and its materials to establishing one's own collection of archival materials. This practical volume provides insightful information on a variety of helpful topics, such as basic archival theory, processes, and principles; the use of hidden or digital archives; the intricacies of searching for and using letters and photographs; strategies for addressing the dilemmas of archival organization without damaging the provenance of materials; the benefits of seeking sources outside academia; and the difficult (yet often rewarding) aspects of research on the Internet. *Working in the Archives* moves beyond the basics to discuss the more personal and emotional aspects of archival work through the inclusion of interviews with

experienced researchers such as Lynée Lewis Gaillet, Peter Mortensen, Kathryn Fitzgerald, Kenneth Lindblom, and David Gold. Each shares his or her personal stories of the joys and challenges that face today's researchers. Packed with useful recommendations, this volume draws on the knowledge and experiences of experts to present a well-rounded guidebook to the often winding paths of academic archival investigation. These in-depth yet user-friendly essays provide crucial answers to the myriad questions facing both fledgling and practiced researchers, making *Working in the Archives* an essential resource.

Read by millions of students since it was first published in 1965, *The Norton Reader* is the bestselling collection of its kind.

Gathers examples of literature from Shakespeare to August Wilson, Leo Tolstoy to Amy Tan, and William Blake to Derek Walcott

"As is usually the case with most graduation tales, this account focuses on growing up. With greater intensity than ever before, the narrator of the story is confronted with the fact that she is black. A surprising twist to the graduation ceremony helps her see what that fact means to her." -- p. 2.

Making the Hardest Decisions As a young aid worker, Sasha Chanoff was sent to evacuate a group of refugees from the violence-torn Congo. But when he arrived he discovered a second group. Evacuating them too could endanger the entire mission. But leaving them behind would mean their certain death. All leaders face

defining moments, when values are in conflict and decisions impact lives. Why is moral courage the essential factor at such times? How do we access our own rock-bottom values, and how can we take advantage of them to make the best decisions? Through Sasha's own extraordinary story and those of eight other brave leaders from business, government, nongovernment organizations, and the military, this book reveals five principles for confronting crucial decisions and inspires all of us to use our moral core as a lodestar for leadership.

This best-selling collection features ten chapters focusing on the classic methods of narration, description, argument, and persuasion.
