Chains Laurie Halse Anderson,2010-01-05 If an entire nation could seek its freedom, why not a girl? As the Revolutionary War begins, thirteen-year-old Isabel wages her own fight...for freedom. Promised freedom upon the death of their owner, she and her sister, Ruth, in a cruel twist of fate become the property of a malicious New York City couple, the Locktons, who have no sympathy for the American Revolution and even less for Ruth and Isabel. When Isabel meets Curzon, a slave with ties to the Patriots, he encourages her to spy on her owners, who know details of British plans for invasion. She is reluctant at first, but when the unthinkable happens to Ruth, Isabel realizes her loyalty is available to the bidder who can provide her with freedom. From acclaimed author Laurie Halse Anderson comes this compelling, impeccably researched novel that shows the lengths we can go to cast off our chains, both physical and spiritual.

Dialogue Interpreting Ian Mason,2014-04-23 Dialogue interpreting includes what is variously referred to in English as Community, Public Service, Liaison, Ad Hoc or Bilateral Interpreting - the defining characteristic being interpreter-mediated communication in spontaneous face-to-face interaction. Included under this heading are all kinds of professional encounters: police, immigration and welfare services interviews, doctor-patient interviews, business negotiations, political interviews, lawyer-client and courtroom interpreting and so on. Whereas research into conference interpreting is now well established, the investigation of dialogue interpreting as a professional activity is still in its infancy, despite some highly promising publications in recent years. This special issue of *The Translator*, guest-edited by one of the leading scholars in translation studies, provides a forum for bringing together separate strands within this developing field and should create an impetus for further research. Viewing the interpreter as a gatekeeper, coordinator and negotiator of meanings within a three-way interaction, the descriptive studies included in this volume focus on issues such as role-conflict, in-group loyalties,

participation status, relevance and the negotiation of face, thus linking the observation of interpreting practice to pragmatic constraints such as power, distance and face-threat and to semiotic constraints such as genres and discourses as socio-textual practices of particular cultural communities.

Healthcare Interpreting Franz Pöchhacker, Miriam Shlesinger, 2007-01-01 This volume is the first-ever collection of research on healthcare interpreting – centers on three interrelated themes: cross-cultural communication in healthcare settings, the interactional role of persons serving as interpreters and the discourse patterns of interpreter-mediated interaction. The individual chapters, by seven innovative researchers in the area of community-based interpreting, represent a pioneering attempt to look beyond stereotypical perceptions of interpreter-mediated interactions. First published as a Special Issue of *Interpreting* 7:2 (2005), this volume offers insights into the impact of the interpreter – whether s/he is a trained professional or a member of the patient's family – including ways in which s/he may either facilitate or impair reliable communication between patient and healthcare provider. The five articles cover a range of settings and specialties, from general medicine to pediatrics, psychiatry and speech therapy, using languages as diverse as Arabic, Dari, Farsi, Italian and Spanish in combination with Danish, Dutch, English and French.

Key Terms in Translation Studies Giuseppe Palumbo, 2009-04-08 *Key Terms in Translation Studies* gives a comprehensive overview of the concepts which students of translation studies are likely to encounter during their study, whether at undergraduate or postgraduate level. The book includes definitions of key terms within the discipline, as well as outlines of the work of key thinkers in the field, including Eugene A. Nida, Gideon Toury, Hans J. Vermeer, and Lawrence Venuti. The list of key readings is intended to direct students towards classic articles, as well providing a springboard to further study. Accessibly written, with complicated terms and concepts explained in an easy to understand way, *Key Terms in Translation Studies* is an essential resource for students.

Translation Peripheries Anna Gil Bardají, Pilar Orero, Sara Rovira Esteva, 2012 This book investigates different elements which have direct implications for translations but are not the actual text. These features are usually presented in a particular format - written, oral, digital, audio-visual or musical. They are furnished with, for example, illustrations, prologues, introductions, indexes or appendices, or are accompanied by an ensemble of information outside the text such as an interview with the author, a general or specialist press review, an advertisement or a previous translation. However, the boundaries of paratextuality are not limited to the aforementioned examples, since paratextuality has a direct implication for areas as diverse as censorship, a contracting economy, decisions taken by the various actors in the political or cultural context in which the text occurs. Therefore it is obvious that most of the key concepts in Translation Studies cannot be fully understood without reference to the part played by paratextual elements, examined here taking into account different language pairs from Turkish to Catalan. The content presented in this book is gathered from a conference on Paratextual

Elements in Translation, held at the Universitat Autònoma de Barcelona in 2010.

Microcosms Claudio Magris, 2011-01-11 Amid wars, failed revolutions and the shifting of frontiers, the bit-part players often have the best tales to tell - an astonishing, genre-blurring travelogue from Italian master Claudio Magris. In the tiny borderlands of Istria and Italy, from the forests of Monte Nevoso, to the hidden valleys of the Tyrol, to a Trieste café, Microcosms pieces together a mosaic of stories - comic, tragic, picaresque, nostalgic - from life's minor characters. Their worlds might be small, but they are far from minimalist: in them flashes the great, the meaningful, the unrepeatable significance of every existence.

Making Way in Corpus-based Interpreting Studies Mariachiara Russo, Claudio Bendazzoli, Bart Defrancq, 2017-10-24 This book presents a collection of state-of-the-art work in corpus-based interpreting studies, highlighting international research on the properties of interpreted speech, based on naturalistic interpreting data. Interpreting research has long been hampered by the lack of naturalistic data that would allow researchers to make empirically valid generalizations about interpreting. The researchers who present their work here have played a pioneering role in the compilation of interpreting data and in the exploitation of that data. The collection focuses on both of these aspects, including a detailed overview of interpreting corpora, a collective paper on the way forward in corpus compilation and several studies on interpreted speech in diverse language pairs and interpreter-mediated settings, based on existing corpora.

Essay on the Principles of Translation Lord Alexander Fraser Tytler Woodhouselee, 1813

If Venice Dies Salvatore Settis, 2016-09-10 In the tradition of Jane Jacobs' *The Death and Life of Great American Cities* comes an urgent plea from internationally renowned art historian Salvatore Settis to preserve Venice's future. What is Venice worth? To whom does this urban treasure belong? Venetians are increasingly abandoning their hometown — there's now only one resident for every 140 visitors — and Venice's fragile fate has become emblematic of the future of historic cities everywhere as it capitulates to tourists and those who profit from them. In *If Venice Dies*, a fiery blend of history and cultural analysis, internationally renowned art historian Salvatore Settis argues that "hit-and-run" visitors are turning landmark urban settings into shopping malls and theme parks. He warns that Western civilization's prime achievements face impending ruin from mass tourism and global cultural homogenization. This is a passionate plea to secure Venice's future, written with consummate authority, wide-ranging erudition, and élan.

Between Text and Image Delia Chiaro, Christine Heiss, Chiara Bucaria, 2008 This book sets out to establish the state of the art of screen translation and at the same time to underscore the work of scholars following new paths of investigation both in terms of innovative linguistic mediations being examined and pioneering experimental design. The volume includes

descriptions of sophisticated electronic databases and corpora of audiovisual products for the big and small screen, and the rationale behind them. Furthermore, *Between Text and Image* also includes a number of cutting edge studies in audience perception of audiovisual products. Finally, the volume does not fail to ignore examples of original research carried out from both a traditional linguistic viewpoint and from a more cultural perspective.--P. [4] de la couv.

The Future of the Classical Salvatore Settis, Allan Cameron, 2006-10-20 Every era has invented a different idea of the 'classical' to create its own identity. Thus the 'classical' does not concern only the past: it is also concerned with the present and a vision of the future. In this elegant new book, Salvatore Settis traces the ways in which we have related to our 'classical' past, starting with post-modern American skyscrapers and working his way back through our cultural history to the attitudes of the Greeks and Romans themselves. Settis argues that this obsession with cultural decay, ruins and a 'classical' past is specifically European and the product of a collective cultural trauma following the collapse of the Roman Empire. This situation differed from that of the Aztec and Inca empires whose collapse was more sudden and more complete, and from the Chinese Empire which always enjoyed a high degree of continuity. He demonstrates how the idea of the 'classical' has changed over the centuries through an unrelenting decay of 'classicism' and its equally unrelenting rebirth in an altered form. In the Modern Era this emulation of the 'ancients' by the 'moderns' was accompanied by new trends: the increasing belief that the former had now been surpassed by the latter, and an increasing preference for the Greek over the Roman. These conflicting interpretations were as much about the future as they were about the past. No civilization can invent itself if it does not have other societies in other times and other places to act as benchmarks. Settis argues that we will be better equipped to mould new generations for the future once we understand that the 'classical' is not a dead culture we inherited and for which we can take no credit, but something startling that has to be re-created every day and is a powerful spur to understanding the 'other'.

Theatrical Translation and Film Adaptation Phyllis Zatlin, 2005-10-12 Translation and film adaptation of theatre have received little study. In filling that gap, this book draws on the experiences of theatrical translators and on movie versions of plays from various countries. It also offers insights into such concerns as the translation of bilingual plays and the choice between subtitling and dubbing of film.

Rethinking education: towards a global common good? UNESCO, 2015-05-26 Economic growth and the creation of wealth have cut global poverty rates, yet vulnerability, inequality, exclusion and violence have escalated within and across societies throughout the world. Unsustainable patterns of economic production and consumption promote global warming, environmental degradation and an upsurge in natural disasters. Moreover, while we have strengthened international human rights frameworks over the past several decades, implementing and protecting these norms remains a challenge. These changes signal the emergence of a new global context for learning that has vital implications for education. Rethinking the

purpose of education and the organization of learning has never been more urgent. This book is inspired by a humanistic vision of education and development, based on respect for life and human dignity, equal rights, social justice, cultural diversity, international solidarity and shared responsibility for a sustainable future. It proposes that we consider education and knowledge as global common goods, in order to reconcile the purpose and organization of education as a collective societal endeavour in a complex world.

Concise History of the Language Sciences E.F.K. Koerner,R.E. Asher,2014-06-28 This book presents in a single volume a comprehensive history of the language sciences, from ancient times through to the twentieth century. While there has been a concentration on those traditions that have the greatest international relevance, a particular effort has been made to go beyond traditional Eurocentric accounts, and to cover a broad geographical spread. For the twentieth century a section has been devoted to the various trends, schools, and theoretical framework developed in Europe, North America and Australasia over the past seventy years. There has also been a concentration on those approaches in linguistic theory which can be expected to have some direct relevance to work being done at the beginning of the twenty-first century or those of which a knowledge is needed for the full understanding of the history of linguistic sciences through the last half of this century. The last section of this book reviews the applications of some of these findings. Based on the foundation provided by the award winning Encyclopedia of Language and Linguistics this volume provides an excellent focal point of reference for anyone interested in the history of the language sciences.
