What can one man do? History is filled with world-changing events that turned on the hinge of a single person taking action. Their decisions and words shaped the world later generations came to inhabit. In *The Power of One Man*, author Ron Archer examines biblical figures who changed the world in which they lived, then applies those lessons to the challenges men face today—deftly weaving the narrative with stories of both failure and success in his own life in a way that is not only educational, but inspirational. Most of the social problems in our culture stem from an epidemic of fatherlessness. But as Ron's own life demonstrates, God has a plan to redeem and restore those areas by redeeming and restoring men themselves—one individual at a time. What can God do with just one man? Anything He wants to—if you let Him.

*My Overdue Book: Too many stories not to tell:* spells out the varied episodes in the life of a man who spent decades working in Hollywood. He began as a little boy in Cincinnati impressed early on by the broadcasting magic of radio and then TV in the middle of twentieth century America. His drive to get into broadcasting culminates in an early success that gets interrupted by an unexpected sidebar in The US Army and a subsequent tour as an Infantryman in Vietnam in the late 1960's. His yearlong excursion in "Fun City East," with its repeated life and death experiences, had lifelong effects on this soldier-of-media. Following his wanderings through the jungles of Vietnam, Bright's interactions with many of America's top public figures throughout his decades in radio and television come to life with intriguing stories that are personal, professional, positive and negative. It's life without a filter! Readers across generations will share and co-experience numerous real life feelings and emotions with writer Bright as his winding trail of life opens in front of them. book endorsement for peter bright; i always thought that peter bright and i had many things in common; we both grew up in ohio, we both had careers in the live event and variety side of television, and the few times we had times to talk i thought we shared a mutual philosophy toward the ups and downs of life. but it wasn't until i read his "overdue" book that i realized just what a rich and storied life peter has had and how much more deeply he had experienced the highs and lows, particularly during his years in the military, than i ever could have imagined. it really amazes me just how little we know about people we think we know, and just how much more we appreciate who they are when we are fortunate enough to have that background filled in by someone as articulate and able to express both facts and feelings as peter has in this book. when i started to read it, i thought all of those common events that we shared would be an interesting parallel track to my life and as such i would have a great frame of reference, but as i read on, i realized just what an

amazing story peter has to tell and just how well he tells it. ken ehrlich, executive producer, the grammy awards

It seems that for decades, women in talk shows, books, and movies have been notorious men bashers. Real men are tired of hearing women say that there are no good men out there and that "men are dogs." Now it's the man's turn! Women are so quick to blame men for the bad choices in men that they make, but is it the man's fault for getting away with the lying and manipulating of women, or is the women who are at fault for putting up with it? Most women would answer that wrong! It's time to hear what men have to say about how they have to deal with women in relationships and what men expect from women. It's finally time to hear from a man's point of view!

An authority on Asia and globalization identifies the challenges China's growing power

poses and how it must be confronted When China joined the World Trade Organization in 2001, most experts expected the WTO rules and procedures to liberalize China and make it "a responsible stakeholder in the liberal world order." But the experts made the wrong bet. China today is liberalizing neither economically nor politically but, if anything, becoming more authoritarian and mercantilist. In this book, notably free of partisan posturing and inflammatory rhetoric, renowned globalization and Asia expert Clyde Prestowitz describes the key challenges posed by China and the strategies America and the Free World must adopt to meet them. He argues that these must be more sophisticated and more comprehensive than a narrowly targeted trade war. Rather, he urges strategies that the United States and its allies can use unilaterally without contravening international or domestic law.

From the author of *Earth: An Intimate History*, an exuberant "biography" of four acres of woodland, evoking a cosmos of living and inanimate things and imagining its millennia of existence A few years ago, award-winning scientist Richard Fortey purchased four acres of woodland in the Chiltern Hills of Oxfordshire, England. *The Wood for the Trees* is the joyful, lyrical portrait of what he found there. With one chapter for each month, we move through the seasons: tree felling in January, moth hunting in June, finding golden mushrooms in September. Fortey, along with the occasional expert friend, investigates the forest top to bottom, discovering a new species and explaining the myriad connections that tie us to nature and nature to itself. His textured, evocative prose and gentle humor illuminate the epic story of a small forest. But he doesn't stop at mere observation. *The Wood for the Trees* uses the forest as a springboard back through time, full of rich and unexpected tales of the people, plants, and animals that once called the land home. With Fortey's help, we come to see a universe in miniature.

Grand strategist and founder of modern Singapore offers key insights and controversial opinions on globalization, geopolitics, economic growth, and democracy. When Lee Kuan Yew speaks, presidents, prime ministers, diplomats, and CEOs listen. Lee, the founding father of modern Singapore and its prime minister from 1959 to 1990, has honed his wisdom during more than fifty years on the world stage. Almost single-handedly responsible for transforming Singapore into a Western-style economic success, he offers a unique perspective on the geopolitics of East and West. American presidents from Richard Nixon to Barack Obama have welcomed him to the White House; British prime ministers from Margaret Thatcher to Tony Blair have recognized his wisdom; and business leaders from Rupert Murdoch to Rex Tillerson, CEO of Exxon Mobil, have praised his accomplishments. This book gathers key insights from interviews, speeches, and Lee's voluminous published writings and presents them in an engaging question and answer format. Lee offers his assessment of China's future, asserting, among other things, that "China will want to share this century as co-equals with the U.S." He affirms the United States' position as the world's sole superpower but expresses dismay at the vagaries of its political system. He offers strategic advice for dealing with China and goes on to discuss India's future, Islamic terrorism, economic growth, geopolitics and globalization, and democracy. Lee does not pull his punches, offering his unvarnished opinions on multiculturalism, the welfare state, education, and the free market. This little book belongs on the reading list of every world leader.

The Singapore Story is the first volume of the memoirs of Lee Kuan Yew, the man who planted the island state of Singapore firmly on the map of the world. It was first published in 1999. In intimate detail, Lee recounts the battles against colonialists, communists and communalists that led to Singapore's independence. With consummate political skill, he countered adversaries, sometimes enlisting their help, at others opposing them, in the single-minded pursuit of Singapore's interests. We read how he led striking unionists against the colonial government, how over tea and golf he fostered ties with key players in Britain and Malaya, of secret midnight meetings in badly lit rooms, drinking warm Anchor beer with a communist underground leader, of his purposeful forging of an alliance with communists to gain the support of the Chinese-educated masses. Readers will find inspiration in his tenacity as he fought for the people's hearts and minds against first the communists and later the communalists – in parliament, on the streets and through the media. Drawing on unpublished Cabinet papers, archives in Singapore, Britain, Australia, New Zealand and the United States, as well as personal correspondence, he gives us a vivid picture of how others viewed

him: determined ("Lee will bluff, bully and blackmail up to the eleventh hour"), motivated ("Choo knew I sweated blood to master Hokkien"), ambitious ("He would think himself as legitimate as I was to be the leader of Malaya"), dangerous ("Crush Lee! Put him inside"). It is a sometimes controversial yet strangely consistent portrait of this Asian statesman. These experiences and his dealings with the political leaders were to shape his views and policies, which have had a major impact on Singapore and the region.

An obsessive word lover's account of reading the entire Oxford English Dictionary, hailed as "the Super Size Me of lexicography." "I'm reading the OED so you don't have to," says Ammon Shea on his slightly masochistic journey to scale the word lover's Mount Everest: the Oxford English Dictionary. In 26 chapters filled with sharp wit, sheer delight, and a documentarian's keen eye, Shea shares his year inside the OED, delivering a hair-pulling, eye-crossing account of reading every word.

Nicholas Lezard loved London. Then the London 2012 Olympics came along ... Suddenly his beloved city was invaded by über-people in branded sportswear who had contorted their bodies into odd shapes in order to run a bit faster, or throw things a bit further. Not to mention armies of reptilian brand-managers, chancers and corporate cheerleaders all wanting to cash in, as a blameless piece of the East End was turned (at tear-inducing cost) into one huge folly. In *The Nolympics* Nicholas Lezard gives us the perfect antidote to Olympics fever with a hilarious blow-by-blow account of how he survived its highs and lows, triumphs and soul-destroying boredom. It is a book for anyone who would rather sit in the dark watching TV than ever wave a flag, who was last to be picked for PE, or who just feels that somewhere along the way the Spirit of the Games was smothered by wads of money. It is the only Olympic souvenir you'll ever need.

Few gave tiny Singapore much chance of survival when it was granted independence in 1965. How is it, then, that today the former British colonial trading post is a thriving Asian metropolis with not only the world's number one airline, best airport, and busiest port of trade, but also the world's fourth-highest per capita real income? The story of that transformation is told here by Singapore's charismatic, controversial founding father, Lee Kuan Yew. Rising from a legacy of divisive colonialism, the devastation of the Second World War, and general poverty and disorder following the withdrawal of foreign forces, Singapore now is hailed as a city of the future. This miraculous history is dramatically recounted by the man who not only lived through it all but who fearlessly forged ahead and brought about most of these changes. Delving deep into his own meticulous notes, as well as previously unpublished government papers and official records, Lee details the extraordinary efforts it took for an island city-state in Southeast Asia to survive at that time. Lee explains how he and his cabinet colleagues finished off the communist threat to the fledgling state's security and began the arduous process of nation building: forging basic infrastructural roads through a land that still consisted primarily of swamps, creating an army from a hitherto racially and ideologically divided population, stamping out the last vestiges of colonial-era corruption, providing mass public housing, and establishing a national airline and airport. In this illuminating account, Lee writes frankly about his trenchant approach to political opponents and his often unorthodox views on human rights, democracy, and inherited intelligence, aiming always "to be correct, not politically correct." Nothing in Singapore escaped his watchful

eye: whether choosing shrubs for the greening of the country, restoring the romance of the historic Raffles Hotel, or openly, unabashedly persuading young men to marry women as well educated as themselves. Today's safe, tidy Singapore bears Lee's unmistakable stamp, for which he is unapologetic: "If this is a nanny state, I am proud to have fostered one." Though Lee's domestic canvas in Singapore was small, his vigor and talent assured him a larger place in world affairs. With inimitable style, he brings history to life with cogent analyses of some of the greatest strategic issues of recent times and reveals how, over the years, he navigated the shifting tides of relations among America, China, and Taiwan, acting as confidant, sounding board, and messenger for them. He also includes candid, sometimes acerbic pen portraits of his political peers, including the indomitable Margaret Thatcher and Ronald Reagan, the poetry-spouting Jiang Zemin, and ideologues George Bush and Deng Xiaoping. Lee also lifts the veil on his family life and writes tenderly of his wife and stalwart partner, Kwa Geok Choo, and of their pride in their three children — particularly the eldest son, Hsien Loong, who is now Singapore's deputy prime minister. For more than three decades, Lee Kuan Yew has been praised and vilified in equal measure, and he has established himself as a force impossible to ignore in Asian and international politics. *From Third World to First* offers readers a compelling glimpse into this visionary's heart, soul, and mind.

Jess has been in love with her best friend, Kate, for seven years, but her feelings have never been returned. One night they sleep together, and Jess finds out how much it is possible to be hurt by someone close. Jess and Kate struggle to redefine their friendship. They spend a week at Jess's family holiday house in a small seaside town, Awatangi, intending to make the time to talk things through, but the conversations never happen. Kate makes vague promises, but begins to have second thoughts. Jess wants Kate, and nothing else, and is heartbroken that isn't enough. Jess decides — while everything is changing in her life — that she doesn't want to go on living in the city, that she wants to return to Awatangi. Part of her hopes some physical distance between them may help things with Kate, and part of her — frustrated and upset — simply wants to leave Kate behind. In Awatangi, Jess meets Keri, a local lawyer who has also recently returned home. Like Jess, Keri surfs, and like Jess, she seems to feel some attachment to her family roots in Awatangi. Jess is drawn to Keri, but forces herself not to let anything happen. Despite everything, Kate is still Jess's closest friend, and she has loved Kate all her life. She feels she has to give the situation with Kate as long as

she can to work itself out. Awatangi is about coping with feelings for a close friend that are not returned, set in a small holiday township on the West Coast of the South Island of New Zealand. It is an exploration of getting what you've always wanted and it not being enough, of being in love with one person and wanting another, and of finding out that life doesn't always turn out as expected.

NEW AGE | VISIONARY FICTION | ALLEGORY | INSPIRATIONAL | SPIRIT.

Tormented by the never-ending voices of his inner critic and the 'thought storms' in his mind, a disheartened man travels West on the brink of despair, stopping overnight in a small Nebraska prairie town, where he experiences a surprising inner awakening...Through this allegory, discover and explore a key tool of self-awareness --'The Watcher' (witness consciousness)-- for finding peace on your own inner journey and spiritual path. Inspired by the profound wisdom of Michael Singer's The Untethered Soul, the author here shares the process of one person's internal struggle to understand--and escape from--the incessant voices of their inner self-critic. Then --moving well beyond the entry point of self-criticism--this simple story delves deeply to explore the very nature of thinking and emotions themselves and our relationship to them as human beings. What is real? What is illusion? Who ARE you? Is it possible to be freed from the "thought maze" that typically entangles a person in their everyday life? Through the protagonist's journey the larger picture of personal identity and its relationship to thoughts and feelings is revealed, as he unknowingly discovers a key tool of self-awareness that the reader will also be able take away for everyday use on their own spiritual path. This transformation evolves over the course of only 24 hours...yet magically, time stretches as the mind of the main character opens and his heart begins to truly flow for the first time.This New Age work falls into the more recently developing genre of Metaphysical & Visionary Fiction. Like James Redfield's The Celestine Prophecy and Paulo Coelho's The Alchemist, the subtle--yet powerful--unfolding of this allegorical journey will both captivate and

inspire you!

Lee Kuan Yew played the pivotal role in Singapore's transition from British Crown Colony to independent developing nation, and on to the economically powerful and diplomatically influential city-state it is today. Throughout this surprising and at times painful journey, he has proved a charismatic and occasionally controversial leader. Lee is a conviction politician whose speeches are unambiguous, characterful and eminently quotable; this collection of almost 600 short quotations provides a compelling summary of his views on a wide range of topics from Singapore's past, present and future. In Lee's own words: "I have been accused of many things in my life, but not even my worst enemy has ever accused me of being afraid to speak my mind."

Political genius is never without controversy, or without mystery. This is what makes it so interesting and so rare. Is Lee Kuan Yew the feral, authoritarian figure that Western critics claim? Or a stoic pioneer in new approaches to developing a nation—uncorrupt, modern, almost scientific? American journalist Tom Plate first interviewed the founder of modern Singapore in 1996 in a continuing back-and-forth with LKY that led to the summer of 2009, when the former prime minister agreed to sit down for two days of unprecedentedly informal but intense conversations that led to this special book. This new edition includes fascinating excerpts from prior interviews, as well as the author's assessment of the man who goes down in history as the world's longest-serving prime minister—and as one of the most unforgettable political figures of modern times. "You have done a superb job of capturing the many facets of this extraordinary man...." – Dr Henry A. Kissinger on Conversations with Lee Kuan Yew
