A unique approach to using numerology to identify life challenges and karmic lessons to heal emotional and physical problems • Provides a clear method for identifying challenges specific to your birthday and name • Details 185 health conditions and how to address the causes using numerology--from addictions and Alzheimer's disease to thyroid problems, heart failure, and cancer • Offers guidance in understanding universal abandonment issues and how these affect our behavior In Numerology for Healing, Michael Brill combines numerology with psychology, quantum physics, and the concepts of gematria and reincarnation to create a unique approach to healing emotional and physical problems based on life challenges and karmic lessons. Humans suffer from a profound sense of abandonment when the soul is decanted from the Universal Oneness into the confines of a personality. Brill explains how this sense of abandonment manifests itself in two principal types of behavior: people work to be loved and appreciated for who they are, or they try to control and micromanage their lives and relationships so that nothing goes wrong. Both of these behavior patterns are exhausting physically, emotionally, and mentally and are clear catalysts for illness. Brill details 185 physical and mental health conditions and shows how to identify and treat the causes--from addictions and Alzheimer's disease to thyroid problems, heart failure, and cancer. For instance, he reveals that, in general, illnesses beginning with the letter "A" (acne and alcoholism) have issues of self-esteem as one of the basic causes, whereas illnesses beginning with letter "G" (gallstones and glaucoma) are associated with a need to be in control, in relationships or at work. By using the numerology of your birth date and name, Numerology for Healing makes it easy to identify your positive and negative tendencies and characteristics and to use them as the key to achieving a healthier life.

Numerology teaches us how to be in tune and harmony with the laws which create, control and sustain life and existence. Numerology is a study of occult significance of numbers and their influence in relation to us the human beings. If we keep pace with the laws of creation and are in assonance with them, then success, happiness, health, peace and rapid evolution towards the desired state of perfection are assured. Everything in the world is mind, energy and intelligence, and it is essentially related with numbers. Nothing in the universe is unlettered and unnumbered. Numbers help us to know our key vibrations. When the keynote of life is known, life's harmonies can be worked out by eliminating the discordant notes. In harmony are peace, prosperity, success, longevity and happiness. By means of the knowledge of the occult side of numbers we learn how to habitually vibrate in harmony with the laws of life by selecting the right direction and lines of our actions. For instance, when a woman marries, her surname is changed to that of her husband. Now with the help of literal enumeration, it can be known whether this change of surname is in harmony with her other vibrations or not, and if it is not in harmony, how can it be achieved. The assumption of a new surname on the part of a bride after her husband, gives both of them one more point of harmony in common.

At a practical level, the author shares the proper method of computing the final number from the date of birth and untangles the confusion of the mathematics involved in major number computation. Core numbers are also discussed to help readers work these out in their own lives and in the lives of their friends, families, and colleagues. Through his many years of experience, the author has had the privilege of studying many live cases. One of the most interesting among these is the numerology behind a pair of identical twins, which he reveals exclusively in this book.

This is what inspired me to make a carrier choice with the Ocean itself and now after years and years of this voyage; I can happily say that I made the right choice, many years back.

Part II explores the geometry of nature and how it affects us, numbers that sway human will, and much more.For practitioners of the paranormal arts and those interested in the history of science and pseudoscience, this is a fascinating and essential book."Sepharial" was the pseudonym of British mystic WALTER GORN-OLD (1864-1929), one of the most prolific writers on and teachers of astrology in modern times.
