Simple text explains the varied ways in which such animals as beavers, hummingbirds, termites, and bald eagles build their homes.

For the Marcelli sisters of California wine country, the season is ripe for romance! A party planner extraordinaire, Katie Marcelli loves her big, boisterous family -- even when their chronic matchmaking drives her crazy! In the Marcelli household, fine wine and good food are as celebrated as true love, so when her eighteen-year-old sister announces her engagement, Katie promises her the perfect wedding. There's only one hitch: the father of the groom, Zach Stryker, who is adamantly opposed to his son marrying so young. Now, despite her instant attraction to the handsome, arrogant attorney, Katie must approach with caution: Zach, who hired Katie for a major fund-raiser, holds the fate of her business in his hands -- and how can she trust a man who is willing to break her sister's heart? It will take a passionate battle of wills to determine if wedding bells will ring for a Marcelli bride, and to unlock the deepest desires -- for family, love, and home -- inside a strong-willed man's heart. Meet the Marcelli family in a wonderful series that's warm, witty, and stunningly sensual. Look for The Sassy One, The Seductive One, and The Marcelli Bride, all available from Pocket Star Books!

On mind relaxation.

The Science Focus Second Edition is the complete science package for the teaching of the New South Wales Stage 4 and 5 Science Syllabus. The Science Focus Second Edition package retains the identified strengths of the highly successful First Edition and includes a number of new and exciting features, improvements and components.

Mercedes "Mercy" Thompson is a talented Volkswagen mechanic living in the Tri-Cities area of Washington. She also happens to be a walker, a magical being with the power to shift into a coyote at will. Mercy's next-door neighbor is a werewolf. Her former boss is a gremlin. And she's fixing a bus for a vampire. This is the world of Mercy Thompson, one that looks a lot like ours but is populated by those things that go bump in the night. And Mercy's connection to those things is about to get her into some serious hot water... Moon Called faithfully adapts New York Times bestselling author Patricia Briggs' first Mercy Thompson novel to comics. Prepare to see the fantastic characters and supernatural settings that have made her novels a hit with fans worldwide come to four-color life!

Complete French is a comprehensive book and audio language course that takes you from beginner to intermediate level. The new edition of this successful course has been fully revised and is packed with new learning features to give you the language, practice and skills to communicate with confidence. - Maps from A1 to B2 of the Common European Framework of Reference (CEFR) for languages - 25 learning units plus verbs reference and word glossary and revision section - Discovery Method - figure out rules and patterns to make the language stick - Teaches the key skills - reading, writing, listening and speaking - Learn to learn - tips and skills on how to be a better language learner - Culture notes - learn about the people and places of France - Outcomes-based learning -

focus your studies with clear aims - Authentic listening activities - everyday conversations give you a flavour of real spoken French - Test Yourself - see and track your own progress In this pack you'll get a full-colour book and two CDs of audio material. Get our companion app. French course: Teach Yourself is full of fun, interactive activities to support your learning with this course. Apple and Android versions available. Rely on Teach Yourself, trusted by language learners for over 75 years.

This book provides a sophisticated and descriptive introduction to biodiesel. It deals with matters related to the quality of biodiesel, efficiency of combustion engines and the products that they discharge. Novel ways to define biodiesel properties are mentioned and how feedstocks, contaminants and production procedures can affect the quality of biodiesel have also been assessed. The performance of combustion engines has been assessed when fuelled with biodiesel with respect to the use of biofuel. Glycerol is one of the major byproducts of biodiesel. Its applications as raw material for biotechnological procedures and modern bio-refineries have also been discussed in this book.

"When a ruthless enemy finally strikes, Mia and Korum will face the biggest test of their relationship yet. But it's Korum's own secrets that may ultimately tear them apart. From the beaches of Costa Rica to a planet in a distant galaxy, theirs is a love story that may change the world..."--Page 4 of cover.

If you want to learn about one of history's most fascinating minds and uncover some of his secrets of imagination—secrets that enabled him to invent machines light years ahead of his time and literally bring light to the world—then you want to read this book. Imagination amplifies and colors every other element of genius, and unlocks our potential for understanding and ability. It's no coincidence that geniuses not only dare to dream of the impossible for their work, but do the same for their lives. They're audacious enough to think that they're not just ordinary players. Few stories better illustrate this better than the life of the father of the modern world, a man of legendary imaginative power and wonder: Nikola Tesla. In this book, you'll be taken on a whirlwind journey through Tesla's life and work, and not only learn about the successes and mistakes of one of history's greatest inventors, but also how to look at the world in a different, more imaginative way. Read this book now and learn lessons from Nikola Tesla on why imagination is so vital to awakening your inner genius, and insights into the real "secret" to creativity, as explained by people like Jobs, Picasso, Dali, and Twain.

In this sequel to Karl May's The Son of Bear Hunter the heroes of the great adventures in the Yellowstone National Park are heading for a meeting on the hunting ground of the Apache tribe. Shortleg Frank and Bob are coming from the East, Old Shatterhand from the North, Winnetou, Bear Hunter and his son from the South. Their pathways meet at the Llano Estacado. At the same time experienced Westerners, such as the two Snuffles, Juggle Fred, and Bloody Fox

are also in the area. Bit by bit these heroes learn that the bandits of the Llano Estacado are planning to attack a caravan of immigrants, and want to kill and rob them. The spies of the bandits are unmasked, and punished. After a tornado the heroes, with a Comanche band, give a good lesson to the "human vultures" of the Llano Estacado. By the end of the book the reader will find out who is behind the mask of the Avenging Ghost of the Llano Estacado, who kills bandits, and protects the travellers. This unabridged English translation retains the exciting adventures, and the strong moral conviction of May's original book, while modernising the style, and editing parts that were erroneous or may evoke bad associations. With this editing the core of May's world, the action, the dreaming of heroic deeds, and the struggle for a kind of justice have become more emphasised, and more accessible to the modern reader.

This book is also available through the Introductory Engineering Custom Publishing System. If you are interested in creating a course-pack that includes chapters from this book, you can get further information by calling 212-850-6272 or sending email inquiries to engineerjwiley.com. The authors offer a set of objectives at the beginning of each chapter plus a clear, concise description of abstract concepts. Focusing on preparing students to solve practical problems, it includes numerous colorful illustrative examples. Along with updated material on MOSFETS, the CRO for use in lab work, a thorough treatment of digital electronics and rapidly developing areas of electronics, it contains an expansive glossary of new terms and ideas.

Learn how to program with Python from beginning to end. This book is for beginners who want to get up to speed quickly and become intermediate programmers fast!
