The #1 New York Times bestselling (mostly true) memoir from the hilarious author of *Furiously Happy*. “Gaspingly funny and wonderfully inappropriate.”—*O, The Oprah Magazine* When Jenny Lawson was little, all she ever wanted was to fit in. That dream was cut short by her fantastically unbalanced father and a morbidly eccentric childhood. It did, however, open up an opportunity for Lawson to find the humor in the strange shame-spiral that is her life, and we are all the better for it. In the irreverent *Let’s Pretend This Never Happened*, Lawson’s long-suffering husband and sweet daughter help her uncover the surprising discovery that the most terribly human moments—the ones we want to pretend never happened—are the very same moments that make us the people we are today. For every intellectual misfit who thought they were the only ones to think the things that Lawson dares to say out loud, this is a poignant and hysterical look at the dark, disturbing, yet wonderful moments of our lives. Women’s Writing in Twenty-First Century France is a collection of critical essays on recent women-authored literature in France. It takes stock of the themes, issues and trends in women’s writing of the first decade of the twenty-first century, and it engages critically with the work of individual authors through close textual readings. Authors covered include major prizewinners, best-selling authors, established and new writers whose work attracts scholarly attention, including those whose texts have been translated into English such as Christine Angot, Nina Bouraoui, Marie Darrieussecq as Chloé Delaume, Claudie Galle and Anna Galvalda. Themes include translation, popular fiction, society, history, war, family relations, violence, trauma, the body, racial identity, sexual identity, feminism, life-writing and textual/aesthetic experiments. Compares concepts of God to concepts of other mythological beings and stories. Spanning eight decades and chronicling the wild ride of a Greek-American family through the vicissitudes of the twentieth century, Jeffrey Eugenides’ witty, exuberant novel on one level tells a traditional story about three generations of a fantastic, absurd, lovable immigrant family -- blessed and cursed with generous doses of tragedy and high comedy. But there’s a provocative twist. Cal, the narrator -- also Callie -- is a hermaphrodite. And the explanation for this takes us spooling back in time, through a breathtaking review of the twentieth century, to 1922, when the Turks sacked Smyrna and Callie’s grandparents fled for their lives. Back to a tiny village in Asia Minor where two lovers, and one rare genetic mutation, set our narrator’s life in motion. *Middlesex* is a grand, utterly original fable of crossed bloodlines, the intricacies of gender, and the deep, untidy promptings of desire. It’s a brilliant exploration of divided people, divided families, divided cities and nations -- the connected halves that make up ourselves and our world.

This biography of the famous Soviet physicist Leonid Isaakovich Mandelstam (1889–1944), who became a Professor at Moscow State University in 1925 and an Academician (the highest scientific title in the USSR) in 1929, describes his contributions to both physics and technology. It also discusses the scientific community that formed around him, commonly known as the Mandelstam School. By doing so, it places Mandelstam’s life story in its cultural context: the context of German University (until 1914), the First World War, the Civil War, and the development of the Socialist

Revolution (until 1925) and the young socialist country. The book considers various general issues, such as the impact of German scientific culture on Russian science; the problems and fates of Russian intellectuals during the revolutionary and post-revolutionary years; the formation of the Soviet Academy of Science, the State Academy; and the transformation of the system of higher education in the USSR during the 1920s and 1930s. Further, it reconstructs Mandelstam's philosophy of science and his approach to the social and ethical function of science and science education based on his fundamental writings and lecture notes. This reconstruction is enhanced by extensive use of previously unpublished archive material as well as the transcripts of personal interviews conducted by the author. The book also discusses the biographies of Mandelstam's friends and collaborators: German mathematician and philosopher Richard von Mises, Soviet Communist Party official and philosopher B.M.Hessen, Russian specialist in radio engineering N.D.Papalexey, the specialists in non-linear dynamics A.A.Andronov, S.E. Chaikin, A.A.Vitt and the plasma physicist M.A.Leontovich. This second, extended edition reconstructs the social and economic backgrounds of Mandelstam and his colleagues, describing their positions at the universities and the institutes belonging to the Academy of Science. Additionally, Mandelstam's philosophy of science is investigated in connection with the ideological attacks that occurred after Mandelstam's death, particularly the great mathematician A.D.Alexandrov's criticism of Mandelstam's operationalism.

People like to wear masks all the time, and I'm not talking about the masks we're wearing now due to the pandemic. I'm talking about the masks we put on when we are interacting with others. We hide who we really are and we transform into a different person depending on the setting. We put on a mask when we meet relatives, we put on a mask at our work, and we put on a mask on when we are with friends (most of them). And the only time we are not wearing a mask is when we are alone. Not all of us do it in the same degree, and there are different reasons for doing it. But the most common is that we are afraid of being criticized and judged. So we look for acceptance in others and we conform. We are not sure of what our real selves will be like, so we become what we think will be liked more. If we are introverts, we change a bit to seem more extravert. If we are weird, we become more "normal" to fit in. We hide what makes us unique and authentic because we are not sure others will like it. And many times we are being rewarded for it. People seem to approve of this new, upgraded version of you, so you keep the small change. Then people expect you to behave like that, so you have to keep the facade. And then you add a bit more, and a bit more, until you are different enough to exhaust yourself by playing this role. I believe this is the main reason some people exhaust themselves in social settings. The mask needs energy to stay in place.

This is not the same as being casual and carefree with friends, and more formal and careful at work settings. This is normal. In this book, you will learn how to hide part of your personality based on the premise of approval. Stop pretending to be someone you are not. It is ok to be yourself. The only one that needs to accept you is YOU! Peace & Love

Against the backdrop of occupied Tokyo, a young girl searches for her missing older sister, who has disappeared into the world of bars and dance halls. In the process, her story will become intertwined with those of others trying to make sense of their lives in a post-war world: a thirteen-year-old Japanese Canadian "repat," a school teacher who translates love letters from American GIs, and a Japanese-American soldier serving with the Occupation forces. An emotionally gripping portrait of a battered nation, *The Translation of Love* mines this turbulent period to show how war irrevocably shapes the lives of people on both sides—and how resilience, friendship, and love translate across cultures and borders no matter the circumstances. Winner of the Canada-Japan Literary Award

make someone want to do what you want them to do by seeing the situation from the other person's point of view and arousing in the other person an eager want." "Just pretend to be my fiancée for Christmas." Sure. What could go wrong? The richest man in this city is an Adonis in the flesh. He takes the air out of me with a single glance. But he happens to be my sworn enemy. From his designer suits, to his pompous air. He encompasses every quality I hate. If only I could stop fantasizing about him. His hands on my hips, caressing every inch of me. His mouth pressing against mine... Ugh, let me stop myself there. He's the enemy. You don't bang your enemies. That is til I broke my cardinal rule, repeatedly. Goodbye, virginity. I fell into the "Just Pretend" trap with the most eligible bachelor. Oh, did I mention I'm also carrying his baby. Damn him for being so gorgeous.

The purpose of this book is to promote the value of translanguaging in EFL teaching contexts. To date, translanguaging has been discussed mostly in regards to US and European contexts. This book will examine the teaching beliefs and practices of teachers within a South Korean elementary school context to evaluate the practices of current teachers who use translanguaging strategies when teaching. This examination utilizes sociological theories of pedagogic discourse to discuss the consequences of language exclusion policies on the peninsula. Using these theories, it presents an argument for why EFL contexts like South Korea need to reevaluate their current policies and understandings of language learning and teaching. By embracing translanguaging as an approach, the author argues, they will transform their traditional notions of language learning and teaching in order to view teachers as bilinguals, and learners as emerging bilinguals, rather than use terms of deficiency that have traditionally been in place for such contexts. This book's unique use of sociological theories of pedagogic discourse supports a need to promote the translanguaging ideology of language teaching and learning.

This guide highlights the place of translation in our culture, encouraging awareness of the process of translating and the choices involved, making the translator more 'visible'. Concentrating on major writers and works, it covers translations out of many languages, from Greek to Hungarian, Korean to Turkish. For some works (e.g. Virgil's Aeneid) which have been much translated, the discussion is historical and critical, showing how translation has evolved over the centuries and bringing out the differences between versions. Elsewhere, with less familiar literatures, the Guide examines the extent to which translation has done justice to the range of work available.

He wrote the poems *The Rime of the Ancient Mariner* and *Kubla Khan*, as well as the major prose work *Biographia Literaria*. His critical work, especially on Shakespeare, was highly influential, and he helped introduce German idealist philosophy to English-speaking culture. He coined many familiar words and phrases, including suspension of disbelief. He was a major influence on Emerson, and American transcendentalism. Coleridge is one of the most important figures in English poetry. His poems directly and deeply influenced all the major poets of the age.
