"Right now, you're probably asking yourself two things: Who am I? and What the hell are you doing here? Let's start with the most obvious question, shall we? You're here, ladies, because you can't f*ck." Oh, stop it. Don't cringe. No one under the age of eighty clutches her pearls. You might as well get used to it, because for the next six weeks, you're going to hear that word a lot. And you're going to say it a lot. Go ahead, try it out on your tongue. F*ck. F***ck. Okay, good. Now, where were we? If you enrolled yourself in this program, then you are wholly aware that you're a lousy lay. Good for you. Admitting it is half the battle. For those of you who have been sent here by your husband or significant other, dry your tears and get over it. You've been given a gift, ladies. The gift of mind-blowing, wall-climbing, multiple-orgasm-inducing sex. You have the opportunity to f*ck like a porn star. And I guarantee that you will when I'm done with you. And who am I? Well, for the next six weeks, I will be your lover, your teacher, your best friend, and your worst enemy. Your every-f*cking-thing. I'm the one who is going to save your relationship and your sex life. I am Justice Drake. And I turn housewives into whores. Now . . . who's first?

“Be the People is a courageous analysis of today’s most pressing issues, exposing the deceptions by the cultural elite and urging ‘We the People’ to restore America’s faith and values.”—Sean Hannity “There are many good books but only a few really important ones. Dr. Carol Swain’s Be the People is one of the latter. Brave, informed, candid, and thoughtful, she brings her fine academic mind to bear on the most pressing needs facing our country.”—Tony Perkins “A courageous, challenging, and controversial call to Americans of all colors to return to their Creator and to come to their Judeo-Christian senses.”—Dr. Peter A. Lillback “In Be the People Professor Carol Swain thoughtfully examines the biblical roots and religious significance of today’s most pressing issues. Professor Swain shows how to make your voice heard and how to reclaim America’s faith and values.”—Lou Dobbs An insightful analysis of the forces of deception rapidly reshaping America's morals, social policies, and culture, with a call to specific action, written by a thoughtful and courageous Christian social scientist on the front lines of today's issues. Cultural elites in the media, academia, and politics are daily deceiving millions of Americans into passively supporting policies that are detrimental to the nation and their own best interest. Although some Americans can see through the smokescreen, they feel powerless to redirect the forces inside and outside government that radically threaten cherished values and principles. Drawing on her training in political science and law, Dr. Swain thoughtfully examines the religious significance of the founding of our nation and the deceptions that have infiltrated our daily lives and now threaten traditional families, unborn children, and members of various racial and ethnic groups—as well as national sovereignty itself--and provides action points for the people of this country to make the political system more responsive. The book is divided into two sections: Forsaking what we once knew Re-embracing truth and justice in policy choices It also covers key topics such as: America's shift to moral relativism America's religious roots Abortion's fragile facade Historical and biblical views on families and children Erosion of rule of law, national security, and immigration Racial and ethnic challenges Reclaiming the future

"Family dysfunction at its best. This novel is addicting and entertaining and I couldn't put it down!" - Jennifer Close, New York Times bestselling author of Girls in White Dresses and The Hopefuls A Publishers Weekly BEST SUMMER BOOKS, 2017 Relationships are awful. They'll kill you, right up to the point where they start saving your life. Paul and Alice's half-sister Eloise is getting married! In London! There will be fancy hotels, dinners at "it" restaurants and a reception at a country estate complete with tea lights and embroidered cloth napkins. They couldn't hate it more. The People We Hate at the Wedding is the story of a less than perfect family. Donna, the clan's mother, is now a widow living in the Chicago suburbs with a penchant for the occasional joint and more than one glass of wine with her best friend while watching House Hunters International. Alice is in her thirties, single, smart, beautiful, stuck in a dead-end job where she is mired in a rather predictable, though enjoyable, affair with her married boss. Her brother Paul lives in Philadelphia with his older, handsomer, tenured track professor boyfriend who's recently been saying things like "monogamy is an oppressive heteronormative construct," while eyeing undergrads. And then there's Eloise. Perfect, gorgeous, cultured Eloise. The product of Donna's first marriage to a dashing Frenchman, Eloise has spent her school years at the best private boarding schools, her winter holidays in St. John and a post-college life cushioned by a fat, endless trust fund. To top it off, she's infuriatingly kind and decent. As this estranged clan gathers together, and Eloise's walk down the aisle approaches, Grant Ginder brings to vivid, hilarious life the power of family, and the complicated ways we hate the ones we love the most in the most biting funny, slyly witty and surprisingly tender novel you'll read this year.

He suspects that the expensive baubles were stolen, perhaps even by Cassandra herself. Erotic fantasies about her notwithstanding, the vixen is not to be trusted, for she has already destroyed his good friend—the man she refused to marry who later lost his life in a duel, which Ambury suspects was fought over Cassandra. National bestseller 2017 National Book Critics Circle (NBCC) Finalist ABA Indies Introduce Winter / Spring 2017 Selection Barnes & Noble Discover Great New Writers Spring 2017 Selection ALA 2018 Notable Books Selection An intimate and poignant graphic novel portraying one family's journey from war-torn Vietnam, from debut author Thi Bui.

This beautifully illustrated and emotional story is an evocative memoir about the search for a better future and a longing for the past. Exploring the anguish of immigration and the lasting effects that displacement has on a child and her family, Bui documents the story of her family's daring escape after the fall of South Vietnam in the 1970s, and the difficulties they faced building new lives for themselves. At the heart of Bui's story is a universal struggle: While adjusting to life as a first-time mother, she ultimately discovers what it means to be a parent—the endless sacrifices, the unnoticed gestures, and the depths of unspoken love. Despite how impossible it seems to take on the simultaneous roles of both parent and child, Bui pushes through. With haunting, poetic writing and breathtaking art, she examines the strength of family, the importance of identity, and the meaning of home. In what Pulitzer Prize-winning novelist Viet Thanh Nguyen calls "a book to break your heart and heal it," *The Best We Could Do* brings to life Thi Bui's journey of understanding, and provides inspiration to all of those who search for a better future while longing for a simpler past.

In her early twenties, Alice's life is thrown into upheaval again when she suffers devastating betrayal and loss. you might want to do, there's a right way, a wrong way, and a way so monumentally complex, excessive, and inadvisable that no one would ever try it. How To is a guide to the third kind of approach. It's full of highly impractical advice for everything from landing a plane to digging a hole. Bestselling author and cartoonist Randall Munroe explains how to predict the weather by analyzing the pixels of your Facebook photos. He teaches you how to tell if you're a baby boomer or a 90's kid by measuring the radioactivity of your teeth. He offers tips for taking a selfie with a telescope, crossing a river by boiling it, and powering your house by destroying the fabric of space-time. And if you want to get rid of the book once you're done with it, he walks you through your options for proper disposal, including dissolving it in the ocean, converting it to a vapor, using tectonic plates to subduct it into the Earth's mantle, or launching it into the Sun. By exploring the most complicated ways to do simple tasks, Munroe doesn't just make things difficult for himself and his readers. As he did so brilliantly in *What If?*, Munroe invites us to explore the most absurd reaches of the possible. Full of clever infographics and amusing illustrations, *How To* is a delightfully mind-bending way to better understand the science and technology underlying the things we do every day.

The winners of the Nobel Prize show how economics, when done right, can help us solve the thorniest social and political problems of our day. Figuring out how to deal with today's critical economic problems is perhaps the great challenge of our time. Much greater than space travel or perhaps even the next revolutionary medical breakthrough, what is at stake is the whole idea of the good life as we have known it. Immigration and inequality, globalization and technological disruption, slowing growth and accelerating climate change--these are sources of great anxiety across the world, from New Delhi and Dakar to Paris and Washington, DC. The resources to address these challenges are there--what we lack are ideas that will help us jump the wall of disagreement and distrust that divides us. If we succeed, history will remember our era with gratitude; if we fail, the potential losses are incalculable. In this revolutionary book, renowned MIT economists Abhijit V. Banerjee and Esther Duflo take on this challenge, building on cutting-edge research in economics explained with lucidity and grace. Original, provocative, and urgent, *Good Economics for Hard Times* makes a persuasive case for an intelligent interventionism and a society built on compassion and respect. It is an extraordinary achievement, one that shines a light to help us appreciate and understand our precariously balanced world.

"Heretics is a collection of 20 essays originally published by G.K. Chesterton in 1905. G. K. Chesterton, the ""Prince of Paradox,"" is at his witty best in this collection of twenty essays and articles from the turn of the twentieth century. Focusing on ""heretics"" - those who pride themselves on their superiority to Christian views - Chesterton appraises prominent figures who fall into that category from the literary and art worlds. Luminaries such as Rudyard Kipling, George Bernard Shaw, H. G. Wells, and James McNeill Whistler come under the author's scrutiny, where they meet with equal measures of his characteristic wisdom and good humor."

A misanthropic matriarch leaves her eccentric family in crisis when she mysteriously disappears in this "whip-smart and divinely funny" novel that inspired the movie starring Cate Blanchett (New York Times). Bernadette Fox is notorious. To her Microsoft-guru husband, she's a fearlessly opinionated partner; to fellow private-school mothers in Seattle, she's a disgrace; to design mavens, she's a revolutionary architect; and to 15-year-old Bee, she is her best friend and, simply, Mom. Then Bernadette vanishes. It all began when Bee aced her report card and claimed her promised reward: a family trip to Antarctica. But Bernadette's intensifying allergy to Seattle -- and people in general -- has made her so agoraphobic that a virtual assistant in India now runs her most basic errands. A trip to the end of the earth is problematic. To find her mother, Bee compiles email messages, official documents, and secret correspondence -- creating a compulsively readable and surprisingly touching novel about misplaced genius and a mother and daughter's role in an absurd world.

#1 New York Times bestselling author Frederick Forsyth delivers a frighteningly possible novel of international terrorism and impending war... As the Russian people face starvation, the Politburo is faced with a hard choice: negotiate with America for food, go to war for national survival, or deal with an uprising in the motherland. Through an informant, British Agent Adam Munro learns that the situation is growing dangerously tense, with powerful forces in the USSR maneuvering for supremacy. But even as East and West conduct delicate talks, events spiral out of control and threaten to undo every step taken. Lucian Blaga (1895-1961) is judged by many to be Romania's most original philosopher and greatest poet of the twentieth century. While scholars with access to his works in Romanian are well-aware of their importance, his work has remained, up to now, little known in the English-speaking world. The book represents one of the first efforts to make Blaga's work accessible to an international audience. Zalmoxis is Blaga's first play and one of his most important literary works. It underlines much of his philosophy and also reflects his poetry. Blaga's attachment to Expressionist ideals is discernible in his treatment of the characters primarily as vehicles of ideas and his preference for primitive nature over the cultured metropolis. This book includes an introduction by Keith Hitchins of the University of Illinois, one of the leading historians of Romania in the United States and a scholar intimately acquainted with Blaga's life and work. In it, he discusses the life of Lucian Blaga, and the importance of his literary and philosophical work. The translation is by Doris Plantus-Runey from Wayne State University in the United States.

Enter Gavin: charming, talented, adored. Controlling. Dangerous. When Grace and Gavin fall in love, Grace is sure it's too good to be true. An examination of childhood trauma and its surreptitious, debilitating effects by one of the world's leading psychoanalysts. Never before has world-renowned psychoanalyst Alice Miller examined so persuasively the long-range consequences of childhood abuse on the body. Using the experiences of her patients along with the biographical stories of literary giants such as Virginia Woolf, Franz Kafka, and Marcel Proust, Miller shows how a child's humiliation, impotence, and bottled rage will manifest itself as adult illness—be it cancer, stroke, or other debilitating diseases. Never one to shy away from controversy, Miller urges society as a whole to jettison its belief in the Fourth Commandment and not to extend forgiveness to parents whose tyrannical childrearing methods have resulted in unhappy, and often ruined, adult lives. In this empowering work, writes Rutgers professor Philip Greven, "readers will learn how to confront the overt and covert traumas of their own childhoods with the enlightened guidance of Alice Miller."
