

Ocr Chemistry A Kerboodle

Written by the University of York project team for Salters Advanced Chemistry, this Student Book supports and extends students through the new linear course while delivering the breadth, depth, and skills needed to succeed in the new A Levels and beyond. It develops true subject knowledge while also developing essential exam skills. The fourth edition combines the Chemical Storyline and Chemical Ideas into a single, integrated volume for the first time, providing ideal support for the new specification.

New 2017 Cambridge A Level Maths and Further Maths resources to help students with learning and revision. Written for the OCR AS/A Level Mathematics specifications for first teaching from 2017, this print Student Book covers the content for AS and the first year of A Level. It balances accessible exposition with a wealth of worked examples, exercises and opportunities to test and consolidate learning, providing a clear and structured pathway for progressing through the course. It is underpinned by a strong pedagogical approach, with an emphasis on skills development and the synoptic nature of the course. Includes answers to aid independent study.

Please note this title is suitable for any student studying: Exam Board: OCR Level: A Level Year 2 Subject: Chemistry First teaching: September 2015 First exams: June 2017 Written by curriculum and specification experts in partnership with OCR, this Student Book supports and extends students through the new course while delivering the breadth, depth, and skills needed to succeed in the new A Level and beyond. It develops true subject knowledge while also developing essential exam skills. Covers the second year worth of content required for the new OCR Chemistry A A Level specification.

Exam Board: OCR Level: A-level Subject: Computer Science First Teaching: September 2015 First Exam: June 2016 Develop confident students with our expert authors: their insight and guidance will ensure a thorough understanding of OCR A Level computer science, with challenging tasks and activities to test essential analytical and problem-solving skills. - Endorsed by OCR for use with the OCR AS and A Level Computer Science specification and written by a trusted and experienced author team, OCR Computer Science for A Level: - Builds students' understanding of the core topics and computing skills required by the course units - Computing Systems, Algorithms and Problem Solving, and Programming Project - with detailed topic coverage, case studies and regular questions to measure understanding - Develops a problem-solving approach based on computational thinking required at both AS and A Level - thought-provoking practice questions at the end of each chapter gives opportunities to probe more deeply into key topics - Incorporates full coverage of the skills and knowledge demanded by the examined units, with exercises to help students understand the assessment objectives and advice and examples to support them through the practical element of the course.

This is an OCR endorsed resource Stretch and challenge your students' knowledge and understanding of Chemistry, build their mathematical and practical skills, and provide plenty of assessment guidance with this OCR Year 1 Student Book. - Build understanding with a summary of prior knowledge and diagnostic questions at the start of each chapter to help bring students up to speed - Support practical assessment with Practical Skill summaries that help develop your students' knowledge and skills - Test understanding and provide plenty of practice to assess progression, with Test Yourself Questions and multiple choice questions - Provide mathematical support with examples of method integrated throughout and a dedicated 'Maths in Chemistry' chapter - Develop understanding with free online access to Test yourself Answers, an Extended Glossary, Learning Outcomes and Topic Summaries OCR A Level Chemistry Student Book 1 includes AS Level

Puts the development of chemical ideas in the context of social and industrial needs. This book uses OCR terminology, and contains a glossary of the key terms from the specification. It is structured in line with the OCR specification with colour content, photographs and illustrations.

Exam Board: Edexcel Level: AS/A-level Subject: Chemistry First Teaching: September 2015 First Exam: June 2017 Develop and assess your students' knowledge and mathematical skills throughout A Level with worked examples, practical assessment guidance and differentiated end of topic questions with this Edexcel Year 2 student book. - Identifies the level of your students' understanding with diagnostic questions and a summary of prior knowledge at the start of the Year 1 Student Book. - Provides support for all 16 required practicals with various activities and questions, along with a 'Practical' chapter covering procedural understanding and key ideas related to measurement - Mathematical skills are integrated throughout with plenty of worked examples, including notes on methods to help explain the strategies for solving each type of problem - Offers plenty of practice with Test Yourself Questions to help students assess their understanding and measure progress - Encourages further reading and study with short passages of extension material - Develops understanding with free online access to Test yourself Answers and an Extended Glossary.

Produced in partnership with OCR, the University of York Science Education Group and the Nuffield Foundation, these second editions of the Twenty First Century Science resources provide the best support for the new specifications and make the transition as smooth as possible. Online Homework covers all your students' home learning needs.

Please note this title is suitable for any student studying: Exam Board: AQA Level: A Level Subject: Biology First teaching: September 2015 First exams: June 2017 Fully revised and updated for the new linear qualification, written and checked by curriculum and specification experts, this Student Book supports and extends students through the new course whilst delivering the maths, practical and synoptic skills needed to succeed in the new A Levels and beyond. The book uses clear straightforward explanations to develop true subject knowledge and allow students to link ideas together while developing essential exam skills.

Please note this title is suitable for any student studying: Exam Board: AQA Level: A Level Subject: Chemistry First teaching: September 2015 First exams: June 2017 Fully revised and updated for the new linear qualification, written and checked by curriculum and specification experts, this Student Book supports and extends students through the new course whilst delivering the maths, practical and synoptic skills needed to succeed in the new A Levels and beyond. The book uses clear straightforward explanations to develop real subject knowledge and allow students to link ideas together, while developing essential exam skills.

AQA Approved Help students to apply and develop their knowledge, progressing from basic concepts to more complicated Chemistry, with worked examples, practical activities and mathematical support throughout - Provides support for all 12 required practicals with activities that introduce practical work and other experimental investigations in Chemistry - Offers detailed examples to help students get to

grips with difficult concepts such as Physical Chemistry calculations - Mathematical skills are integrated throughout the book and all summarised in one chapter for easy reference - Allows you to easily measure progression with Differentiated End of Topic questions and Test Yourself Questions - Develops understanding with free online access to Test yourself Answers, an Extended Glossary, Learning Outcomes and Topic Summaries AQA A-level Chemistry Year 1 includes AS-level.

Improve exam skills, check understanding and familiarise students with the types of questions they will face in the OCR GCSE Computer Science exams. This photocopiable pack of exam-style questions, sample answers and mark schemes can be used flexibly for mocks, classwork or homework. Reinforce the skills and knowledge that students need for their exams, selecting exam question worksheets to focus on tricky topics or revise more broadly across the course Pick and choose whether you assign the questions in test conditions or use them alongside the sample answers, encouraging students to reflect on their responses Help students understand what a 'good' answer looks like, sharing sheets of sample answers with examiner comments and mark schemes Mark students' work more easily, consulting the examiner comments and mark schemes yourself or giving them to students for self/peer-marking activities

New and updated resources tailored to the 2015 Advancing Physics specification, from OCR's resource partner. With new accessible format and features throughout, these resources retain the ethos of Advancing Physics while providing full support for the new linear qualification. Accompanied by a bank of support and online resources on Kerboodle.

The OCR A Level Biology A Revision Guide provides comprehensive, specification-matched content, packed with engaging revision and practice material to keep you focused. It also contains a wealth of exam-style questions to test your knowledge and skills to help you fully prepare for the exams.

Written by curriculum and specification experts, this Student Book supports and extends students through the new course while delivering the breadth, depth, and skills needed to succeed in the new AS and beyond. It develops true subject knowledge while also developing essential exam skills.

These little books are specially designed for children to practise blending sounds together to make words. Each book provides a series of words and short phrases (following the Letters and Sounds Phases and Sets) for children to practise sounding and blending. This pack contains 1 copy of all 14 titles, covering Phases 2 to 4.

Written by curriculum and specification experts, this Student Book supports and extends students through the new linear course while delivering the breadth, depth, and skills needed to succeed in the new A Levels and beyond. It develops real subject knowledge as well as essential exam skills.

Grade A Secrets offers a useful mock exam. Inside each pack, actual GCSE examiners reveal inside information on the forthcoming 2001 exams. They also add tips on how to attain A/A* grades.

Activate is a new Key Stage 3 Science course for the 2014 curriculum, designed to support every student on their journey through Key Stage 3 to Key Stage 4 success. This student book will spark students' curiosity in science, whilst gradually building the maths, literacy and working scientifically skills vital for success in the new GCSEs.

The OCR Gateway GCSE Chemistry Student Book is clear and accessible to help your students develop clear scientific knowledge and understanding. It caters for your students of all abilities, with differentiation on every spread and Higher tier content clearly highlighted.

Written by curriculum and specification experts, this Student Book supports and extends students through the new course while delivering the breadth, depth, and skills needed to succeed in the new A Level and beyond. It develops true subject knowledge while also developing essential exam skills.

Based on principles of cognitive science, this three-step approach to effective revision combines knowledge, retrieval and interleaving, and extensive exam-style practice to help students master knowledge and skills for GCSE success. UK schools save 50% off the RRP! Discount will be automatically applied when you order on your school account.

A Level Chemistry a for OCR Student Book

Please note this title is suitable for any student studying: Exam Board: OCR Level: A Level Subject: Physics First teaching: September 2015 First exams: June 2017 Written by curriculum and specification experts, this Student Book supports and extends students through the new linear course whilst delivering the breadth, depth, and skills needed to succeed in the new A Levels and beyond.

Helping you to deliver the OCR 2008 specification with resources that complement OCR's own teacher support materials. There are resources and support on CD-ROM, including videos, web links, original sources and much more.

These new resources have been written to match the 2016 OCR GCSE Gateway Science (9-1) specifications. Built-in assessment and differentiation supports students of all abilities and makes progress tracking easy. Maths skills and practical skills are developed throughout with ramped practice questions and differentiated learning outcomes.

These new Twenty First Century Science resources have been written alongside the 2016 specifications. Students of all abilities are supported with separate Higher and Foundation books, and maths and practical skills are developed throughout. An assessment item for every assessable learning outcome provides evidence of students' progress.

Written by leading Computer Science teachers, this brand-new textbook will guide students through the updated OCR GCSE Computer Science specification topic by topic, and provide them with standalone recap and review sections, worked examples and clear explanations of complex topics. This Student Book:br" develops computational thinking skills in line with the new Practical Programming element of Component 02br" provides differentiated material with the 'beyond the spec' featurebr" includes standalone recap and review sections at the end of each chapterbr" provides definitions of technical terms, along with a glossary of words that will be needed for assessment. Look out for a free set of practice questions on the Hodder Education website. Please note, these questions are not endorsed by OCR and have not been subject to any OCR quality assurance processes. George Rouse, Lorne Pearcey and Gavin Craddock are highly respected and widely published authors of resources.

Written by curriculum and specification experts, this Student Book supports and extends students through the new linear course while delivering the breadth, depth, and skills needed to

succeed in the new A Levels and beyond. It develops true subject knowledge while also developing essential exam skills.

This text engages every student and stimulates their interest in science. It provides a simple and clear approach to all resources available, with all the help and support you need to teach the new specifications with ease and make the transition as smooth as possible.

A student-friendly and engaging resource for the 2016 Edexcel GCSE Geography B specification, this brand new course is written to match the demands of the specification. As well as providing thorough and rigorous coverage of the spec, this book is designed to engage students in their learning and to motivate them to progress.

This extensively revised 4th edition of an established physics text offers coverage of the recent developments at A/AS-Level, with each topic explained in straightforward terms, starting at an appropriate Level (7/8) of the National Curriculum

The OCR A Level Chemistry A Revision Guide provides comprehensive, specification-matched content, packed with engaging revision and practice material to keep you focused. It also contains a wealth of exam-style questions to test your knowledge and skills to help you fully prepare for the exams.
