Around the World in Eighty Days Jules Verne,1874

Selected Poems Federico García Lorca,2007 Federico Garcia Lorca is perhaps the most celebrated of all twentieth-century Spanish writers, known not only for his plays but also for several collections of poems published both in his short lifetime and after. Lorca's poetry is steeped in the land, climate, and folklore of his native Andalusia, though he writes memorably of New York and Cuba too. Writing often in modernist idiom, and full of startling imagery, he evokes a world of intense feelings, silent suffering, and dangerous love. This unique parallel-text edition balances poems from Lorca's early collections with his better-known later work, providing a clear vision of his poetic development and drawing attention to the brilliance and originality of some of the earlier work. Key poems from all Lorca's collections appear here, including the recently discovered Sonnets of Dark Love. Martin Sorrell's translations are thoughtful and accomplished, and D. Gareth Walters's shrewd Introduction, with its distinctive focus on the achievements of the poet, gives a clear and balanced appraisal of the poetry, while steering away from the tendency to mythologize Lorca's life and death. This edition also includes helpful notes, a bibliography, a chronology, and an index of titles.

The Holy Daniel Quinn, 2011-03-01
They knew us before we began to walk upright. Shamans called them guardians, mythmakers called them tricksters, pagans called them gods, churchmen called them demons, folklorists called them shape-shifters. They've obligingly taken any role we've assigned them, and, while needing nothing from us, have accepted whatever we thought was their due - love, hate, fear, worship, condemnation, neglect, oblivion. Even in modern times, when their existence is doubted or denied, they continue to extend invitations to those who would travel a different road, a road not found on any of our cultural maps. But now, perceiving us as a threat to life itself, they issue their invitations with a dark purpose of their own. In this dazzling metaphysical thriller, four who put themselves in the hands of these all-but-forgotten Others venture across a sinister American landscape hidden from normal view, finding their way to interlocking destinies of

death, terror, transcendental rapture, and shattering enlightenment.
