Organic chemistry is not merely a compilation of principles, but rather, it is a disciplined method of thought and analysis. Success in organic chemistry requires mastery in two core aspects: fundamental concepts and the skills needed to apply those concepts and solve problems. Readers must learn to become proficient at approaching new situations methodically, based on a repertoire of skills. These skills are vital for successful problem solving in organic chemistry. Existing textbooks provide extensive coverage of, the principles, but there is far less emphasis on the skills needed to actually solve problems.

When you see the connections, you'll see the chemistry. Today's students use textbooks differently than in the past; and Chemistry , Sixth Edition is designed to map to the way you seek and process information. This book is known for a smart, precise presentation that blends the quantitative and visual aspects of general chemistry. Features like Remember..., Conceptual Problems, Conceptual Worked Examples, Inquiry and Worked Examples make these critical connections clear and visible, so you'll really see the chemistry the first time. THEIR ORIGINS ARE A MYSTERY. THEIR FUTURE IS AT HAND. For thousands of years the Meq have existed side by side with humanity&—appearing as twelve-year-old children, unsusceptible to wounds and disease, dying only by extraordinary means. They have survived through the rise and fall of empires and emperors, through explorations, expansions, and war. Five sacred stones give a few of them mystical powers, but not the power to understand a long-destined event called the Remembering. In the aftermath of the nuclear bombing of Japan in 1945, Zianno Zezen finds himself alone, while the fate of the other Meq and his beloved Opari, carrier of the Stone of Blood, is unknown. But Z&'s archenemy, the Fleur-du-Mal, survives. In the next half century Z will reunite with far-flung friends both Meq and human, as American and Soviet spies vie to steal and harness the powers and mysteries of the timeless children. With the day of the Remembering rapidly approaching, Z must interpret the strange writing on an ancient etched stone sphere. In those markings, Z will discover messages within messages and begin a journey to the truth about his people and himself. Lyrical and mesmerizing, The Rememberingspans the world and history, from the first humans to a secret that has never been told before. The Rememberingis the moving saga of the Meq&—their purpose, past, and future among us. From the Trade Paperback edition.
