Services Marketing Management builds on the success of the previous editions, formally entitled 'The Management and Marketing of Services', to provide an easily digestible approach to the service industry with a specific focus on the management and marketing elements. This new edition has been thoroughly revamped to include pedagogical features such as exercises and mini cases throughout the text to consolidate learning and make it more student friendly. New content has been incorporated to bring the subject matter thoroughly up to date, for example featuring more on the Internet, the inclusion of material on call centres in respect of service delivery and service encounter; additional material on customer relationship management (CRM); consideration of frontline employees and internal marketing; and a discussion of revenue management issues in managing demand and capacity. Particularly suitable for students on marketing, business and hospitality courses who require a good grounding in the principles of services marketing, the practical implications are shown clearly and effectively demonstrate how the principles are applied in the real world. A web based lecturer resource accompanies the text.

The text provides information on the core elements of the subject of marketing without the depth that often surrounds these to ensure that the basic concepts are easily identifiable and accessible. Students on MBA courses often do not have time to read a long text as they are studying many subjects, therefore they

require a good, basic guide pitched at the appropriate level to be able to be absorbed quickly but still provide enough of a strategic element to stretch them. Written by a successful author team, Management of Marketing covers the key topics of the marketing component of an MBA course and provides a good balance of theory and application to ensure both aspects of the core concepts are covered. Designed specifically for MBA students who require an accessible but thorough guide to the subject. Written by an experienced author team which has a proven track record of providing accessible information for the intended audience. Student and lecturer web sites accompany the book providing additional pedagogical material to enhance the points in the text and ensure further learning can be pursued with ease.
