

## Oxford Latin Course Part 1 2nd Edition Pt1 Latin Edition

Learn to Read Latin helps students acquire an ability to read and appreciate the great works of Latin literature as quickly as possible. It not only presents basic Latin morphology and syntax with clear explanations and examples but also offers direct access to unabridged passages drawn from a wide variety of Latin texts. As beginning students learn basic forms and grammar, they also gain familiarity with patterns of Latin word order and other features of style. Learn to Read Latin is designed to be comprehensive and requires no supplementary materials. It explains English grammar points and provides drills especially for today's students. It offers sections on Latin metrics, includes numerous unaltered examples of ancient Latin prose and poetry, and incorporates selections by authors such as Caesar, Cicero, Sallust, Catullus, Vergil, and Ovid, presented chronologically with introductions to each author and work. It offers a comprehensive workbook that provides drills and homework assignments. This enlarged second edition improves upon an already strong foundation by streamlining grammatical explanations, increasing the number of syntax and morphology drills, and offering additional short and longer readings in Latin prose and poetry.

Used along side any Latin course, the Oxford Latin Reader will give students access to, and confidence with, a broad range of unadapted Latin texts. Helps make the transition from adapted Latin to unadapted texts. Extracts are of a manageable length and a glossary of difficult vocabulary and usages aid students to approach the texts with confidence. A historical timeline matches major events with the featured authors' lives. The Teacher's Book provides full translations to save time as well as suggested questions and additional background information.

In this two-volume work, the first full-scale treatment of its kind in English, Harm Pinkster applies contemporary linguistic theories and the findings of traditional grammar to the study of Latin syntax. He takes a non-technical and principally descriptive approach, based on literary and non-literary texts dating from c.250 BC to c.450 AD. The volumes contain a wealth of examples to illustrate the grammatical phenomena under discussion, many of them from the works of Plautus and Cicero, alongside extensive references to other sources of examples such as the Oxford Latin Dictionary and the Thesaurus Linguae Latinae. While the first volume explored the simple clause, this second volume focuses on the complex sentence and discourse. The first three chapters examine different types of subordinate clause; the following four then explore relative clauses, coordination, comparison, and secondary predicates. Later chapters investigate information structure and extraclausal expressions, word order, and discourse and related features. The Oxford Latin Syntax will be a valuable and up-to-date resource both for professional Latinists and all linguists with an interest in Classics.

### Oxford Latin Course

Comprehensive: over 60,000 entries provide the user with full coverage of the core vocabularies of Latin and English. Grammar guidance: full grammatical information about each Latin word and details of conjugation for Latin verbs. Extra help: clear signposting of differences in meaning, style, and context in cases of ambiguity. Pronunciation: Comprehensive marking of vowel length as a guide to classical Latin pronunciation. Additional information: appendices of historical and mythological names, geographical locations, and notes showing their significance.

A companion to Bloomsbury's popular two-volume Greek to GCSE, this is the first course for Latin students that directly reflects the curriculum in a clear, concise and accessible way.

Enhanced by colour artwork and text features, the books support the new OCR specification for Latin (first teaching 2016) as well as meeting the needs of later students, both at university and beyond. Written by two experienced school teachers, one also an examiner, the course is based on a keen understanding of what pupils find difficult, concentrating on the essentials and on the explanation of principles in both accidence and syntax: minor irregularities are postponed and subordinated so that the need for rote learning is reduced. User-friendly, it also gives pupils a firm foundation for further study. Part 1 covers the basics and is self-contained, with its own reference section. It outlines the main declensions, a range of active tenses and a vocabulary of 275 Latin words to be learned. Pupil confidence is built up by constant consolidation of the material covered. After the preliminaries, each chapter concentrates on stories with one source or subject: the Fall of Troy, the journeys of Aeneas, the founding of Rome and the early kings, providing an excellent introduction to Roman culture alongside the language study.

This second edition of the Oxford Latin Course combines the best features of both modern and traditional methods of Latin teaching from first stages to GCSE. Completely revised and restructured in the light of a nationwide survey of Classics teachers, it provides an exciting, stimulating approach to Latin based on the reading of original texts. Parts I-III are built around a narrative detailing the life of Horace, based closely on historical sources, which helps students to develop an understanding of the times of Cicero and Augustus.

Featuring roughly sixty specially commissioned essays by an international cast of leading rhetoric experts from North America, Europe, and Great Britain, the Handbook will offer readers a comprehensive topical and historical survey of the theory and practice of rhetoric from ancient Greece and Rome through the Middle Ages and Enlightenment up to the present day.

Textbook designed to combine both modern and traditional methods of Latin teaching from first stages to GCSE level.

Since its publication in 1990, Athenaze: An Introduction to Ancient Greek has helped tens of thousands of students learn classical Greek. Building on the bestselling tradition of previous editions, the long-awaited third edition combines the best features of traditional and modern teaching methods. It provides a unique course of instruction that allows students to read connected Greek narrative right from the beginning and guides them to the point where they can begin reading complete classical texts. James Morwood, editor of the Oxford Grammar of Classical Greek and the Pocket Oxford Classical Greek Dictionary, brings his expertise and years of teaching experience to this revision. Carefully designed to hold students' interest, the course begins in Book I with a fictional narrative about an Attic farmer's family placed in a precise historical context (432-431 B.C.). This narrative, interwoven with tales from mythology and the Persian Wars, gradually gives way in Book II to adapted passages from Thucydides, Plato, and Herodotus and ultimately to excerpts of the original Greek of Bacchylides, Thucydides, and Aristophanes' Acharnians. Essays on relevant aspects of ancient Greek culture and history are also woven throughout.

Known as highly mobile cattle nomads, the Wodaabe in Niger are today increasingly engaged in a transformation process towards a more diversified livelihood based primarily on agro-pastoralism and urban work migration. This book examines recent transformations in spatial patterns, notably in the context of urban migration and in processes of sedentarization in rural proto-villages. The book analyses the consequences that the recent change entails for social group formation and collective identification, and how this impacts integration into wider society amid the structures of the modern nation state.

A complete reference guide to modern Turkish grammar, this work presents a full and accessible description of the language, concentrating on the real patterns of use.

The classic, single-volume introductory Latin textbook, introduced in 1956 and still the bestselling and most highly regarded textbook of its kind. Wheelock's Latin, sixth edition, revised, has all the features that have made it the best-selling single-volume beginning Latin textbook, many of them revised and expanded:

- o 40 chapters with grammatical explanations and readings based on ancient Roman authors
- o Self-tutorial exercises with an answer key for independent study
- o An extensive English-Latin/ Latin-English vocabulary section
- o A rich selection of original Latin readings — unlike other textbooks which contain primarily made-up Latin texts
- o Etymological aids

Also includes maps of the Mediterranean, Italy and the Aegean area, as well as numerous photographs illustrating aspects of classical culture, mythology, and historical and literary figures presented in the chapter readings.

- o The leading self-tutorial Latin program. Also great for college and accelerated high school courses.
- o Wheelock's Latin is the top-selling Latin reference in the US.
- o Interest and enrolments in Latin have been steadily rising in the U.S. for the past 20 years. One-half million people are currently enrolled in Latin classes, and at least 10,000 teachers, professors and graduate assistants are teaching the language in America.

This textbook provides a user-friendly guide to the study of the phonological, morphological, and syntactic properties of Latin. It combines clear explanations with rich examples and offers a new approach to the study of Latin from the perspective of contemporary linguistics that will appeal to undergraduate students and researchers alike.

"The best Latin text now available and I very much doubt that a better one will appear for a long time."—Ralph W. Johnson, Cornell University

From the dawn of the early modern period around 1400 until the eighteenth century, Latin was still the European language and its influence extended as far as Asia and the Americas. At the same time, the production of Latin writing exploded thanks to book printing and new literary and cultural dynamics. Latin also entered into a complex interplay with the rising vernacular languages. This Handbook gives an accessible survey of the main genres, contexts, and regions of Neo-Latin, as we have come to call Latin writing composed in the wake of Petrarch (1304-74). Its emphasis is on the period of Neo-Latin's greatest cultural relevance, from the fifteenth to the eighteenth centuries. Its chapters, written by specialists in the field, present individual methodologies and focuses while retaining an introductory character. The Handbook will be valuable to all readers wanting to orientate themselves in the immense ocean of Neo-Latin literature and culture. It will be particularly helpful for those working on early modern languages and literatures as well as to classicists working on the culture of ancient Rome, its early modern reception and the shifting characteristics of post-classical Latin language and literature. Political, social, cultural and intellectual historians will find much relevant material in the Handbook, and it will provide a rich range of material to scholars researching the history of their respective geographical areas of interest.

Provides teachers and students alike with a modern, inviting, and structured way to sustain interest and excellence in Latin. Based on the reading of original texts, the course is structured around a narrative detailing the life of the poet Horace, which helps students to develop an understanding of the times of Cicero and Augustus.

A completely new guide to writing Latin from scratch, this user-friendly book includes key features such as: broad coverage - all the major grammatical constructions of the Latin language are covered, reinforcing what students have learnt from reading Latin; thorough accessible explanations - no previous experience of writing in Latin assumed; hundreds of examples - clear accurate illustrations of the constructions described, all with full translations; over six hundred practice sentences - graduated exercises leading students through three levels of difficulty from elementary to advanced level; introduction to Latin word order - a brief guide to some of the most important principles; and, longer passages for practising continuous prose composition - more challenging passages to stretch the most able students. It also includes features such as: commentaries on examples of Latin prose style - passages from great Latin prose writers focus attention on imitating real Latin usage; and, complete list of vocabulary - all the words needed for the exercises and a valuable reference for English-Latin work in general.

This volume, covering entries from "Determinables and determinates" to "Fuzzy logic," presents articles on Eastern and Western philosophies, medical and scientific ethics, the Holocaust, terrorism, censorship, biographical entries, and much more.

This book is designed primarily for use in beginning and intermediate Latin classes at the undergraduate level (semesters 1-4 of college Latin). This Latin reader will present passages of 3-10 lines taken from Classical authors (including Caesar, Catullus, Cicero, Martial, Ovid, Vergil, etc. and inscriptions. The selections will consist of lively unadapted passages suitable for elementary and intermediate level Latin students. These passages will be annotated in such a way that instructors can use them in a wide variety of classroom settings. The selections will be arranged to emphasize certain points of grammar and syntax (case use: Nominative, Genitive, Dative, Accusative, and Ablative; Pronouns; Ablative Absolutes; Relative Clauses; Indirect Statement; Subordinate Clauses; Subjunctive Verbs; and Conditionals). The arrangement of topics and the length of the passages is intended to provide the highest degree of flexibility in the classroom: a single selection could provide additional practice in syntax and translation during the first or last few minutes of a class session; a series of selections could provide the foundation of a class meeting; selections could be used for practice and/or testing in translating at

sight; or the entire reader could be used as the foundation of a comprehensive review and transition into intermediate and advanced Latin. In essence, this reader will expose students of Latin to extended passages of unadapted Latin from a wide variety of important authors at the earliest stage in language instruction. This early exposure to Classical authors will enable students to transition more easily from beginning and intermediate Latin textbooks to authentic Latin prose and poetry.

A clear and compact guide to the Latin language especially designed for both reference and revision. The approach reflects the traditions of the Cambridge Latin Course, but the guide will prove helpful to all students of Latin, whatever course they have followed. This volume represents a straightforward and practical approach to the study of Latin grammar for the contemporary student.

Learn Latin from the Romans is the only introductory Latin textbook to feature texts written by ancient Romans for Latin learners. These texts, the 'colloquia', consist of dialogues and narratives about daily life similar to those found in modern-language textbooks today, introducing learners to Roman culture as well as to Latin in an engaging, accessible, and enjoyable way. Students and instructors will find everything they need in one complete volume, including clear explanations of grammatical concepts and how Latin works, both British and American orders for all noun and adjective paradigms, 5,000 easy practice sentences, and over 150 longer passages (from the colloquia and a diverse range of other sources including inscriptions, graffiti, and Christian texts as well as Catullus, Cicero, and Virgil). Written by a leading Latin linguist with decades of language teaching experience, this textbook is suitable for introductory Latin courses worldwide.

Four volume Latin Language series. Each volume features a clear presentation of grammar, narrative passages, background sections, emphasis on daily life and on the role of women, a variety of exercises, and review chapters and tests. Each chapter opens with a set of cartoons with Latin captions that illustrate new grammar points. A Latin reading follows, with new vocabulary highlighted in the margins and follow-up exercises that focus on reading comprehension and grammatical analysis. A background essay in English concludes each chapter. Covering a variety of topics--from history to food, from slavery to travel, these engaging essays present a well-rounded picture of Augustan Rome.

The world's bestselling introductory Latin course.

Ovid's magnificent panorama of the Greek and Roman myths-presented by a noted poet, scholar, and critic. Prized through the ages for its splendor and its savage, sophisticated wit, The Metamorphoses is a masterpiece of Western culture-the first attempt to link all the Greek myths, before and after Homer, in a cohesive whole, to the Roman myths of Ovid's day. Horace Gregory, in this modern translation, turns his own poetic gifts toward a deft reconstruction of Ovid's ancient themes, using contemporary idiom to bring to today's reader all the ageless drama and psychological truths vividly intact.

This is the new Latin course that you have long been waiting for! An introduction to both the Latin language and the cultural world of the Romans, it also develops English literacy skills through derivation tasks and two-way translation exercises, which promote the understanding of English as well as Latin. Cultural topics, supported by background notes, and primary sources, included for study and analysis, enable students to engage with authentic Roman history and acquire a broad understanding on which to build in future study. - Language learning is split between Core and Additional to ensure effective differentiation and flexible timetabling. - Fun and varied exercises include word identification, word manipulation, vocab acquisition / consolidation, and translation from English into Latin. - 30 words of new vocabulary in each chapter build towards a total of 360. - Vocabulary is consistently and constantly consolidated to give an unshakeable grounding for GCSE. - Clear and systematic explanations of grammar encourage steady progress. - Early use of Latin stories rather than isolated sentences build student confidence from the start. In this first volume students meet the gods and heroes of the Roman world, introduced through stories from Chapter 1 onwards, so that students can immediately read passages of Latin. From myths about the gods to stories about religious customs and festivals, this is the perfect way to learn about the religious framework of Roman daily life. The final chapter on prophecy, ending with stories of historical figures such as Caesar interpreting messages from the gods, prepares for the transition in the second volume to the world of men - and women - of ancient Rome.

This authoritative and highly browsable guide provides an enlightening account of the meaning and history of Latin words and phrases that have entered the English language. Readers will find over 1000 phrases, sayings, mottoes, and proverbs, translated with examples of usage and fascinating citations and explanations of their first occurrence. A detailed A-Z appendix lists all Latin authors from Augustine to Virgil, together with details of their life and work. A thematic index offers immediate access to the maxims and phrases relating to such topics as death, betrayal, gossip, love, and money. A Dictionary of Latin Words and Phrases will be an entertaining and instructive source of information for word lovers of all varieties, from the crossword aficionado to speech-writers, historians, literature buffs, the savvy general reader, and anyone properly curious about Latin's influence on English.

This second volume of a two-volume work applies contemporary linguistic theories and the findings of traditional grammar to the study of Latin syntax. It the first full-scale treatment of its kind in English, and contains extensive examples from literary and non-literary sources including Plautus and Cicero.

Features: Covers over 46,000 words and phrases, including new Latin words from Plautus, Terence, and Silver Latin, while common irregular stems are now given as headwords Existing appendices on historical, mythological, and geographical names have been expanded and new appendices include money, weights and measures, dates, and times, as well as sections on metre, and medieval Latin With a timeline of important dates, and biographies on Roman writers, this edition is packed with interesting and useful information on Roman history New in-text boxed notes provide help with language usage, and with difficult words and constructions.

Introduction to Latin, Second Edition is an introductory Latin textbook designed with a streamlined flow that allows it to be completed in one year. Its concise and uncluttered approach gives students what they need to master the material. Grammar is integrated within the context of reading fluency. Innovative exercises provide translation practice as well as build "instinctive skills" that prepare students for reading authentic Latin works. Features: Concise, streamlined presentation focuses on what students need to know,

allowing the material to be covered in a year, even for courses which meet only three days a week Innovative exercises that go beyond the usual translation practice, engaging students with the mechanisms of the language and developing “more instinctive” skills Succinct grammatical explanations that don’t overwhelm the students with superfluous detail while also providing help for students with little or no understanding of English grammar Latin readings from ancient sources in the form of both sentences and short passages allow for students to connect with authentic Latin Practical instructions often overlooked by other textbooks, including reading a dictionary entry, reading strategies, sentence patterns, gapping, and expectations New to the Second Edition Revised order of presentation that spreads material out more evenly between the first and second halves of the book Derivatives exercises added at the end of each chapter providing practice connecting English words with their Latin roots Bridge to next level: final three chapters provide review and include longer narrative readings with minimal editing to bridge students to the next level of Latin Revised selection of readings for more appropriate level of difficulty

Beginning in Rome around 600 BC, Latin became the language of the civilized world and remained so for more than two millennia. French, Spanish, Italian, and Romanian are among its progeny and it provides the international vocabulary of law and life science. No known language, including English - itself enriched by Latin words and phrases - has achieved such success and longevity. Tore Janson tells its history from origins to present. Brilliantly conceived and written with the same light touch as his bestselling history of languages, *A Natural History of Latin* is a masterpiece of adroit synthesis. The author charts the expansion of Latin in the classical world, its renewed importance in the Middle Ages, and its survival into modern times. He shows how spoken and written Latin evolved in different places and its central role in European history and culture. He ends with a concise Latin grammar and lists of Latin words and phrases still in common use. Considered elitist and irrelevant in the second half of the twentieth century and often even banned from schools, Latin is now enjoying a huge revival of interest across Europe, the UK, and the USA. Tore Janson offers persuasive arguments for its value and gives direct access to its fascinating worlds, past and present.

The most inclusive single-volume anthology of Latin American poetry in translation ever produced.
