Introduction by Gillian Flynn • Afterword by Patton Oswalt "A brilliant genre-buster.... Propulsive, can't-stop-now reading." —Stephen King For more than ten years, a mysterious and violent predator committed fifty sexual assaults in Northern California before moving south, where he perpetrated ten sadistic murders. Then he disappeared, eluding capture by multiple police forces and some of the best detectives in the area. Three decades later, Michelle McNamara, a true crime journalist who created the popular website TrueCrimeDiary.com, was determined to find the violent psychopath she called "the Golden State Killer." Michelle pored over police reports, interviewed victims, and embedded herself in the online communities that were as obsessed with the case as she was. I'll Be Gone in the Dark—the masterpiece McNamara was writing at the time of her sudden death—offers an atmospheric snapshot of a moment in American history and a chilling account of a criminal mastermind and the wreckage he left behind. It is also a portrait of a woman's obsession and her unflagging pursuit of the truth. Utterly original and compelling, it has been hailed as a modern true crime classic—one which fulfilled Michelle's dream: helping unmask the Golden State Killer.

This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

A modern classic by Nobel Laureate J.M. Coetzee. His latest novel, *The Schooldays of Jesus*, is now available from Viking. *Late Essays: 2006-2016* will be available January 2018. For decades the Magistrate has been a loyal servant of the Empire, running the affairs of a tiny frontier settlement and ignoring the impending war with the barbarians. When interrogation experts arrive, however, he witnesses the Empire's cruel and unjust treatment of prisoners of war. Jolted into sympathy for their victims, he commits a quixotic act of rebellion that brands him an enemy of the state. J. M. Coetzee's prize-winning novel is a startling allegory of the war between oppressor and oppressed. The Magistrate is not simply a man living through a crisis of conscience in an obscure place in remote times; his situation is that of all men living in unbearable complicity with regimes that ignore justice and decency. Mark Rylance (*Wolf Hall*, *Bridge of Spies*), *Ciro Guerra* and producer Michael Fitzgerald are teaming up to bring J.M. Coetzee's *Waiting for the Barbarians* to the big screen.

Longlisted for the National Book Award New York Times Bestseller A former Wall Street quant sounds an alarm on the mathematical models that pervade modern life -- and threaten to rip apart our social fabric We live in the age of the algorithm. Increasingly, the decisions that affect our lives--where we go to school, whether we get a car loan, how much we pay for health insurance--are being made not by humans, but by mathematical models. In theory, this should lead to greater fairness: Everyone is judged according to the same rules, and bias is eliminated. But as Cathy O'Neil reveals in this urgent and necessary book, the opposite is true. The models being used today are opaque, unregulated, and uncontestable, even when they're wrong. Most troubling, they reinforce discrimination: If a poor student can't get a loan because a lending model deems him too risky (by virtue of his zip code), he's then cut off from the kind of education that could pull him out of poverty, and a vicious spiral ensues. Models are propping up the lucky and punishing the downtrodden, creating a "toxic cocktail for democracy." Welcome to the dark side of Big Data. Tracing the arc of a person's life, O'Neil exposes the black box models that shape our future, both as individuals and as a society. These "weapons of math destruction" score teachers and students, sort resumes, grant (or deny) loans, evaluate workers, target voters, set parole, and monitor our health. O'Neil calls on modelers to take more responsibility for their algorithms and on policy makers to regulate their use. But in the end, it's up to us to become more savvy about the models that govern our lives. This important book empowers us to ask the tough questions, uncover the truth, and demand change. -- Longlist for National Book Award (Non-Fiction) -- Goodreads, semi-finalist for the 2016 Goodreads Choice Awards (Science and Technology) -- Kirkus, Best Books of 2016 -- New York Times, 100 Notable Books of 2016 (Non-Fiction) -- The Guardian, Best Books of 2016 -- WBUR's "On Point," Best Books of 2016: Staff Picks -- Boston Globe, Best Books of 2016, Non-Fiction

The acclaimed national bestseller, the first and only diary written by a Guantánamo detainee during his imprisonment, now with previously censored material restored. When *GUANTÁNAMO DIARY* was first published--heavily redacted by the U.S. government--in 2015, Mohamedou Ould Slahi was still imprisoned at the detainee camp in Guantánamo Bay, Cuba, despite a federal court ruling ordering his release, and it was unclear when or if he would ever see freedom. In October 2016, he was finally released and reunited with his family. During his 14-year imprisonment, the United States never charged him with a crime. Now for the first time, he is able to tell his story in full, with previously censored material restored. This searing diary is not merely a vivid record of a miscarriage of justice, but a deeply personal memoir---terrifying, darkly humorous, and surprisingly gracious. *GUANTÁNAMO DIARY* is a document of immense emotional power and historical importance.

From renowned true-crime historian Harold Schechter, whom *The Boston Book Review* hails as "America's principal chronicler of its greatest psychopathic killers," comes the riveting exploration of a notorious, sensational New York City murder in the 1890s, the fascinating forensic science of an earlier age, and the explosively dramatic trial that became a tabloid sensation at the turn of the century. Death was by poison and came in the mail: A package of Bromo Seltzer had been anonymously sent to Harry Cornish, the popular athletic director of Manhattan's elite Knickerbocker Athletic Club. Cornish barely survived swallowing a small dose; his cousin Mrs. Katherine Adams died in agony after ingesting the toxic brew. Scandal sheets owned by Hearst and Pulitzer eagerly jumped on this story of fatal high-society intrigue, speculating that the devious killer was a chemist, a woman, or "an effeminate man." Forensic studies suggested cyanide as the cause of death; handwriting on the deadly package and the vestige of a label glued to the bottle pointed to a handsome, athletic society scamp, Roland Molineux. The wayward son of a revered Civil War general, Molineux had clashed bitterly with Cornish before. He had even furiously denounced Cornish when penning his resignation from the Knickerbocker Club, a letter that later proved a major clue. Bon vivant Molineux had recently wed the sensuous Blanche Chesebrough, an opera singer whose former lover, Henry Barnet, had also recently died . . . after taking medicine sent to him through the mail. Molineux's subsequent indictment for murder led to two explosive trials, a sex-infused scandal that shocked the nation, and a lurid print-media circus that ended in madness and a proud family's disgrace. In bold, brilliant strokes, Schechter captures all the colors of the tumultuous legal case, gathering his own evidence and tackling subjects no one dared address at the time--all in hopes of answering the tantalizing question: What powerfully dark motives could drive the wealthy scion of an eminent New York family to foul murder? Schechter vividly portrays the case's fascinating cast of characters, including Julian Hawthorne, son of Nathaniel Hawthorne, a prolific yellow journalist who covered the story, and proud General Edward Leslie Molineux, whose son's ignoble deeds besmirched a dignified national hero's final years. All the while Schechter brings alive Manhattan's Gilded Age: a gaslit world of elegant town houses and hidden bordellos, chic restaurants and shabby opium dens, a city peopled by men and women fighting and losing the battle against urges an upright era had ordered suppressed. Superbly researched and powerfully written, *The Devil's Gentleman* is an insightful, gripping work, a true-crime historian's crowning achievement.

The present ecological mutation has organized the whole political landscape for the last thirty years. This could explain the deadly cocktail of exploding inequalities, massive deregulation, and conversion of the dream of globalization into a nightmare for most people. What holds these three phenomena together is the conviction, shared by some powerful people, that the ecological threat is real and that the only way for them to survive is to abandon any pretense at sharing a common future with the rest of the world. Hence their flight offshore and their massive investment in climate change denial. The Left has been slow to turn its attention to this new situation. It is still organized along an axis that goes from investment in local values to the hope of globalization and just at the time when, everywhere, people dissatisfied with the ideal of modernity are turning back to the protection of national or even ethnic borders. This is why it is urgent to shift sideways and to define politics as what leads toward the Earth and not toward the global or the national. Belonging to a territory is the phenomenon most in need of rethinking and careful redescription; learning new ways to inhabit the Earth is our biggest challenge. Bringing us down to earth is the task of politics today.

This is a new edition of "*Pride and Prejudice*," originally published in 1894 by George Allen, of London, England, with a postface by George Saintsbury and illustrations by Hugh Thomson. Part of the project *Immortal Literature Series* of classic literature, this is a new edition of the classic work published in 1894—not a facsimile reprint. Obvious typographical errors have been carefully corrected and the entire text has been reset and redesigned by Pen House Editions to enhance readability, while respecting the original edition. Jane Austen's *Pride and Prejudice* is perhaps one of the finest and most popular novels ever written. It tells the story of Elizabeth Bennet and her family in nineteenth-century England. Elizabeth has four sisters, and the dream and main object of their mother's life is to marry them off well. The reader will be delighted with this romantic suspense and with Austen's elegant narrative style—the transition between narrative voices, her direct commentary—as well as with the story's fascinating characters and their social interactions. About the Author: Jane Austen (1775-1817) was an English novelist whose seminal works, inspired by her own upbringing as well as in the landed gentry, have influenced successive generations. She was the seventh child-out of eight—and second daughter of Cassandra (née Leigh) and the Reverend George Austen. She was born on December 16, 1775, in Steventon, Hampshire, England. Her parents were well-respected middle-class community members. Her father was the local Anglican clergyman and supplemented the family income by taking private pupils in the family home and parsonage. Her mother, Cassandra Leigh Austen, came from an aristocratic family and influenced Jane's sense of social class and self-worth. When they were young, Jane and her six brothers and sister were encouraged to read from their father's extensive library. With a romantic vein, but nevertheless a realist—known for her style and ironic humor as well as for her fascinating depiction of women's domestic roles of the early nineteenth century—Austen wrote "*Sense and Sensibility*" (1811), "*Pride and Prejudice*" (1813), "*Mansfield Park*" (1814), "*Emma*" (1815), "*Northanger Abbey*" (1817), and "*Persuasion*" (1818), all of which replete with memorable protagonists—including Elizabeth Bennet, in *Pride and Prejudice*.

The Star Trek: Signature Edition series continues with this thrilling adventure featuring Commander Spock, Captain Kirk, and the U.S.S. Enterprise. Of all the experiences shared by Captain Kirk and the crew of the Starship Enterprise™ during their first five-year mission, two were among the most perilous: a journey to the nonphysical realm of Transition where the massive computer known as Memory Prime was situated, and the nightmarish mission to Talin IV, a world poised on the brink of destruction that Kirk was forbidden to save. In the twenty-third century, a hundred years before a sentient artificial life-form would be allowed to earn a Starfleet commission, the Federation considers the use of self-aware artificial intelligences to be little more than slavery, except for the immense computer system of Memory Prime—the key hub in the Federation's vast network of interstellar library planets. There, the A.I.s known as Pathfinders inhabit Transition—a virtual world so different from our universe that the A.I.s themselves debate whether or not the physical universe is real. But when an ancient enemy reaches out from the shadows of Vulcan's darkest history and threatens to destroy the Federation, Spock must risk his career, and his life, to enter the Pathfinders' realm. Technologically and politically, Talin IV is little different from late-twentieth century Earth. But as a series of mysterious events pushes that world closer to self-annihilation, the Prime Directive prevents Captain Kirk and his crew from doing anything to prevent it. When the worst appears to happen and Kirk takes desperate action to give the Talin a chance to step back from the nuclear abyss, Talin IV is consumed by radioactive fire. Now, with a world destroyed and the Enterprise dead in space, the careers of Kirk and his crew are over. Disgraced and despised, Kirk has only one chance to redeem himself and his crew: Somehow, he must make his way back to Talin IV and discover what really happened, even if it means proving that a world died because he broke Starfleet's most sacred law.

Continental philosophy has entered a new period of ferment. The long deconstructionist era was followed with a period dominated by Deleuze, which has in turn evolved into a new situation still difficult to define. However, one common thread running through the new brand of continental positions is a renewed attention to materialist and realist options in philosophy. Among the leaders of the established generation, this new focus takes numerous forms. It might be hard to find many shared positions in the writings of Badiou, DeLanda, Laruelle, Latour, Stengers, and i ek, but what is missing from their positions is an obsession with the critique of written texts. All of them elaborate a positive ontology, despite the incompatibility of their results. Meanwhile, the new generation of continental thinkers is pushing these trends still further, as seen in currents ranging from transcendental materialism to the London-based speculative realism movement to new revivals of Derrida. As indicated by the title The Speculative Turn, the new currents of continental philosophy depart from the text-centered hermeneutic models of the past and engage in daring speculations about the nature of reality itself. This anthology assembles authors, of several generations and numerous nationalities, who will be at the centre of debate in continental philosophy for decades to come."

A Miss Marple Series Novel Six people sit down to a sumptuous meal at a table laid for seven. In front of the empty place is a sprig of rosemary: rosemary for remembrance. A strange sentiment considering no one is likely to forget the night exactly a year ago, that Rosemary Barton died at exactly the same table, her beautiful face unrecognizable, convulsed with pain and horror. But then Rosemary had always been memorable: she had the ability to arouse strong passions in most people she met. In one such case, strong enough to kill.
