**Tokyo Doesn't Love Us Anymore** Ray Loriga,2007-12-01 This dreamlike dystopian novel “shines a dark spotlight on the modern allure of pharmaceuticals’ seeming power to assuage all ills” (Booklist). Set in the very near future, this is the story of a traveling salesman floating from arid Arizona parking lots to steamy Bangkok bars and beyond to peddle the hottest new commodity for a group known only as The Company. What he has is a drug that erases memory. You can choose your oblivion, be it one mistake or a lifetime of pain. But things become hazy when our hero begins sampling the goods and reaches the point where he can’t even remember what it is he cannot remember. A pitch-perfect piece for our times filled with hypnotic prose, Tokyo Doesn’t Love Us Anymore is both a riveting story and a thoughtful exploration of the drug culture that surrounds us, the nature of forgetfulness, and the implacable tyranny of emotions—questioning what it means to be human when everything, including human identity, can be bought. “Part crime novel, part political allegory, part love story . . . Compelling.” —The New York Times Book Review

**Lolita** Vladimir Nabokov,2010-08-24 The most famous and controversial novel from one of the greatest writers of the twentieth century tells the story of Humbert Humbert’s obsessive, devouring, and doomed passion for the nymphet Dolores Haze. The conjunction of a sense of humor with a sense of horror [results in] satire of a very special kind. —The New Yorker Awe and exhilaration—along with heartbreak and mordant wit—abound in Lolita, which tells the story of the aging Humbert Humbert's obsession for the nymphet Dolores Haze. Lolita is also the story of a hypercivilized European colliding with the cheerful barbarism of postwar America. Most of all, it is a meditation on love—love as outrage and hallucination, madness and transformation.

friends who call themselves the Club. A child's death and La Maga's disappearance put an end to his life of empty pleasures and intellectual acrobatics, and prompt Oliveira to return to Buenos Aires, where he works by turns as a salesman, a keeper of a circus cat which can truly count, and an attendant in an insane asylum. *Women Who Run with the Wolves* Clarissa Pinkola Estés Phd, 1995-08-22 NEW YORK TIMES BESTSELLER • One million copies sold! "A deeply spiritual book [that] honors what is tough, smart and untamed in women."—The Washington Post Book World Book club pick for Emma Watson's Our Shared Shelf Within every woman there lives a powerful force, filled with good instincts, passionate creativity, and ageless knowing. She is the Wild Woman, who represents the instinctual nature of women. But she is an endangered species. For though the gifts of wildish nature belong to us at birth, society's attempt to "civilize" us into rigid roles has muffled the deep, life-giving messages of our own souls. In *Women Who Run with the Wolves*, Dr. Clarissa Pinkola Estés unfolds rich intercultural myths, fairy tales, folk tales, and stories, many from her own traditions, in order to help women reconnect with the fierce, healthy, visionary attributes of this instinctual nature. Through the stories and commentaries in this remarkable book, we retrieve, examine, love, and understand the Wild Woman, and hold her against our deep psyches as one who is both magic and medicine. Dr. Estés has created a new lexicon for describing the female psyche. Fertile and life-giving, it is a psychology of women in the truest sense, a knowing of the soul.

**The Moral Imagination** John Paul Lederach, 2010 John Paul Lederach's work in the field of conciliation and mediation is internationally recognized. He has provided consultation, training and direct mediation in a range of situations from the Miskito/Sandinista conflict in Nicaragua to Somalia, Northern Ireland, Tajikistan, and the Philippines. His influential 1997 book *Building Peace* has become a classic in the discipline. In this book, Lederach poses the question, How do we transcend the cycles of violence that bewitch our human community while still living in them? Peacebuilding, in his view, is both a learned skill and an art. Finding this art, he says, requires a worldview shift. Conflict professionals must envision their work as a creative act—an exercise of what Lederach terms the moral imagination. This imagination must, however, emerge from and speak to the hard realities of human affairs. The peacebuilder must have one foot in what is and one foot beyond what exists. The book is organized around four guiding stories that point to the moral imagination but are incomplete. Lederach seeks to understand what happened in these individual cases and how they are relevant to large-scale change. His purpose is not to propose a grand new theory. Instead he wishes to stay close to the messiness of real processes and change, and to recognize the serendipitous nature of the discoveries and insights that emerge along the way. overwhelmed the equally

important creative process. Like most professional peacemakers, Lederach sees his work as a religious vocation. Lederach meditates on his own calling and on the spirituality that moves ordinary people to reject violence and seek reconciliation. Drawing on his twenty-five years of experience in the field he explores the evolution of his understanding of peacebuilding and points the way toward the future of the art. <http://www.loc.gov/catdir/enhancements/fy0616/2004011794-d.html>.

**Gore Capitalism** Sayak Valencia,2018-04-20 An analysis of contemporary violence as the new commodity of today's hyper-consumerist stage of capitalism. "Death has become the most profitable business in existence." —from Gore Capitalism Written by the Tijuana activist intellectual Sayak Valencia, Gore Capitalism is a crucial essay that posits a decolonial, feminist philosophical approach to the outbreak of violence in Mexico and, more broadly, across the global regions of the Third World. Valencia argues that violence itself has become a product within hyper-consumerist neoliberal capitalism, and that tortured and mutilated bodies have become commodities to be traded and utilized for profit in an age of impunity and governmental austerity. In a lucid and transgressive voice, Valencia unravels the workings of the politics of death in the context of contemporary networks of hyper-consumption, the ups and downs of capital markets, drug trafficking, narcopower, and the impunity of the neoliberal state. She looks at the global rise of authoritarian governments, the erosion of civil society, the increasing violence against women, the deterioration of human rights, and the transformation of certain cities and regions into depopulated, ghostly settings for war. She offers a trenchant critique of masculinity and gender constructions in Mexico, linking their misogynist force to the booming trade in violence. This book is essential reading for anyone seeking to analyze the new landscapes of war. It provides novel categories that allow us to deconstruct what is happening, while proposing vital epistemological tools developed in the convulsive Third World border space of Tijuana.

**Terra Nostra** Carlos Fuentes,2013-05-14 Terra Nostra is one of the great masterpieces of modern Latin American fiction. Concerned with nothing less than the history of Spain and of South America, with the Indian Gods and with Christianity, with the birth, the passion, and the death of civilizations, Fuentes's great novel is, indeed, that rare creation--the total work of art. Magnificently translated by Margaret Sayers Peden, Terra Nostra is, as Milan Kundera says in his afterword, the spreading out of the novel, the exploration of its possibilities, the voyage to the edge of what only a novelist can see and say.
