The New York Times Bestseller! After decades of silence, Robyn Crawford, close friend, collaborator, and confidante of Whitney Houston, shares her story. Whitney Houston is as big a superstar as the music business has ever known. She exploded on the scene in 1985 with her debut album and spent the next two decades dominating the charts and capturing the hearts of fans around the world. One person was there by her side through it all—her best friend, Robyn Crawford. Since Whitney's death in 2012, Robyn has stayed out of the limelight and held the great joys, wild adventures, and hard truths of her life with Whitney close to her heart. Now, for the first time ever, Crawford opens up in her memoir, *A Song for You*. With warmth, candor, and an impressive recall of detail, Robyn describes the two meeting as teenagers in the 1980s, and how their lives and friendship evolved as Whitney recorded her first album and Robyn pursued her promising Division I basketball career. Together during countless sold-out world tours, behind the scenes as hit after hit was recorded, through Whitney's marriage and the birth of her daughter, the two navigated often challenging families, great loves, and painful losses, always supporting each other with laughter and friendship. Deeply personal and heartfelt, *A Song for You* is the vital, honest, and previously untold story that provides an understanding of the complex life of Whitney Houston. Finally, the person who knew her best sets the record straight.

A keepsake, a remembrance, a celebration: USA TODAY's Passages is a rich and touching look at the lives of those who left us in 2012 – ranging from pop's troubled goddess to the reclusive first man on the moon, from a wise sheriff in mythical Mayberry to a brave schoolteacher who saved her students in Connecticut. These are the stories of more than 235 people who changed entertainment, science, sports, business and our world, leaving legacies large and small. Passages is a USA TODAY e-book worth turning to again and again. The '80s were a decade of musical change. As the '70s disco stranglehold was broken, rock, gay, dance and pop music competed with funk and soul, romantic ballads and political protest, computerised music and controversy. The glamour of costume, greasepaint and cross-dressing was put to good use by New Romantic groups like Spandau Ballet, Duran Duran, Soft Cell, Culture Club and the Human League, while the world also looked to Britain for the most exciting pop acts such as the multi-million-selling Wham!, Frankie Goes To Hollywood, Eurythmics and the Pet Shop Boys. Mainstream dance music was at its peak, spearheaded by Stock, Aitken and Waterman, and their stable of artists, including Kylie Minogue, Jason Donovan and Rick Astley, were all chart-topping names. From the USA came the artist of the decade, Michael Jackson, while Madonna and Whitney Houston provided the 'Girl Power' of the '80s. The decade also saw the philanthropic side of the music industry as the stars responded to famine in Ethiopia with the charity records 'Do They Know It's Christmas?' and 'We Are The World'. The '80s catered for all musical tastes, no matter how bizarre, and was far more eclectic than any other decade. From bubble-gum pop with Bucks Fizz to the stadium rock of Simple Minds, '80s Chart-Toppers brings a comprehensive year-by-year, month-by-month guide to the hottest sounds of the decade.

Public addresses make a difference a huge difference! Whether we think of public addresses as orations, as speeches, or as persuasive written documents, so many of these public addresses are intricately linked to the kind of nation and society we experience in the United States in the early twenty-first century. *American Rhetorical Excellence* is the most complete and up-to-date single volume on American rhetoric and oratory. In a readable and interesting style, Dr. Cotham explains what makes a speech great and enduring, and he dares to list and rank the top ten public addresses in American history. Altogether, 101 famous public addresses are discussed in brief essays, and Dr. Cotham offers insights into both the context and practical application of these important addresses. A wide range of other topics are discussed, including American political speaking, presidential debating, campaign speaking, famous pieces of written rhetoric, and American demagoguery. Although choosing from the veritable pantheon of American speakers and speeches is a difficult and even contentious challenge, *American Rhetorical Excellence* will equally challenge students of history, political science, and communication to think deeply about the fascinating ways in which American rhetoric has shaped the politics, culture, religion, and reformation of the United States.

She still wondered, "Am I good enough? Am I pretty enough? Will they like me?" It was the burden that made her great and the part that caused her to stumble in the end. If you could hear me, no I would tell you, you weren't just good enough, you were great. -- Kevin Costner

We all read the same stories and found ourselves believing the rumors. The stories of drug use and drunken nights out, her problems with money and marriage, and even those about how much Kevin Costner despised working with her on the film, *The Bodyguard*, because of her diva-like ways. But quotes like the one above, along with everything else Kevin Costner shared about his friendship with Whitney Houston, can't help but make you wonder just how misunderstood she really was. This book takes you full circle through Whitney Houston's life, starting with her first solo in her mother's choir at the New Hope Baptist Church in New Jersey to her funeral in that very same church. Every page will give you more and more insight into the tragic superstar, leaving you with an understanding of just how incredible she was, even when the tabloids were declaring otherwise.

Rock music of all varieties has been influenced by classical music and vice versa, both in the form of direct quotes and in the form of borrowings of style, composition, and instrumentation. The average listener may be unaware of the many links between rock music and the classics. One might remember a few examples, such as Walter Murphy's chart-topping "A Fifth of Beethoven" or Eric Carmen's "All by Myself," but pass them off as interesting anomalies. However, the influence of the classics on rock music is pervasive and grows from a long line of precedents. This second supplement to Janell R. Duxbury's original 1985 discography, *Rockin' the Classics and Classicizin' the Rock*, brings the earlier work and first supplement up-to-date

with hundreds of new entries documenting recently released or newly discovered examples of the interconnection between these musical genres. Duxbury details nearly 700 new examples of recorded rock instrumentals and songs that borrow musical themes from the classics. Variations range from contemporary renditions of complete classical works to brief classical quotes or phrases subtly incorporated into rock compositions. Duxbury also gives additional examples of recorded orchestral versions of songs originally composed and/or written by rock artists. In these examples, the musical style varies from strict classical interpretations to pop-style orchestral renditions. The second supplement then expands Duxbury's original compilation of sound recordings and live performances of rock groups performing with established orchestras and choruses, selected samples of recorded rock music that simulate baroque or classical sound/structure, examples of the manifest influence of rock on classical music, and instances of rock artists and classical artists switching roles. Lastly, this discography updates the 1985 version and the first supplement with new information, expanded details, and minor corrections to the earlier works. An extended list of selected non-rock background examples is included in several new appendixes. The Preface is updated. A general index includes the names of classical composers, rock artists and groups, orchestras, choruses, orchestra conductors, sound recording producers, and song or instrumental titles. With its incomparable scope and content, this supplement, together with Duxbury's previous discography, and its first supplement will be appreciated by students, researchers, record collectors, trivia buffs, music industry employees, and fans of rock music and the classics. This is an ode to all my sisters who have thought that they could not go on, But then, heard the voice of destiny's love and risked all, for life. In my worldview, this lady that you are about to meet was real, but suppose she was not real, suppose it is just a story, a fairytale it yet has all the elements of what confronts far too many women today loneliness, despair, alienation, separation, doubt, fear, poverty of both purse and spirit. And, the question it poses - how do we get out of these places? And the answers it provides by coming to the reality that placed within us at our beginning, is such enormous power hidden within every fiber of our being that we can create the world that we want, the world that we desire, the world that expresses our highest self, our real self. We come face to face with God's revelation to Einstein that $E=mc^2$ How I so agree with the American Writer, Orison Sweet Marden when he says, The golden opportunity you are seeking is in yourself. It is not in your environment, its not in luck, or chance or the help of others. It is in you alone I thank you for coming on this journey of discovery with me.
