Because of medical advances in the treatment of serious childhood diseases, 600,000 chronically ill teens enter adulthood every year who decades ago would not have survived--they and people diagnosed in adulthood face the same challenges of college, career, and starting a family as others in their twenties and thirties, but with the added circumstance of having chronic illness. *Life Disrupted* is a personal and unflinching guide to living well with a chronic illness: managing your own health care without letting it take over your life, dealing with difficult doctors and frequent hospitalizations, having a productive and satisfying career that accommodates your health needs, and nurturing friendships and a loving, committed relationship regardless of recurring health problems. "Advertising resides at the hub of most countries' economy, so advertising education is by necessity, a global experience and practice. There are degree programs, tracks, concentrations, specializations or courses in advertising to be found in almost every corner of the globe. Most of them draw, or drew, from programs in the United States, but each of them has its own unique character and hurdles, and each has learned its own lessons. To advance standards everywhere, the hard-learned experiences of educators in one country must be shared with those in other places. This book is a small step toward building a global network among people who share a common interest: advertising." -- Back cover.

Can you find real love when you've always got your head in the clouds? Maybell Parish has always been a dreamer and a hopeless romantic. But living in her own world has long been preferable to dealing with the disappointments of real life. So when Maybell inherits a charming house in the Smokies from her Great-Aunt Violet, she seizes the opportunity to make a fresh start. Yet when she arrives, it seems her troubles have only just begun. Not only is the house falling apart around her, but she isn't the only inheritor: she has to share everything with Wesley Koehler, the groundskeeper who's as grouchy as he is gorgeous--and it turns out he has a very different vision for the property's future. Convincing the taciturn Wesley to stop avoiding her and compromise is a task more formidable than the other dying wishes Great-Aunt Violet left behind. But when Maybell uncovers something unexpectedly sweet beneath Wesley's scowls, and as the two slowly begin to let their guard down, they might learn that sometimes the smallest steps outside one's comfort zone can lead to the greatest rewards.

Afrikan life into the coming millennia is imperiled by White and Asian power. True power must nest in the ownership of the real estate wherever Afrikan people dwell. Economic destiny determines biological destiny. 'Blueprint for Black Power' details a master plan for the power revolution necessary for Black survival in the 21st century. White treatment of Afrikan Americans, despite a myriad of theories explaining White behavior, ultimately rests on the fact that they can. They possess the power to do so. Such a power differential must be neutralized if Blacks are to prosper in the 21st century ... Aptly titled, 'Blueprint for Black Power' stops not at critique but prescribes radical, practical theories, frameworks and approaches for true power. It gives a biting look into Black potentiality. She isn't a fence sitter - she is an amazon of a woman who turns up and rips the fence out to make you accountable for where you stand.

The hard-edged, hilarious, and utterly believable first entry in a trilogy featuring troubled teenage werewolf Kalix MacRinnalch introduces readers to a world where werewolves--friendly werewolves, fashionista werewolves, cross-dressing werewolves, werewolves of every sort--walk among us. Teenage werewolf Kalix MacRinnalch is being pursued through the streets of London by murderous hunters. She could certainly use a little help right about now, but her sister, the Werewolf Enchantress, is too busy designing clothes for the Fire Queen. So it looks like Kalix is on her own, as usual. This problem all started back at home in the Scottish Highlands where Kalix's family, the MacRinnalch Clan, is plotting and feuding after the head of the clan died suddenly without having named a successor. As the court intrigue threatens to blow up into all-out civil war, the competing factions determine that Kalix is the swing vote necessary to determine the new leadership of the clan. Unfortunately, Kalix isn't really into clan politics--laudanum's more her thing. But since Kalix might just be the reason the head of the clan ended up dead, she'll need to abandon her bad habits, if only long enough to stay alive.
