Panini's grammar of Sanskrit written in the sixth century B.C., is the earliest linguistic description of the language and is the source and inspiration for the development of comparative philosophy and modern linguistics. The Astadhyayi remains the most correct and complete grammar ever written and is considered a model for all grammars. Simotra M. Katre's expert translation of the Astadhyayi is the first English translation of the work to use Roman transliteration for the Sanskrit text. Not only scholars of Sanskrit but also general linguists will find accessible this new presentation of the classic work which relies on letters, italics, and small capitals to visually present the operation of Panini's metalinguistic technique.
