"Password Keeper" We now live in a world where keeping track of electronic passwords for websites and email accounts and social media outlets is not simply a good idea, but a necessity. However, at times being able to remember each specific password for each website or email account can be rather difficult, especially if you use alphanumeric codes or

other algorithms to generate passwords rather than simple words or phrases where cats birthday. It has become necessary to have more complicated passwords and while it is true the more complicated your password the more secure your information will be. It is also true that the more complicated your password the more difficult it will be to remember. This is where the forget me not password keeper comes in handy. This nifty little notebook is filled with 150 pages that are specifically designed to help keep all of your passwords and other personal information safe from prying eyes. These books are organized alphabetically similar to the way one of those old pocket address books was designed with specifically labeled slots for the password. The name of the corresponding website email account or other business information has its own separate slot which means all you have to do is put the appropriate information in the appropriate space and it will be safely and securely organized for easy access at any time. The forget me not password keeper is also discrete. It has a unique and artistically designed cover so that it will look like any other personal notebook or address book should be found on your desk or accidentally glimpsed in your purse. The forget me not password keeper will also give you peace of mind knowing that you no longer have to remember all of your passwords or risk for getting them because they are all safely categorized and secure in this handy little book that is sure to become a trusted companion. Plenty of room to record password changes, security questions, and notes Extra pages to record information about your home network configuration, Internet Service Provider, and other notes and in alphabetical order. We've put a lot of thought in to this book, it's perfect for a small, simple gift: Dimensions: 20.3 x 12.7 cm / 5 x 8 inches. (A touch smaller than A5 but much bigger than A6. It's small enough to tuck away easily in a bag, drawer or shelf, but it's not tiny, it's much bigger than most pockets.) Interior: -95 pages of good quality white paper to minimize ink bleed-through. -Just under 400 log boxes, including a few extra at the back for the storage of online purchase reference numbers. -An advice section on how to set strong, safe passwords is easily accessible at the back. -Plenty of space. We've allowed the whole page width for writing internet addresses & usernames, and extra space to write your own notes with each record; particularly useful for extra security details such as memorable words. There's also a general notes space at the back for recording modem details or wifi codes for example. So no more cramming! -A date record box. To prevent confusion if you change a password you can easily keep track of which one is the latest by using the entry date prompt in each log. -Easy to read with font size 12 or larger throughout. Cover: Tough matte paperback. Properly bound, so pages won't fall out with use. MATCHING PRODUCTS: A 5 x 8 inch ruled notebook and an 8 x 10 inch composition book. Search 'elephant' & 'bookx' on Amazon (don't forget the 'x'). SIMILAR PRODUCTS: We publish several password journals with the same interior as this one but with other
