

Passi Felpati E Felini Alati Harleys Venetian Adventure

Two outlaws of love (and literature) at large in their own Wild West. Ralph Crawford may be a talented short-story writer -- one of the best in the Bay Area, in America, in the 1970s; hell, in the whole English-speaking, late-middle-twentieth century -- but off the page he's only human. In fact, as his wife, Alice Ann, can attest, he's a mess: a jealous but faithless husband, an inveterate bouncer of checks, a plunderer of private misadventures for the sake of his fiction, and an often hapless drunk. When his (similarly human) buddy, Jim Stark -- a novelist burning with ambition, promise, and humiliation over his own failed marriage -- promises to deliver a cargo of incriminating letters to Ralph's latest paramour, a dark lady in Missoula named Lindsay Wolfe, the lives of all four are changed in ways none of them could predict. Careening across the western states during the twilight of the San Francisco underground, Chuck Kinder's already semi-legary masterpiece, twenty-five years in the making, is a rueful, comi-tragic juggernaut of good and bad intentions gone awry, high seriousness and hard living, and the gradual, painful coming of age of two couples who have spent the best years of their lives raising bad judgment to an art. With affection and self-savaging wit, Kinder captures the siren song of the writerly vocation in all its squalor, destructiveness, and glory.

Biographical and critical preface by H. P. Lovecraft.

When Torey Hayden first met fifteen-year-old Kevin, he was barricaded under a table. Desperately afraid of the world around him, he hadn't spoken a word in eight years. He was considered hopeless, incurable, but Hayden refused to believe it. With unwavering devotion and gentle, patient love, she set out to free him—and slowly uncovered a shocking, violent history and a terrible secret that an unfeeling bureaucracy had simply filed away and forgotten. But she never gave up on this tragic “lost case.” For a trapped and frightened boy desperately needed her help—and she knew in her heart she could not rest easy until she had rescued him from the darkness.

In arguing that Nietzsche's Thus Spoke Zarathustra is a philosophical explanation of the possibility of modernism, the author shows that literary fiction can do the work of philosophy.

Fiction. Short Stories. Translated from the Italian by Barbara De Marco. In SARACEN TALES, Italian-born Giuseppe Bonaviri brings a wild newness to the tale of the life of Jesus. In this succession of stories, Bonaviri explores all manners of the known and unknown, the archetypal, the mythological, the symbolic--the life of Jesus is both his material and his point of departure. Part surrealism, part folklore, readers will be amazed at the originality and creativity with which a long-familiar tale is presented.

"Bonaviri is a myth-maker, looking simultaneously to the historical past and to the future, to arrive at the a-historical, at cosmic universality"--Franco Zangrilli. Giuseppe Bonaviri was born in 1924 in Sicily. He began writing when he was ten and continued

through high school, college, and in his professional life as a doctor, health official, and cardiologist. His work has been widely translated.

Beneath dense gray clouds through which no sun shone lay a forgotten planet. It was a nightmare world of grotesque and terrifying animal-plant life. Gigantic beetles, spiders, bugs and ants filled the putrid, musty earth - ready to kill and devour anything in sight. There were men amidst this horror - men who cringed and ran from the ravaging monsters and huddled in the mushroom forests at night. Burl was one of these creatures. But one day inspiration hit Burl. He would find a weapon - he would fight back. And with this idea the first step was taken in man's most desperate flight for freedom in this most horrible of all worlds. But it was only a first step.

Poetry Chapbook by Worcester, MA poet, Stephen Campiglio, published by Soft Spur Press, Missoula, Montana in 2012.

Poetry. Translated from the Italian by John Taylor. Bilingual Edition. The first comprehensive translation of a long- neglected poet who lived most of his life in his home village in Calabria, experimented with new forms of expression and produced a body of work radiant with twilight mystery, scintillating perception and philosophical breadth. After his obscure and possibly self- inflicted death, Calogero (1910-1961) was gradually discovered, appreciated and published in prestigious editions. John Taylor's dedicated translation deftly handles the semantic leaps and disjunctions in these subtle but boldly original poems, and his introduction, informed by his visit to the village of Melicuccà and his association with the poet's relatives, offers the perfect guide into a private and renewed world. "Calogero felt the silence that had befallen him (or that he had sought?) as a disaster, as the sum of his misfortunes: he listened to it, analyzed it, wholly filled it with a dense web of meanings and subliminal thoughts at the very limits of vertigo..."—Mario Luzi "[His] authentic and noble message is that of a despair by now so elevated and calm that it retains no traces of romantic sorrow, or existential dismay or anxiety."—Giorgio Caproni "The most surprising gift of this ancient-modern poet is the wealth of violent, risk-taking metaphors. Sometimes he seemingly experiments in the surrealist sense of the term; those techniques he has mastered and surpassed, and his experimentation involves varied, more intricate, and conscious techniques."—Amelia Rosselli

"Reality is experience, and experience is reality," says Hawaiian shaman Serge King, speaking of Huna, the esoteric tradition in which he was reared. King emphasizes that all of us have the ability to shift from one world to another. The difference is that shamans do it purposefully, while the rest of us are unaware of it. He trains us to engage in the process consciously in order to expand our human potential. Among

books on Huna, this one is unique for offering actual practices for changing our reality to create the life we want. In a user-friendly, conversational style, King's chapters explain the four worlds of a shaman and basic Huna principles. Then, citing case studies, he guides us in how to change reality in each of the four worlds, bringing in ESP, telepathy, the perception of auras, telekinesis, dreaming, magical flight, and, finally, soul retrieval and the great power of healing. "It sounds simple," says King, "and it is. The most difficult part is to accept the simplicity, because that means changing one's idea about what reality is. And that's what this book is all about." In his theory of the novel, Guido Mazzoni explains that novels consist of stories told in any way whatsoever about the experiences of ordinary men and women who exist as contingent beings within time and space. Novels allow readers to step into other lives and other versions of truth, each a small, local world, absolute in its particularity. A collection of poems in Italian and English by the 1975 winner of the Nobel Prize in Literature reveals an innovative use of dialogue, journalistic language, song, and other techniques. Reprint.

Poetry. In ADDICTIVE AVERSIONS we encounter the life-force of sex, expressed in the individual body of the poet, but just as blind, asocial and irresistible, hence the title. Alfredo de Palchi is both tough and imaginative. He is absolutely uncompromising, and his poems are painful and exalting to read. One does not come away from his stark and terrible and hilarious work untouched. James Dickey [De Palchi's poetry] casts a revealing light on the dubious existential foundations of all mankind...these disturbing poems cumulate into a redoubtable wisdom -- The Antioch Review. Translated from the Italian by Sonia Raiziss and others.

Having demoted Earth from its unique position in the cosmos to one of mediocrity, Copernicus set in motion a revolution in scientific thought. This perspective has influenced our thinking for centuries. However, recent evidence challenges the Copernican Principle, hinting that we do in fact live in a special place, at a special time, as the product of a chain of unlikely events. But can we be significant if the Sun is still just one of a billion trillion stars in the observable universe? And what if our universe is just one of a multitude of others-a single slice of an infinity of parallel realities? In The Copernicus Complex, the renowned astrophysicist Caleb Scharf takes us on a scientific adventure, from tiny microbes within the Earth to distant exoplanets, probability theory, and beyond, arguing that there is a solution to this contradiction, a third way of viewing our place in the cosmos, if we weigh the evidence properly. As Scharf explains, we do occupy an unusual time in a 14-billion-year-old universe, in a somewhat unusual type of solar system surrounded by an ocean of unimaginable planetary diversity: hot Jupiters with orbits of less than a day, planet-size rocks spinning around dead stars, and a wealth of alien super-Earths. Yet life here is built from the most common chemistry in the universe, and we are a snapshot taken from billions of years of biological evolution. Bringing us to the cutting edge of scientific discovery, Scharf shows how the answers to fundamental questions of existence will come from embracing the peculiarity of our circumstance without denying the Copernican vision. With characteristic verve, Scharf uses the latest scientific findings to reconsider where we stand in the balance between cosmic significance and mediocrity, order and chaos. Presenting a compelling and bold view of our true status, The Copernicus Complex proposes a way forward in the ultimate quest: determining life's abundance, not just across this universe but across all realities. Man is dominated by his archetypes; they mould not only his history but his dreams. But how are we to define and evaluate them? Is it perhaps possible for us to relate more creatively to them? Originally published in 1981, these are

some of the questions raised by this title. To answer them the author gathered together a vast amount of material drawn from Eastern and Western traditions, from science, literature, art and poetry. The answers he puts forward are often highly original and will surely challenge many of our most cherished patterns of thought. There emerges from this book what can only be described as a global metaphysical system, yet the author's language is not that of an ordinary metaphysical treatise, and what he writes offered new challenge and hope to those suffering from the despair and cynicism engendered by a great deal in modern society at the time. Zolla does not, however, advocate a return to earlier historical patterns, nor is he proposing a new Utopia, but rather offers us a brilliant series of lessons in the art of centring. In the words of Bernard Wall, writing in the Times Literary Supplement, Zolla's 'deep, polymathic probing of the terms of human existence makes it sensible to compare him with Simone Weil, while some of his conclusions about ultimate mysteries – expressed in signs, symbols and sacraments, the sense of which we have lost – will make us think of the later T. S. Eliot'.

The first comprehensive interpretation of Nietzsche's Thus Spoke Zarathustra--an important and difficult text and the only book Nietzsche ever wrote with characters, events, setting, and a plot. Laurence Lampert's chapter-by-chapter commentary on Nietzsche's magnum opus clarifies not only Zarathustra's narrative structure but also the development of Nietzsche's thinking as a whole. "An impressive piece of scholarship. Insofar as it solves the riddle of Zarathustra in an unprecedented fashion, this study serves as an invaluable resource for all serious students of Nietzsche's philosophy. Lampert's persuasive and thorough interpretation is bound to spark a revival of interest in Zarathustra and raise the standards of Nietzsche scholarship in general."--Daniel W. Conway, Review of Metaphysics "A book of scholarship, filled with passion and concern for its text."--Tracy B. Strong, Review of Politics "This is the first genuine textual commentary on Zarathustra in English, and therewith a genuine reader's guide. It makes a significant and original contribution to its field."--Werner J. Dannhauser, Cornell University "This is a very valuable and carefully wrought study of a very complex and subtle poetic-philosophical work that provides access to Nietzsche's style of presenting his thought, as well as to his passionately affirmed values. Lampert's commentary and analysis of Zarathustra is so thorough and detailed. . . that it is the most useful English-language companion to Nietzsche's 'edifying' and intriguing work."--Choice Selected as one of Choice's outstanding academic books for 1988

"Nights on the Heights" is the second of a trilogy of novels published by Bonaviri from the late sixties to the early seventies - all dealing with exploratory travel, incredible pursuits and strange adventures. Written in an inimitable style, in a language at once archaistic and ultramodern, lyrical and prosaic, this unusual work stands out prominently in the panorama of contemporary Italian narration. Although set primarily in and around Mineo, Sicily - the navel of the author's

universe or, as he once called it, his -observatory- - the action spreads radially to other, sometimes distant locations, extending also into the realms of mythology. A cornucopia of true and imagined realities, of ancient and modern philosophy, of primitive and futuristic science, this absorbing, unclassifiable novel now appears in English for the first time."

The first collected poems of the great Italian author.

The People of the Abyss (1903) is a work of nonfiction by American writer Jack London. Written after the author spent three months living in London's poverty-stricken East End, The People of the Abyss bears witness to the difficulties faced by hundreds and

thousands of people every day in one of the wealthiest nations on earth. Inspired by Friedrich Engels's *The Condition of the Working Class in England* (1845) and Jacob Riis's *How the Other Half Lives*, London hoped to expose the indignities faced by those left behind by industrialization. In 1902, Jack London traveled to England to live in the slums of London's East End. Hoping to learn about the lives and experiences of the city's working class, he spent three months staying in workhouses, sleeping on the streets, and lodging with a poor family in the area. Drawing on his own experience as a working-class American, and informed by his dedicated understanding of socialism, London recorded what he saw of the lives of London's poor, the hundreds of thousands of humans held back from the nation's progress toward modernization. *The People of the Abyss* was a popular and critical success upon publication and would inspire the young George Orwell to conduct his own research on poverty and urban life, which he recorded in his groundbreaking work *Down and Out in Paris and London*. Although he is known more for his contributions to fiction, London was a talented journalist whose experiences as a world traveler and worker allowed him to capture the deprivations of impoverished life while preserving a sense of humanity and advocating for much needed change. With a beautifully designed cover and professionally typeset manuscript, this edition of Jack London's *The People of the Abyss* is a classic of American literature reimagined for modern readers.

A rediscovered mountaineering classic and the extraordinary true story of a daring escape up Mount Kenya by three prisoners of war. When the clouds covering Mount Kenya part one morning to reveal its towering peaks for the first time, prisoner of war Felice Benuzzi is transfixed. The tedium of camp life is broken by the beginnings of a sudden idea - an outrageous, dangerous, brilliant idea. There are not many people who would break out of a P.O.W. camp, trek for days across perilous terrain before climbing the north face of Mount Kenya with improvised equipment, meagre rations, and with a picture of the mountain on a tin of beef among their more accurate guides. There are probably fewer still who would break back in to the camp on their return. But this is the remarkable story of three such men. *No Picnic on Mount Kenya* is a powerful testament to the human spirit of revolt and adventure in even the darkest of places. "The history of mountaineering can hardly present a parallel to this mad but thrilling escapade" - *Saturday Review* "A most extraordinary prisoner-of-war and escape story" - *New Yorker* "A mad venture and a gallant tribute to man's deep yearning for freedom" - *Kirkus Reviews* "The book crackles with the same dry humour as its title. It contains the prison-yard bartering and candlelight stitching that mark a classic jailbreak yarn; the encounters with wild beasts in Mount Kenya's forest belt are as gripping, and the descriptions of sparkling glaciers as awe-inspiring, as any passage in the great exploration diaries of the early 20th century" - *The Economist*

Lynne McMahon has a genius for making poetry of the ordinary, for transforming those things we most take for granted into aspects for intricate contemplation. As G. E. Murray put it in *The Southern Review*, "Perhaps 'rearranging molecules' of thought and language is the best way to describe how she uses the unconscious to grab the reader's attention."
