

Partners In Crime The Clintons Scheme To Monetize The White House For Personal Profit

A frequent assumption of the American-led 'war on terror' and its accompanying discourse originated largely with the George W. Bush Administration, and that there was a counterterrorism policy revolution in the U.S. political arena. Challenging these assumptions, through a genealogical analysis of U.S. terrorism and counterterrorism discourses, this book demonstrates a distinct continuity (and lack of change) of U.S. counterterrorism policy, from Ronald Reagan, to Bill Clinton, and through to George W. Bush. The book focuses on President Clinton's discursive construction of 'new terrorism', or 'catastrophic terrorism', and the counterterrorism practices implemented by the Clinton Administration, while simultaneously comparing it with President Reagan's and President George W. Bush's approaches to counterterrorism. It shows how the war on terror can be traced to earlier periods, and that the so-called Bush revolution was largely built upon the existing framework established by President Reagan and President Clinton. Prior to the 2001 terrorist attacks, Clinton had expanded Reagan's first 'war on terrorism' discourse and constructed the 'new terrorism' discourse, characterised by the notions of borderless threats, 'home-grown' terrorism, WMD-terrorism, cyberterrorism, and rogue states. Clinton's 'new terrorism' discourse provided a useful framework for George W. Bush to discursively respond to the terrorist attacks on September 11th, 2001. Aiming to uncover the myth of President George W. Bush's foreign policy revolution and contribute to a deeper historical understanding of the U.S.-led war on terror, it will be of great use to postgraduates and scholars of US foreign policy, security studies and terrorism studies.

What makes Bill Clinton tick? William Jefferson Clinton, the 42nd President of the United States is undoubtedly the greatest American enigma of our age -- a dark horse that captured the White House, fell from grace and was resurrected as an elder statesman whose popularity rises and falls based on the day's sound bytes. John Gartner's *In Search of Bill Clinton* unravels the mystery at the heart of Clinton's complex nature and why so many people fall under his spell. He tells the story we all thought we knew, from the fresh viewpoint of a psychologist, as he questions the well-crafted Clinton life story. Gartner, a therapist with an expertise in treating individuals with hypomanic temperaments, saw in Clinton the energy, creativity and charisma that leads a hypomanic individual to success as well as the problems with impulse control and judgment, which frequently result in disastrous decision-making. He knew, though, that if he wanted to find the real Bill Clinton he couldn't rely on armchair psychology to provide the answer. He knew he had to travel to Arkansas and around the world to talk with those who knew Clinton and his family intimately. With his boots on the ground, Gartner uncovers long-held secrets about Clinton's mother, the ambitious and seductive Virginia Kelley, her wild life in Hot Springs and the ghostly specter of his biological father, Bill Blythe, to uncover the truth surrounding Clinton's rumor-filled birth. He considers the abusive influence of Clinton's alcoholic stepfather, Roger Clinton, to understand the repeated public abuse he invited both by challenging a hostile Republican Congress and engaging in the clandestine affair with Monica Lewinsky that led to his downfall. Of course, there is no marriage more dissected than that of the Clintons, both in the White House and on the Hillary Clinton presidential campaign trail. Instead of going down familiar paths, Gartner looks at that relationship with a new focus and clearly sees, in Hillary's molding of Clinton into a more disciplined politician, the figure of Bill Clinton's stern grandmother, Edith Cassidy, the woman who set limits on him at an early age. Gartner brings Clinton's story up to date as he travels to Ireland, the scene of one of Clinton's greatest diplomatic triumphs, and to Africa, where his work with AIDS victims is unmatched, to understand Clinton's current humanitarian persona and to find out why he is beloved in so much of the world while still scorned by many at home. John Gartner's exhaustive trip around the globe provides the richest portrait of Clinton yet, a man who is one of our national obsessions. *In Search of Bill Clinton* is a surprising and compelling book about a man we all thought we knew.

Pre-publication subtitle: Soviet-German military cooperation in the interwar period.

The president of larger-than-life ambitions and appetites whose term defined America at the close of the twentieth century Bill Clinton: a president of contradictions. He was a Rhodes Scholar and a Yale Law School graduate, but he was also a fatherless child from rural Arkansas. He was one of the most talented politicians of his age, but he inspired enmity of such intensity that his opponents would stop at nothing to destroy him. He was the first Democrat since Franklin Roosevelt to win two successive presidential elections, but he was also the first president since Andrew Johnson to be impeached. In this incisive biography of America's forty-second president, Michael Tomasky examines Clinton's eight years in office, a time often described as one of peace and prosperity, but in reality a time of social and political upheaval, as the culture wars grew ever more intense amid the rise of the Internet (and with it, online journalism and blogging); military actions in Somalia, Iraq, Bosnia, and Kosovo; standoffs at Waco and Ruby Ridge; domestic terrorism in Oklahoma City; and the rise of al-Qaeda. It was a time when Republicans took control of Congress and a land deal gone bad turned into a constitutional crisis, as lurid details of a sitting president's sexual activities became the focus of public debate. Tomasky's clear-eyed assessment of Clinton's presidency offers a new perspective on what happened, what it all meant, and what aspects continue to define American politics to this day. In many ways, we are still living in the Age of Clinton.

The Political Brain is a groundbreaking investigation into the role of emotion in determining the political life of the nation. For two decades Drew Westen, professor of psychology and psychiatry at Emory University, has explored a theory of the mind that differs substantially from the more "dispassionate" notions held by most cognitive psychologists, political scientists, and economists—and Democratic campaign strategists. The idea of the mind as a cool calculator that makes decisions by weighing the evidence bears no relation to how the brain actually works. When political candidates assume voters dispassionately make decisions based on "the issues," they lose. That's why only one Democrat has been re-elected to the presidency since Franklin Roosevelt—and only one Republican has failed in that quest. In politics, when reason and emotion collide, emotion invariably wins. Elections are decided in the marketplace of emotions, a marketplace filled with values, images, analogies, moral sentiments, and moving oratory, in which logic plays only a supporting role. Westen shows, through a whistle-stop journey through the evolution of the passionate brain and a bravura tour through fifty years of American presidential and national elections, why campaigns succeed and fail. The evidence is overwhelming that three things determine how people vote, in this order: their feelings toward the parties and their principles, their feelings toward the candidates, and, if they haven't decided by then, their feelings toward the candidates' policy positions. Westen turns conventional political analyses on their head, suggesting that the question for Democratic politics isn't so much about moving to the right or the left but about moving the electorate. He shows how it can be done through examples of what candidates have said—or could have said—in debates, speeches, and ads. Westen's discoveries could utterly transform electoral arithmetic, showing how a different view of the mind and brain leads to a different way of talking with voters about issues that have tied the tongues of Democrats for much of forty years—such as abortion, guns, taxes, and race. You can't change the structure of the brain. But you can change the way you appeal to it. And here's how...

In *Partners in Crime*, two-time No. 1 New York Times bestselling author Jerome Corsi presents the detailed research and expert testimony proving beyond a shadow of a doubt that the Clinton Foundation is "a vast, criminal conspiracy," also described in these pages as "a slush fund for grifters." Corsi exposes how the Clintons amassed hundreds of millions of dollars in personal net worth, while building a \$2 billion empire in the Clinton Foundation. The victims are countless thousands of honest people who contributed their hard earned money to what they thought were philanthropic causes. The sordid tale involves suspicion of Enron-like fraudulent accounting practices by none less none less than PricewaterhouseCoopers, a "Big Four" firm, as well as the several "shell corporations" and "pass-through" bank accounts Bill Clinton has established in secret to hide what amount to kickbacks from Clinton Foundation donors and sponsors.

Hillary Rodham Clinton and her daughter, Chelsea, share the stories of the gutsy women who have inspired them—women with the courage to stand up to the status quo, ask hard questions, and get the job done. She couldn't have been more than seven or eight years old. "Go ahead, ask your question," her father urged, nudging her forward. She smiled shyly and said, "You're my hero. Who's yours?" Many people—especially girls—have asked us that same question over the years. It's one of our favorite topics. HILLARY: Growing up, I knew hardly any women who worked outside the home. So I looked to my mother, my teachers, and the pages of Life magazine for inspiration. After learning that Amelia Earhart kept a scrapbook with newspaper articles about successful women in male-dominated jobs, I started a scrapbook of my own. Long after I stopped clipping articles, I continued to seek out stories of women who seemed to be redefining what was possible. CHELSEA: This book is the continuation of a conversation the two of us have been having since I was little. For me, too, my mom was a hero; so were my grandmothers. My early teachers were also women. But I grew up in a world very different from theirs. My pediatrician was a woman, and so was the first mayor of Little Rock who I remember from my childhood. Most of my close friends' moms worked outside the home as nurses, doctors, teachers, professors, and in business. And women were going into space and breaking records here on Earth. Ensuring the rights and opportunities of women and girls remains a big piece of the unfinished business of the twenty-first century. While there's a lot of work to do, we know that throughout history and around the globe women have overcome the toughest resistance imaginable to win victories that have made progress possible for all of us. That is the achievement of each of the women in this book. So how did they do it? The answers are as unique as the women themselves. Civil rights activist Dorothy Height, LGBTQ trailblazer Edie Windsor, and swimmer Diana Nyad kept pushing forward, no matter what. Writers like Rachel Carson and Chimamanda Ngozi Adichie named something no one had dared talk about before. Historian Mary Beard used wit to open doors that were once closed, and Wangari Maathai, who sparked a movement to plant trees, understood the power of role modeling. Harriet Tubman and Malala Yousafzai looked fear in the face and persevered. Nearly every single one of these women was fiercely optimistic—they had faith that their actions could make a difference. And they were right. To us, they are all gutsy women—leaders with the courage to stand up to the status quo, ask hard questions, and get the job done. So in the moments when the long haul seems awfully long, we hope you will draw strength from these stories. We do. Because if history shows one thing, it's that the world needs gutsy women.

Ten years ago one of America's most important public figures, First Lady Hillary Rodham Clinton, chronicled her quest both deeply personal and, in the truest sense, public to help make our society into the kind of village that enables children to become able, caring resilient adults. IT TAKES A VILLAGE is a textbook for caring, filled with truths that are worth a read, and a reread. In her substantial new introduction, Senator Clinton reflects on how our village has changed over the last decade, from the internet to education, and on how her own understanding of children has deepened as she has watched Chelsea grow up and take on challenges new to her generation, from a first job to living through a terrorist attack. She discusses how the work she is doing in the Senate is helping children and looks at where America has been successful, improvements in the foster care system and support for adoption, and where there is still work to be done, providing pre-school programmes and universal health care to all our children. This new edition elucidates how the choices we make about how we raise our children, and how we support families, will determine how all nations will face the challenges of this century.

NEW YORK TIMES BESTSELLER * From the author of American Wife and Eligible . . . He proposed. She said no. And it changed her life forever. "A deviously clever what if."--O: The Oprah Magazine "Immersive, escapist."--Good Morning America "Ingenious."--The New York Times NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New Yorker * NPR * The Washington Post * Marie Claire * Cosmopolitan (UK) * Town & Country * New York Post In 1971, Hillary Rodham is a young woman full of promise: Life magazine has covered her Wellesley commencement speech, she's attending Yale Law School, and she's on the forefront of student activism and the women's rights movement. And then she meets Bill Clinton. A handsome, charismatic southerner and fellow law student, Bill is already planning his political career. In each other, the two find a profound intellectual, emotional, and physical connection that neither has previously experienced. In the real world, Hillary followed Bill back to Arkansas, and he proposed several times; although she said no more than once, as we all know, she eventually accepted and became Hillary Clinton. But in Curtis Sittenfeld's powerfully imagined tour-de-force of fiction, Hillary takes a different road. Feeling doubt about the prospective marriage, she endures their devastating breakup and leaves Arkansas. Over the next four decades, she blazes her own trail—one that unfolds in public as well as in private, that involves crossing paths again (and again) with Bill Clinton, that raises questions about the tradeoffs all of us must make in building a life. Brilliantly weaving a riveting fictional tale into actual historical events, Curtis Sittenfeld delivers an uncannily astute and witty story for our times. In exploring the loneliness, moral ambivalence, and iron determination that characterize the quest for political power, as well as both the exhilaration and painful compromises demanded of female ambition in a world still run mostly by men, Rodham is a singular and unforgettable novel.

Bill Clinton's abrupt departure from long-standing precedent was an astonishing abuse of the Justice Department processes and underscored the shady wheeling and dealing that was common in the Clinton orbit. Bill, Hillary, and brothers Roger Clinton, Hugh Rodham, and Tony Rodham all profited financially or politically from hustling dozens of pardons to some of history's most undeserving recipients. These ranged from worldwide pariah Marc Rich, to a cocaine trafficking kingpin, to murderous terrorists who hadn't even requested executive clemency. A third of the final-day pardons bypassed Justice Department review and went straight to Bill for approval. Dozens of recipients hadn't even filed a petition. In the final hours of Bill Clinton's last day in office, the pardon attorney was frantically preparing paperwork for recipients whose names were misspelled or whose addresses were unknown. It was a free-for-all. The brothers were paid hundreds of thousands of dollars to privately lobby Bill for pardons, some of which never materialized. But the brothers were still paid. Hillary collected political and financial IOUs she later cashed in when she sought political office. For most of his presidency, Bill was one of the stingiest presidents of all time when it came to the awarding official forgiveness to felons, but the pardon floodgates opened when Hillary began her run for the US Senate. It was the selling of pardons for money and influence that launched the Clintons' nearly two-decade pay-for-play scheme—a scheme that not only amassed billions of dollars for the Clinton Foundation and hundreds of millions of dollars for the Clintons, but also catapulted Hillary into a presidential front-runner. Pardongate reveals details of the Clinton machine that will leave even the most informed citizens appalled.

An analysis of the Clinton presidency scrutinizes the "K" Street lobbyists, the military, the bureaucracy, and the key committee staffers on Capitol Hill

Murder By Madness 9/11 is not just the history of the most notorious attack upon American shores, it is a banking caper. Just who are the financiers of terrorism? As always, follow the money.

In this beautifully written and propulsive memoir, Huma Abedin—Hillary Clinton’s famously private top aide and longtime adviser—emerges from the wings of American political history to take command of her own story. The daughter of Indian and Pakistani intellectuals and advocates who split their time between Saudi Arabia, the UK, and the United States, Abedin grew up in many worlds. Both/And grapples with family, legacy, identity, faith, marriage, and motherhood with wisdom and sophistication. Abedin launched full steam into a college internship in the office of the first lady in 1996, never imagining that her work at the White House would blossom into a career in public service, nor that the career would become an all-consuming way of life. Still in her twenties and thirties, she thrived in rooms with diplomats and sovereigns, entrepreneurs and artists, philanthropists and activists, and witnessed many crucial moments in 21st-century American history—Camp David for urgent efforts at Middle East peace in the waning months of the Clinton administration, Ground Zero in the days after the 9/11 attacks, the inauguration of the first African American president of the United States, the convention floor when America nominated its first female presidential candidate. Abedin’s relationship with Clinton has seen both women through extraordinary personal and professional highs, as well as unimaginable lows. Here, for the first time, is a deeply personal account of Hillary Clinton as mentor, confidante, and role model. Abedin cuts through caricature, rumor, and misinformation to reveal a crystal-clear portrait of Clinton as a brilliant and caring leader a steadfast friend, generous, funny, hardworking, and dedicated. Both/And is a candid and heartbreaking chronicle of Abedin’s marriage to Anthony Weiner, what drew her to him, how much she wanted to believe in him, the devastation wrought by his betrayals—and their shared love for their son. It is also a timeless story of a young woman with aspirations and ideals coming into her own in high-pressure jobs, and a testament to the potential for women in leadership to blaze a path forward while supporting those who follow in their footsteps. Both/And describes Abedin’s journey through the opportunities and obstacles, the trials and triumphs, of a full and complex life. Abedin’s compassion and courage, her resilience and grace, her work ethic and mission are an inspiration to people of all ages. “This journey has led me through exhilarating milestones and devastating setbacks,” said Abedin. “I have walked both with great pride and in overwhelming shame. It is a life I am—more than anything—enormously grateful for and a story I look forward to sharing.” The Pulitzer Prize-winning author of *Den of Thieves* discusses the truth about Whitewater, Vince Foster’s suicide, and other White House scandals, explaining how such episodes have been exploited, White House reactions, and the future of the presidency. Reprint.

"This book on Hillary - really tough." - President Donald Trump Hillary Clinton is running for president as an “advocate of women and girls,” but there is another shocking side to her story that has been carefully covered up—until now. This stunning exposé reveals for the first time how Bill and Hillary Clinton systematically abused women and others—sexually, physically, and psychologically—in their scramble for power and wealth. In this groundbreaking book, New York Times bestselling author Roger Stone and researcher and alternative historian Robert Morrow map the arc of Bill and Hillary’s crimes and cover-ups. They reveal details about their actions in Arkansas, during Bill Clinton’s time in the White House, about who really ordered the deadly attack on the Branch Davidian compound in Waco, during Hillary’s tenure as secretary of state, about their time at the Clinton Foundation, and during Hillary’s current campaign for president. This is the first book to shed light on the couple’s deeply personal violations of the people they crushed in their obsessive quest for power. Along the way, Stone and Morrow reveal the family’s darkest secrets, including a Clinton family member’s drug rehab treatment that was never reported by the press, Hillary Clinton’s unusually close relationship with a top female aide, and a stunning revelation of such impact that it could strip Bill Clinton of his current popularity and derail Hillary’s push to be the second Clinton in the White House. Anyone who cares about the future of the United States will want to read this tell-all, exposing the appalling, unvarnished, and ugly truth about the Clintons. This paperback edition includes a new preface from Roger Stone, revealing explosive new information he’s learned since the hardcover’s release.

Agatha Christie’s complete Tommy and Tuppence short story collection, reissued with a striking cover designed to appeal to the latest generation of Agatha Christie fans and book lovers.

#1 NEW YORK TIMES BESTSELLER • “I’ve read kind of all the books on this subject . . . and this is the one you want to read.”—Rachel Maddow Before Ukraine, before impeachment: This is the never-before-told inside story of the high-stakes, four-year-long investigation into Donald Trump’s Russia ties—culminating in the Steele dossier, and sparking the Mueller report—from the founders of political opposition research company Fusion GPS. Fusion GPS was founded in 2010 by Glenn Simpson and Peter Fritsch, two former reporters at The Wall Street Journal who decided to abandon the struggling news business and use their reporting skills to conduct open-source investigations for businesses and law firms—and opposition research for political candidates. In the fall of 2015, they were hired to look into the finances of Donald Trump. What began as a march through a mind-boggling trove of lawsuits, bankruptcies, and sketchy overseas projects soon took a darker turn: The deeper Fusion dug, the more it began to notice names that Simpson and Fritsch had come across during their days covering Russian corruption—and the clearer it became that the focus of Fusion’s research going forward would be Trump’s entanglements with Russia. To help them make sense of what they were seeing, Simpson and Fritsch engaged the services of a former British intelligence agent and Russia expert named Christopher Steele. He would produce a series of memos—which collectively became known as the Steele dossier—that raised deeply alarming questions about the nature of Trump’s ties to a hostile foreign power. Those memos made their way to U.S. intelligence agencies, and then to President Barack Obama and President-elect Trump. On January 10, 2017, the Steele dossier broke into public view, and the Trump-Russia story reached escape velocity. At the time, Fusion GPS was just a ten-person consulting firm tucked away above a Starbucks near Dupont Circle, but it would soon be thrust into the center of the biggest news story on the planet—a story that would lead to accusations of witch hunts, a relentless campaign of persecution by congressional Republicans, bizarre conspiracy theories, lawsuits by Russian oligarchs, and the Mueller report. In *Crime in*

Progress, Simpson and Fritsch tell their story for the first time—a tale of the high-stakes pursuit of one of the biggest, most important stories of our time—no matter the costs.

Don't miss the #1 New York Times bestselling thriller from the world's bestselling author, James Patterson: an "undeniably gripping ride through the hidden passageways of power and politics" that "moves like Air Force One" (Michael Connelly). *The President Is Missing* confronts a threat so huge that it jeopardizes not just Pennsylvania Avenue and Wall Street, but all of America.

Uncertainty and fear grip the nation. There are whispers of cyberterror and espionage and a traitor in the Cabinet. Even the President himself becomes a suspect, and then he disappears from public view . . . Set over the course of three days, *The President Is Missing* sheds a stunning light upon the inner workings and vulnerabilities of our nation. Filled with information that only a former commander in chief could know, this is the most authentic, terrifying novel to come along in many years. #1 New York Times bestseller #1 USA Today bestseller #1 Wall Street Journal bestseller #1 Indie bestseller "President Duncan for a second term!" -- USA Today "This book's a big one." -- New York Times "Towers above most political thrillers." -- Pittsburgh Post-Gazette "The plotting is immaculate . . . the writing is taut." -- Sunday Times (London) "Ambitious and wildly readable." -- New York Times Book Review

Steps To Salvation is a futuristic novel with spiritual, political and historical themes. Set in the year 2412, it tells the story of how man finally learned from history, accepted The One God Religion and moved the world into Salvation immediately following the Armageddon War of 2012.

Public Papers of the Presidents of the United States

Examines the presidential couple from Eleanor and Franklin Roosevelt through Hillary and Bill Clinton

For the first time in paperback, New York Times best-selling author Roger Stone's insider tell-all about the presidential campaign that shocked the world. This consummate political strategist continues to be front page news and has updated the book to respond to Robert Mueller's charges. Two years ago, Roger Stone, a New York Times bestselling author, longtime political adviser and friend to Donald Trump, and consummate Republican strategist, gave us *Making of the President 2016*—the first in-depth examination of how Trump's campaign delivered the biggest presidential election upset in history. But since then, the Deep State political establishment has worked tirelessly to undo those results. *The Myth of Russian Collusion* adds to and updates Stone's initial work to set the record straight. Trump's election win was a resounding repudiation of the failed leadership of both parties. The American people wanted something new, and President Trump has delivered: his tax cuts and regulatory rollbacks have given us the strongest economy in American history, he is relentless in his efforts to protect American citizens, and he refuses to do business as usual. But America's ruling elite and liberal media, feeling threatened, have conspired to create the biggest witch hunt in our country's history. The phony narrative that Trump was in cahoots with Vladimir Putin, Mueller's charges that Roger Stone knew about the Wikileaks emails before release—all is debunked here. With a new introduction that responds to the Mueller investigation, *The Myth of Russian Collusion* is the true story of the Trump campaign that the establishment doesn't want you to believe.

A senior advisor to Bill Clinton describes his relationship with the former president, noting his testimony at the impeachment trial and his admiration for Clinton's work in Kosovo, against Congress, and toward economic improvement.

An account of the Ken Starr investigation and the impeachment of President Clinton, covering the Paula Jones suit, the Lewinsky affair, and Jim McDougal's imprisonment.

Hillary's America by Dinesh D'Souza | Book Summary A look at the ongoing elections paints a very different picture from the truth. What many don't know is that the media's obsession with Donald Trump is a well-crafted scheme by the Democrats to maintain focus away from them. This may seem like an outrageous claim at first but it will become clear as you continue to read this book. One way of ensuring that people don't start questioning Hillary Clinton's achievements and the people destroyed by her ways, is keeping the spot light away from her as much as possible. The Democrats wish to maintain the picture they have painted of Hillary as a people's champion intact. On looking at her trail since she got into politics, a very different picture comes into view of this very woman. Hillary Clinton however is not the only culprit of hiding her true self from the public to gain votes; she is just one example. The Democratic Party candidates from Obama to Bill all through to their founders have the same characteristics of twisting the truth to suit their dubious ways. Contrary to what Progressives claim, it was them that supported slavery so as to get free labor and the Republicans are the heroes of Civil Rights. This is just one of the many pieces of history that they have corrupted to earn votes. From corruption, protecting criminals in court, pardoning criminals in jail and blaming victims the Clintons have done it all. But due to the heavy investments of the Democratic Party in the media the truth is often swept under the rug and the Democratic criminal walks away. The public is then fed a lie and their tyranny continues. The Democratic Party's past upon scrutiny is also filled with similar stories. While Progressives argue that the sins of their founders cannot be blamed on the current party, they Clintons continue with their tricks stealing from third world countries, over throwing foreign governments all in the name of enriching themselves while thousands die and others are displaced. These are just a few examples of the many more evils discussed in the following chapters on the ways of the Democrats. The author later on looks at why the Republicans have not respond effectively to the Democrats and what they can do to beat them in the coming elections. Here Is A Preview Of What You'll Learn... A British journalist well known to American conservatives offers a meticulously documented expose of corruption in the Clinton administration, revealing its criminal attempts to suppress evidence of other crimes and scandals from the president's Arkansas years. IP. The definitive account of the Clinton-Lewinsky sex scandals, the extraordinary ordeal that nearly brought down a president "A story as taut and surprising as any thriller . . . [an] unimpeachable page-turner."—*People First* published a year after the infamous impeachment trial, Jeffrey Toobin's propulsive narrative captures the full arc of the Clinton sex scandals—from their beginnings in a Little Rock hotel to their culmination on the floor of the United States Senate with only the second vote on presidential removal in American history. Rich in character and fueled with the high octane of a sensational legal thriller, *A Vast Conspiracy* has indelibly shaped our understanding of this disastrous moment in American political history.

The Deep State isn't finished trying to destroy President Donald Trump—they've only just begun. Coup d'Etat blows the lid off the Deep State's efforts to prevent the Trump presidency, disrupt his agenda, and prevent his reelection. In this book you'll learn: • The truth behind Robert Mueller's Special Counsel baseless investigation. • The identity of the Trump cabinet member who proposed wearing a wire to take down Trump. • How the FBI entrapped members of the Trump team—and how they unsuccessfully tried the same with Corsi. • How the Democratic establishment faked evidence of Russian interference. • The truth behind Julian Assange's arrest, and what the Deep State

wants to prevent him from exposing. • How the FBI abused FISA law to spy on Trump—and how they tried to hide it. • Mueller's continued coverup that the media refuses to report. This is the book the Deep State and the media don't want you to read.

The past few decades have seen a massive increase in the number of international organizations focusing on global health. Campaigns to eradicate or stem the spread of AIDS, SARS, malaria, and Ebola attest to the increasing importance of globally-oriented health organizations. These organizations may be national, regional, international, or even non-state organizations-like *Medicins Sans Frontieres*. One of the more important recent trends in global health governance, though, has been the rise of public-private partnerships (PPPs) where private non-governmental organizations, for-profit enterprises, and various other social entrepreneurs work hand-in-hand with governments to combat specific maladies. A primary driver for this development is the widespread belief that by joining together, PPPs will attack health problems and fund shared efforts more effectively than other systems. As Chelsea Clinton and Devi Sridhar show in *Governing Global Health*, these partnerships are not only important for combating infectious diseases; they also provide models for developing solutions to a host of other serious global health challenges and questions beyond health. But what do we actually know about the accountability and effectiveness of PPPs in relation to the traditional multilaterals? According to Clinton and Sridhar, we have known very little because scholars have not accumulated enough data or developed effective ways to assess them-until now. In their analysis, they uncovered both strength and weaknesses of the model. Using principal-agent theory in which governments are the principals directing international agents of various type, they take a closer look at two major PPPs-the Global Fund to Fight HIV/AIDS, TB and Malaria and the GAVI Alliance-and two major more traditional international organizations-the World Health Organization and the World Bank. An even-handed and thorough empirical analysis of one of the most pressing topics in world affairs, *Governing Global Health* will reshape our understanding of how organizations can more effectively prevent the spread of communicable diseases like AIDS and reduce pervasive chronic health problems like malnutrition.

Partners in Crime: The Clintons' Scheme to Monetize the White House for Personal ProfitWND Books

From the #1 bestselling authors Hillary Clinton and Louise Penny comes a novel of unsurpassed thrills and incomparable insider expertise—*State of Terror*. After a tumultuous period in American politics, a new administration has just been sworn in, and to everyone's surprise the president chooses a political enemy for the vital position of secretary of state. There is no love lost between the president of the United States and Ellen Adams, his new secretary of state. But it's a canny move on the part of the president. With this appointment, he silences one of his harshest critics, since taking the job means Adams must step down as head of her multinational media conglomerate. As the new president addresses Congress for the first time, with Secretary Adams in attendance, Anahita Dahir, a young foreign service officer (FSO) on the Pakistan desk at the State Department, receives a baffling text from an anonymous source. Too late, she realizes the message was a hastily coded warning. What begins as a series of apparent terrorist attacks is revealed to be the beginning of an international chess game involving the volatile and Byzantine politics of Pakistan, Afghanistan, and Iran; the race to develop nuclear weapons in the region; the Russian mob; a burgeoning rogue terrorist organization; and an American government set back on its heels in the international arena. As the horrifying scale of the threat becomes clear, Secretary Adams and her team realize it has been carefully planned to take advantage of four years of an American government out of touch with international affairs, out of practice with diplomacy, and out of power in the places where it counts the most. To defeat such an intricate, carefully constructed conspiracy, it will take the skills of a unique team: a passionate young FSO; a dedicated journalist; and a smart, determined, but as yet untested new secretary of state. *State of Terror* is a unique and utterly compelling international thriller cowritten by Hillary Rodham Clinton, the 67th secretary of state, and Louise Penny, a multiple award-winning #1 New York Times bestselling novelist.

In the tradition of Theodore White's landmark books, the definitive look at how Donald J. Trump shocked the world to become president From Roger Stone, a New York Times bestselling author, longtime political adviser and friend to Donald Trump, and consummate Republican strategist, comes the first in-depth examination of how Trump's campaign tapped into the national mood to deliver a stunning victory that almost no one saw coming. In the early hours of November 9, 2016, one of the most contentious, polarizing, and vicious presidential races came to an abrupt and unexpected end when heavily favored presidential hopeful Hillary Clinton called Donald J. Trump to concede, shocking a nation that had, only hours before, given little credence to his chances. Donald Trump pulled the greatest upset in American political history despite a torrent of invective and dismissal of the mainstream media. Stone, a long time Trump retainer and confidant, gives us the inside story of how Donald Trump almost single-handedly harnessed discontent among "Forgotten Americans" despite running a guerrilla-style grass roots campaign to compete with the smooth running and free-spending Clinton political machine. From the start, Trump's campaign was unlike any seen on the national stage—combative, maverick, and fearless. Trump's nomination was the hostile takeover of the Republican party and a resounding repudiation of the failed leadership of both parties whose policies have brought America to the brink of financial collapse as well as endangering our national security. Here Stone outlines how Donald Trump skillfully ran as the anti-Open Borders candidate as well as a supporter of American sovereignty, and how he used the Globalist trade deals like NAFTA to win over three of ten Bernie Sanders supporters. The veteran adviser to Nixon, Reagan, and Trump charts the rise of the alt-conservative media and the end of the mainstream media monopoly on voter impacting information dissemination. This is an insider's view that includes studying opposition research into Bill, Hillary, and Chelsea Clinton's crimes, and the struggle by the Republican establishment to stop Trump and how they underestimated him. Stone chronicles Trump's triumph in three debates where he skillfully lowered expectation levels but skewered Mrs. Clinton for the corruption of the Clinton Foundation, her mishandling of government email, and her incompetence as Secretary of State. Stone gives us the inside word on Julian Assange, Wikileaks, Clinton campaign chief John Podesta, Huma Abedin, Anthony Weiner, Carlos Danger, Doug Band, Jeffery Epstein, and the efforts to hide the former first lady's infirmities and health problems. Stone dissects the phony narrative that Trump was in cahoots with Russian strongman Vladimir Putin or that the e-mails released by Wikileaks came from the Russians. *The Making of the President 2016* reveals how Trump brilliantly picked at Hillary Clinton's weaknesses, particularly her reputation as a crooked insider, and ignited the passions of out-of-work white men and women from the rust belt and beyond, at a time when millions of Americans desperately wanted change. Stone also reveals how and why the mainstream media got it wrong, including how the polls were loaded and completely misunderstood who would vote. Stone's analysis is akin to Theodore H. White's seminal book *The Making of the President 1960*. It is both a sweeping analysis of the trends that elected Trump as well as the war stories of a hard-bitten political survivor who Donald Trump called "one tough cookie."

Hillary Rodham Clinton's inside account of the crises, choices, and challenges she faced during her four years as America's 67th Secretary of State, and how those experiences drive her view of the future. "All of us face hard choices in our lives," Hillary Rodham Clinton writes at the start of this personal chronicle of years at the center of world events. "Life is about making such choices. Our choices and how we handle them shape the people we become." In the aftermath of her 2008 presidential run, she expected to return to representing New York in the United States Senate. To her surprise, her former rival for the Democratic Party nomination, newly elected President Barack Obama, asked her to serve in his administration as Secretary of State. This memoir is the story of the four extraordinary and historic years that followed, and the hard choices that she and her colleagues confronted. Secretary Clinton and President Obama had to decide how to repair fractured alliances, wind down two wars, and address a global financial crisis. They faced a rising competitor in China, growing threats from Iran and North Korea, and revolutions across the Middle East. Along the way, they grappled with some of the toughest dilemmas of US foreign policy, especially the decision to send Americans into harm's way, from Afghanistan to Libya to the hunt for Osama bin Laden. By the end of her tenure, Secretary Clinton had visited 112 countries, traveled nearly one million miles, and gained a truly global perspective on many of the

major trends reshaping the landscape of the twenty-first century, from economic inequality to climate change to revolutions in energy, communications, and health. Drawing on conversations with numerous leaders and experts, Secretary Clinton offers her views on what it will take for the United States to compete and thrive in an interdependent world. She makes a passionate case for human rights and the full participation in society of women, youth, and LGBT people. An astute eyewitness to decades of social change, she distinguishes the trendlines from the headlines and describes the progress occurring throughout the world, day after day. Secretary Clinton's descriptions of diplomatic conversations at the highest levels offer readers a master class in international relations, as does her analysis of how we can best use "smart power" to deliver security and prosperity in a rapidly changing world—one in which America remains the indispensable nation. The truth behind how well-funded hard-left extremists, the mainstream media, and Obama/Clinton holdovers in the government bureaucracy have combined with clandestine forces within the US intelligence apparatus – the "Deep State" -- to block and undermine Trump's every move. At 2:45 a.m. ET on Nov. 8, 2016, television networks announced to a stunned nation that Pennsylvania's 20 electoral had gone for Donald Trump, making him the president-elect of the United States, defying all odds in a surreal victory that sent the Deep State into an immediate sense of panic. By dawn on Nov. 9, 2016, the Deep State forces that expected Hillary Clinton to continue the leftist politics of Barack Obama were already planning Donald Trump's demise. What emerged from the hard left was a political strategy calculated to block Donald Trump from being inaugurated, and if that failed, to make sure Donald Trump would not long serve out his term as 45th President of the United States. Investigative journalist and conspiracy expert Jerome Corsi goes into shocking detail about how this Deep State or Shadow Government secretly wields power in Washington, and why the Deep State is dangerous – capable of assassinating Trump, if efforts to impeach him or to force him to resign fail. Corsi will also define a three-point strategy Trump -- as a political independent, opposed both by Democratic Party enemies and GOP establishment -- must employ to stay in office and have a chance of a successful first term in office. With more than 500 entries (including up-to-date information on such high profile cases as Martha Stewart and Enron), the Encyclopedia of White-Collar & Corporate Crime gathers history, definitions, examples, investigation, prosecution, assessments, challenges, and projections into one definitive reference work on the topic. This two-volume encyclopedia incorporates information about a variety of white-collar crimes, and provides examples of persons, statutes, companies, and convictions. Each entry offers a thorough and thoughtful summary of the topic. Rather than a simple definition, users are given a satisfying and sophisticated synopsis with references for further study.

Argues that Presidents Clinton and Bush are under the influence of the CIA and that the agency worked to insure Clinton's election. Since the first edition of the Encyclopedia of White Collar and Corporate Crime was produced in 2004, the number and severity of these crimes have risen to the level of calamity, so much so that many experts attribute the near-Depression of 2008 to white-collar malfeasance, namely crimes of greed and excess by bankers and financial institutions. Whether the perpetrators were prosecuted or not, white-collar and corporate crime came near to collapsing the U.S. economy. In the 7 years since the first edition was produced we have also seen the largest Ponzi scheme in history (Maddoff), an ecological disaster caused by British Petroleum and its subcontractors (Gulf Oil Spill), and U.S. Defense Department contractors operating like vigilantes in Iraq (Blackwater). White-collar criminals have been busy, and the Second Edition of this encyclopedia captures what has been going on in the news and behind the scenes with new articles and updates to past articles. Twenty years after the Starr Report and the Clinton impeachment, former special prosecutor Ken Starr finally shares his definitive account of one of the most divisive periods in American history. You could fill a library with books about the scandals of the Clinton administration, which eventually led to President Clinton's impeachment by the House of Representatives. Bill and Hillary Clinton have told their version of events, as have various journalists and participants. Whenever liberals recall those years, they usually depict independent counsel Ken Starr as an out-of-control, politically driven prosecutor. But as a New York Times columnist asked in 2017, "What if Ken Starr was right?" What if the popular media in the 1990s completely misunderstood Starr's motives, his tactics, and his ultimate goal: to ensure that no one, especially not the president of the United States, is above the law? Starr -- the man at the eye of the hurricane -- has kept his unique perspective to himself for two full decades. In this long-awaited memoir, he finally sheds light on everything he couldn't tell us during the Clinton years, even in his carefully detailed "Starr Report" of September 1998. Contempt puts you, the reader, into the shoes of Starr and his team as they tackle the many scandals of that era, from Whitewater to Vince Foster's death to Travelgate to Monica Lewinsky. Starr explains in vivid detail how all those scandals shared a common thread: the Clintons' contempt for our system of justice. This book proves that Bill and Hillary Clinton weren't victims of a so-called "vast right-wing conspiracy." They played fast and loose with the law and abused their powers and privileges. Today, from the #MeToo aftermath and Russiagate to President Trump's impeachment trial, the office of the American presidency is in crisis—and Starr's insights are more relevant now than ever.

Twelve centuries of endless warfare by Vatican's high priests and their associates, the international banking nobility, are concentrated to subdue the Christian Orthodox Peoples into some new order of things. The erroneously touted "age-old animosities in the Balkans" is a fiction of age-old alien enemies. The conflict in the Serbian lands and the rest of the Balkans today is a mini pre-image of the coming Great Secular War III. The coming collapse of Vaticanism, Scottish-Grand-Orient Freemasonry, Zionism-Massoreticism, Debt-Banking, Oil Power, and Muslimism is heralded. Yugoslavia bravely resists their lackeys, the "Military-Industrial-Church Complex," in turn using NATO as their front, as their mighty image and prestige is exposed and scattered to the winds.
