Hundreds of thousands of Internet marketers are fully focused on getting passive income. It is by far the most tempting form of income since it lets you earn money on a regular basis even if you are not active with work. Because of the hype that this concept generates, many people come up with their own dream interpretations of it and unfortunately some are missing the mark. It is better to take a closer look at it as well as the things you should expect if you decide to pursue that goal. It is highly unlikely to achieve this passive income status overnight. Think of it like a rocket where you need to build a bunch of energy to launch it. But once it is in the air, you only have to do a fraction of the effort to keep things going. Creating an actual pathway is actually the time-consuming bit. If it was really a simple thing to do, everyone would be getting involved rather than sticking with tedious ways in earning money. Unfortunately, it is not that simple and you can't just create wealth out of thin air. Your only other alternative involves buying a possible passive income channel.

Find your niche and map your path to financial freedom. The system for real estate investment takes advantage of an under appreciated source of wealth in the United States: multifamily properties. This book reveals how well-paid professionals waste money by investing in common but unreliable paper assets. The book also provides evidence-based solutions for expanding net worth. 1 - Critical Failure 2 - A Zeal for Excellence 3 - Rejecting Inexperience 4 - Flawed Thinking 5 - First House 6 - Buying in Houston 7 - Follow Your Heart 8 - What's the Catch? 9 - Family Owned 10 - To Manage or Not To Manage 11 - No Turning Back 12 - Rolling It Over 13 - Managing Assets 14 - Class Action 15 - Mass Appeal: A Cautionary Tale 16 - Life in Storage 17 - Decreasing Risk 18 - Satisfaction: Retiring Old Ideas

Do you have enough for retirement? Do you want an Investment method that comes with absolutely zero headaches? How does 'making money on auto pilot' sound to you? If you want any of these then you need this book and the best part is that in this book, I'll tell you how to get started with almost nothing! Financial planners usually use the "25 Times Rule" to determine how much a portfolio should be worth for someone to safely retire. If you need \$50,000 a year to live on when you retire, then, using the "25 Times Rule" you should have \$1,250,000 in stocks, bonds and mutual funds in order to retire. If you retire at 65, you better hope you don't live past 90 or you'll be broke. Compared to investors who rely on the stock market to accumulate assets for their retirement, real estate investments take a different approach. If you accumulate \$2,800,000 in income-producing real estate it will pay \$50,000 a year in income and continue to appreciate in value over the years, not only covering you indefinitely but also leaving you something to pass on to your children. Here's the interesting part, it only takes \$700,000 in investment capital to accumulate \$2,800,000 in real estate assets. By comparison, it takes about \$900,000 in stock investments to achieve a \$50,000 per year annual income, assuming that during 30 years of investing both types of investments yield a 4 percent return. There is one final advantage to a residential real estate investment and that it is understandable an easy for most everyone. It's easy to purchase, it's easy to finance and there are no insurmountable financial barriers to enter. It's easy for most investors to improve their properties and it's easy to use the tax advantages. While Wall Street is becoming more and more of a mystery and becoming the game of financiers, real estate investing is looking better and better for average Americans. America is moving away from a home ownership society and towards a "rentership" society. It is a great time for investors to snap up distressed single-family homes and turn them into long-term rental units. Whats Inside this book? Best market to focus on for your portfolio How to Raise money for your First Purchase Even if you're broke How to Analyze deals and bid like a Champ How to Analyze any Rental Market and Know if its Profitable How to Spot Low Cost Properties that will make you a Fortune And many more!!!! Whether you're an absolute beginner with zero programming skills or you already have knowledge of on-line income and you want to expand, then this book is for you. This will be the most exciting guide you have ever read, why? Because it will teach you exactly how to build your first ten income streams and then build the links that feed each other to increase your income. With each link being both a source of business and a referrer of business, the net effect of this Cross Collateralization is a Compounding Income and a business model where you only work on the business and never in it. This book has three important categories; 1. The theory- a behind the scenes look at online income 2. The method - a step-by-step how-to guide including the websites that'll need. 3. Actual ideas to help you along. To be truly passive, the COMPOUNDING INCOME method builds the business of on-line income without ongoing work. It's a methodology where you don't mind putting in the work to start the business as long as you earn money from that business on an ongoing basis. The business that generated that money then refers buyers and thereby income to other legs of your on-line model that also refer business back, thereby creating an effective compounding income with zero risk and in most cases zero outlay. This self-sustaining on-line business model has no need for programming skills, employees or ongoing money to be spent supporting it. What it does require is a desire to succeed, an ability to hold onto a vision and the dedication to put time and effort into learning new ways of doing things. This book is an absolute step by step guide but you will still need to put in the time to learn so our recommendation is that you read through this book in full before you even sit at your computer, that way you'll have a great understanding of the overall concept of on-line income from multiple streams. You'll understand how to manage the various systems and programs that we will use, you'll understand why we link our projects and you'll see from the outset that the time you are about to put in will truly pay you a sustainable, reliable, ongoing income. The first layer of this book is a step by step guide for both beginners who have never built an on-line income as well as those more experienced to build new income streams. This first stage deals with the foundation, the building blocks that on their own will generate a passive and ongoing income. The next

stage is to leverage off these building blocks to create 'spin-off' income. This is income that is not directly related to that particular business but is complementary to that income 'building block'. The third stage is to link all of these building blocks together in the same way that the veins in your body link all your muscles together by supplying oxygen rich blood to create a system that works in harmony. Each building block has its primary function to create an income, its secondary function is then to refer business to other building blocks and receive business to supplement its own growth. Layne Lancefield and Staci Chamberlain are the authors of '5 passive income streams in five days' and '50 ways that people make extra money for additional income'. Built on the success of their previous books, 'Compounding Income' builds on the principle of online income that feeds and refers to your other online passive income streams to create a compounding (or in simple terms, a snowballing) effect that is multiplied by the power of the number of streams both feeding and being fed. If you have read '5 Income Streams in Five days', you'll understand Layne and Staci's devotion to the idea of Under Promise and Over Deliver where they taught many more than five income streams and Compounding Income will deliver many more than 10 income streams by the time you're finished. Each of these income streams can stand on their own but with links to each other they become powerful.
