Golf is sometimes referred to as "the wicked game" because it is fiendishly difficult to play well. Yet in the parlance of the Tiger Woods generation, it's also a wickedly good game -- rich, glamorous, and more popular than ever. When we think about golf -- as it is played at its highest level -- we think of three names: Tiger Woods, the most famous sports figure in the world today, Arnold Palmer, the father of modern golf, and Jack Nicklaus, the game's greatest champion. In this penetrating, forty-year history of men's professional golf, acclaimed author Howard Sounes tells the story of the modern game through the lives of its greatest icons. With unprecedented access to players and their closest associates, Sounes reveals the personal lives, rivalries, wealth, and business dealings of these remarkable men, as well as the murky history of a game that has been marred by racism and sex discrimination. Among the many revelations, the complete and true story of Tiger Woods and his family background is untangled, uncovering surprising new details that inspire the golfer's father to exclaim, "Hell, you taught me some things about my life I never knew about!" Earl Woods and other members of Tiger Woods's family, his friends, girlfriends, caddies, coaches, and business associates were among the 150 people interviewed over two years of research. Others included Arnold Palmer and Jack Nicklaus, fellow champions such as Ernie Els, Gary Player, Tony Jacklin, and Tom Watson, and golf moguls such as Mark H. McCormack, billionaire founder of the sports agency IMG. *The Wicked Game* is a compelling story of talent, fame, wealth, and power. Entertaining for dedicated golfers, and accessible to those who only follow the game on television, this may be the most original and exciting sports book of the

World-renowned environmental activist and physicist Vandana Shiva calls for a radical shift in the values that govern democracies, condemning the role that unrestricted capitalism has played in the destruction of environments and livelihoods. She explores the issues she helped bring to international attention—genetic food engineering, culture theft, and natural resource privatization—uncovering their links to the rising tide of fundamentalism, violence against women, and planetary death. Struggles on the streets of Seattle and Cancun and in homes and farms across the world have yielded a set of principles based on inclusion, nonviolence, reclaiming the commons, and freely sharing the earth's resources. These ideals, which Dr. Shiva calls “Earth Democracy,” serve as an urgent call to peace and as the basis for a just and sustainable future.

This book examines the structural changes in the labour market in North-East India. Going beyond the conventional study of tea and agricultural sectors, it focuses on the nature, pattern and structure of work and employment in the region as well as documents emerging shifts in the labour force

towards farm to non-farm dynamics. The chapters explore historical developments in employment patterns, labour market policies, issues of gender and social-religious dimensions, as well as point to growing forms of casual, informal and contractual labour across sectors. Through large-scale data and detailed case studies on unfree labour in plantations and those employed in crafts, handloom and the manufacturing industry, the book provides insights into labour and employment in the region. It also delves into the temporal and spatial dimensions of non-farm employment and its relationship with rural income distribution and labour mobility. By bringing interdisciplinary perspectives from scholars working on North-East India, this work fills a major gap in the political economy of the labour market in the region. The volume will be useful to scholars and researchers of development studies, North-East India studies, labour studies, economics, sociology and political science as well to those involved with governance and policymaking.

Everything you wanted to know about sex and love in Islam, but were hesitant to ask about: polygamy, contraception allowed by Sharia, oral and group sex, homosexual marriages and also the relationship with jinns, masturbation and mysteries of martial relations - all that is allowed and all that is prohibited in sexual

relations in this noble and pure religion. Many people both in the West and Russia continue to have a mistaken illusion that love, sex and variability of relations between man and woman are either suppressed in Islam or in contrary exceed all norms of decency. the book is an insight into this matter. The Muslim man is perceived as an ideal type of an always ready sexual partner. Love and Sex in Islam lifts the veil covering the delicate theme, in which the phenomena seeming incompatible turn out to be good neighbors.

In modern societies, enhancing the quality of our life has become one of our main objectives. In this pursuit, we tend to emphasize on enhancing external situations, our job, business, family and the abounding accumulation of material things; in spite of all the efforts, our personal and professional lives are too often painfully lacking happiness and fulfillment. In this volume, Sadhguru shifts our focus to the inside, pointing out a way to establish a true sense of inner peace and wellbeing by applying "Inner Management."

In 1984 – a politically charged time in northern India – Alope Lal, a young officer, is posted to Barabanki in Uttar Pradesh, as the chief of police. In the small, backward district, known for little other than its opium production and smuggling rackets, Lal finds himself in the middle of a well-entrenched web of crime run by a dangerous drug mafia whose seemingly endless supply of black money appears to have bought out local politicians and district officials and influenced higher rungs of power. Determined to annihilate the opium chain, Lal sets out on a path that sees him make unlikely allies and deadly enemies as he is led from the red-light districts of Lucknow to midnight highway interceptions and perilous raids that shake up the Barabanki cartel. But do such actions against powerful criminal organizations ever come without consequences? And what political games are being played in the corridors of power even as this upright officer tries to ride the gathering storm of an enraged underworld? The Barabanki Narcos is the thrilling true story behind the largest-ever opium bust in history – the methodical build-up to the operation, the deadly aftermath and the ensuing events that would leave a lasting impact on north Indian politics –

Songs of Kabir Rabindranath Tagore - Kabir lived in the 15th Century (1440-1518); born to Mohammadan parents; he came under the influence of the famous Hindu saint; Sri Ramananda and delved deep into the mysteries of Hindu mysticism. A true worshipper of God; he emphasized the purity of mind and selfless devotion to God. He openly opposed the weaknesses of both Hinduism and Islam. During his life time he composed many poems. They are usually two line couplets; known as dohas; recited by many scholars even today to denote some deep philosophical truths. All these songs of Kabir were translated into English by none other than Rabindranath Tagore; the mystic poet and the Noble Laureate; the first edition; published by The Macmillan Company; 1915; New York. This book shall prove to be an asset for the Kabir lovers who can't enjoy his writings in Hindi. The International Bestseller "This book blew my mind. More importantly, it made financial independence seem achievable. I read Financial Freedom three times, cover-to-cover." —Lifehacker Money is unlimited. Time is not. Become financially independent as fast as possible. In 2010, 24-year old Grant Sabatier woke up to find he had \$2.26 in his bank account. Five years later, he had a net worth of over \$1.25 million, and CNBC began calling him "the Millennial Millionaire." By age 30, he had reached financial independence. Along the way he uncovered that most of the accepted wisdom about money, work, and retirement is either

incorrect, incomplete, or so old-school it's obsolete. Financial Freedom is a step-by-step path to make more money in less time, so you have more time for the things you love. It challenges the accepted narrative of spending decades working a traditional 9 to 5 job, pinching pennies, and finally earning the right to retirement at age 65, and instead offers readers an alternative: forget everything you've ever learned about money so that you can actually live the life you want. Sabatier offers surprising, counter-intuitive advice on topics such as how to: \* Create profitable side hustles that you can turn into passive income streams or full-time businesses \* Save money without giving up what makes you happy \* Negotiate more out of your employer than you thought possible \* Travel the world for less \* Live for free--or better yet, make money on your living situation \* Create a simple, money-making portfolio that only needs minor adjustments \* Think creatively--there are so many ways to make money, but we don't see them. But most importantly, Sabatier highlights that, while one's ability to make money is limitless, one's time is not. There's also a limit to how much you can save, but not to how much money you can make. No one should spend precious years working at a job they dislike or worrying about how to make ends meet. Perhaps the biggest surprise: You need less money to "retire" at age 30 than you do at age 65. Financial Freedom is not merely a laundry list of advice to follow to get rich quick--it's a practical roadmap to living life on one's own terms, as soon as possible.

Cruel landlords; crafty moneylenders; corrupt politicians; righteous heroes and uninhibited dancing girls—just some of the characters of a successful Bhojpuri film. Often considered kitschy and crude by ‘polite’ society; Bhojpuri cinema has had astounding success from the 1990s onwards; which can only be explained by its overwhelming popularity among the other half of new India. What is it that makes Bhojpuri cinema tick? What is the logic of its aesthetics? And most importantly; how did these regional language films become a profitable industry? Answering many of these questions and written with a deep sensitivity for the genre; *Cinema Bhojpuri* is the one of the first studies of the history and themes of Bhojpuri cinema—the poor cousin of Bollywood. This timely book chronicles the history of Hong Kong from its misty beginnings to the present day. The territory's unique and turbulent political and economic development form the backdrop to a still more compelling and human story. The essence of The Hong Kong Story is the interwoven sagas of the family dynasties and business houses - vital ingredients in transforming the 'barren rock' into a miracle city state. These families were by no means all British and Chinese: by the mid-nineteenth century Hong Kong was already a cosmopolitan city with a prominent American contingent. It is the collective spirit of these nationalities - grit, optimism, practicality, ruthlessness, generosity, resilience - that lies at the heart of modern Hong Kong's unique East-West chemistry. The book follows the waxing and waning fortunes of these dynasties and entrepreneurs through the convulsions of the Opium Wars, the collapse of imperial China, Japanese occupation, mass immigration, communist takeover in China, the Cultural Revolution, frequent booms and busts, and the approach of 'one country, two systems'. It a fascinating story of how human enterprise, rising above ethnic divides, has endowed a coastal enclave in Asia with not only unimaginable riches but a unique identity.
