The Humane Gardener Nancy Lawson,2017-04-18 In this eloquent plea for compassion and respect for all species, journalist and gardener Nancy Lawson describes why and how to welcome wildlife to our backyards. Through engaging anecdotes and inspired advice, profiles of home gardeners throughout the country, and interviews with scientists and horticulturalists, Lawson applies the broader lessons of ecology to our own outdoor spaces. Detailed chapters address planting for wildlife by choosing native species; providing habitats that shelter baby animals, as well as birds, bees, and butterflies; creating safe zones in the garden; cohabiting with creatures often regarded as pests; letting nature be your garden designer; and encouraging natural processes and evolution in the garden. The Humane Gardener fills a unique niche in describing simple principles for both attracting wildlife and peacefully resolving conflicts with all the creatures that share our world.

**Black Families and Recession in the United States** Dorothy Smith-Ruiz,Albert M. Kopak,2021-03-30 Black Families and the Recession in the United States goes beyond the massive loss of property among African Americans during the Great Recession of 2007–2009. It connects the housing experience to broader systems of inequality in America. Following the Great Recession of 2007–2009, the US elections of 2008, the impact of COVID-19, and widespread demonstrations resulting from the murder of George Floyd by police, the sociopolitical and economic status of Blacks in the United States is at a critical point in history, with demand for major transformation. The authors reveal a history of racist practices against Blacks in many systems, including education, policing, incarceration, wealth transmission, voting restrictions, and housing segregation. The social costs of the recession are manifested in the daily lives of African American families. In addition to financial losses, African Americans are more likely to be plagued with issues related to poverty, chronic illnesses, and lack of trust of social and economic institutions. Research, policy, and practical implications of this research include identifying social and economic supports unique to African Americans and determining strategies to strengthen families; paramount to addressing racial disparities. The interdisciplinary focus of this book appeals to a wide audience and areas of study.

*Sport and the New Zealanders* Greg Ryan,Geoff Watson,2018-08-09 A history of New Zealanders and the sports that we have made our own, from the Maori world to today's professional athletes.&'. . . those two mighty products of the land, the Canterbury lamb and the All Blacks, have made New Zealand what she is in spite of politicians' claims to the contrary', wrote Dick Brittenden in 1954. &'For many in New Zealand, prowess at sport replaces the social graces; in the pubs, during the furious session between 5pm and closing time an hour later, the friend of a relative of a horse trainer is a veritable patriarch. No matador in Madrid, no tenor in Turin could be sure of such flattering attention.' As Brittenden suggested, sport has played a central part in the social and cultural history of Aotearoa New Zealand throughout its history. This book tells the story of sport in New Zealand for the first time, from the Maori world to today's professional athletes. Through rugby and netball, bodybuilding and surf lifesaving, the book introduces readers to the history of the codes, the organisations and the players. It takes us into the stands and on to the sidelines to examine the meaning of sport to its participants, its followers, and to the communities to which they belonged. Why did rugby become much more important than soccer in New Zealand? What role have Maori played in our sporting life? Do we really &'punch above our weight' in international sport? Does sport still define our national identity? Viewing New Zealand sport as activity and as imagination, *Sport and the New Zealanders* is a major history of a central strand of New Zealand life.
