"Limerick is one of the most engaging historians writing today." --Richard White The "settling" of the American West has been perceived throughout the world as a series of quaint, violent, and romantic adventures. But in fact, Patricia Nelson Limerick argues, the West has a history grounded primarily in economic reality; in hardheaded questions of profit, loss, competition, and consolidation. Here she interprets the stories and the characters in a new way: the trappers, traders, Indians, farmers, oilmen, cowboys, and sheriffs of the Old West "meant business" in more ways than one, and their descendents mean business today.

The gripping family drama—and never-before-told love story—surrounding the rise and fall of the late Aldo Gucci, the man responsible for making the legendary fashion label the powerhouse it is today, as told by his daughter. Patricia Gucci was born a secret: the lovechild whose birth could have spelled ruination for her father, Aldo Gucci. It was the early 1960s, the halcyon days for Gucci—the must-have brand of Hollywood and royalty—but also a time when having a child out of wedlock was illegal in Italy. Aldo couldn't afford a public scandal, nor could he resist his feelings for Patricia's mother, Bruna, the paramour he met when she worked in the first Gucci store in Rome. To avoid controversy, he sent Bruna to London after she became pregnant, and then discretely whisked her back to Rome with her newborn hidden from the Italian authorities, the media, and the Gucci family. In *In the Name of Gucci* charts the untold love story of Patricia's parents, relying on the author's own memories, a collection of love letters and interviews with her mother, as well as an archive of previously unseen photos. She interweaves her parents' tempestuous narrative with that of her own relationship with her father—from an isolated little girl who lived in the shadows for the best part of a decade through her rise as Gucci's spokesperson and Aldo's youngest protégé, to the moment when Aldo's three sons were shunned after betraying him in a notorious coup and Patricia—once considered a guilty secret—was made his sole universal heir. It is an epic tale of love and loss, treason and loyalty, sweeping across Italy, England and America during the most tumultuous period of Gucci's sixty years as a family business.

Examines policies, norms, and classroom practices of the US and Mexican education systems, with the aim of preparing educators to understand and help transnational children and youth. Millions of students in the US and Mexico begin their educations in one country and find themselves trying to integrate into the school system of the other. As global migration increases, their numbers are expected to grow and more and more teachers will find these transnational students in their classrooms. The goal of *The Students We Share* is to prepare educators for this present and future reality. While the US has been developing English as a Second Language programs for decades, Mexican schools do not offer such programs in Spanish and neither the US nor Mexico has prepared its teachers to address the educational, social-psychological, or other personal needs of transnational students. Teachers know little about the circumstances of transnational students' lives or histories and have little to no knowledge of the school systems of the country from which they or their family come. As such, they are fundamentally unprepared to equitably educate the "students we share," who often fall through the cracks and end their educations prematurely. Written by both Mexican and

US pioneers in the field, chapters in this volume aim to prepare educators on both sides of the US-Mexico border to better understand the circumstances, strengths, and needs of the transnational students we teach. With recommendations for policymakers, administrators, teacher educators, teachers, and researchers in both countries, *The Students We Share* shows how preparing teachers is our shared responsibility and opportunity. It describes policies, classroom practices, and norms of both systems, as well as examples of ongoing partnerships across borders to prepare the teachers we need for our shared students to thrive. Pulling together the most up-to-date research on the effects of restrictive language policies, this timely volume focuses on what we know about the actual outcomes for students and teachers in California, Arizona, and Massachusetts states where these policies have been adopted. Prominent legal experts in bilingual education analyze these policies and specifically consider whether the new data undermine their legal viability. Other prominent contributors examine alternative policies and how these have fared. Finally, Patricia Gndara, Daniel Losen, and Gary Orfield suggest how better policies, that rely on empirical research, might be constructed. This timely volume features contributions from well-known educators and scholars in bilingual education. It includes an overview of English learners in the United States and a brief history of the policies that have guided their instruction. It also analyzes the current research on teaching English learners in order to determine the most effective instructional strategies.

This "heartbreaking portrait of a family dealing with the realities of migration and separation" (Time) is "a sweeping love story and tragic drama [and] an authentic vision of what the American Dream looks like in a nationalistic country" (Elle). I often wonder if we are living the wrong life in the wrong country. Talia is being held at a correctional facility for adolescent girls in the forested mountains of Colombia after committing an impulsive act of violence that may or may not have been warranted. She urgently needs to get out and get back home to Bogotá, where her father and a plane ticket to the United States are waiting for her. If she misses her flight, she might also miss her chance to finally be reunited with her family. How this family came to occupy two different countries, two different worlds, comes into focus like twists of a kaleidoscope. We see Talia's parents, Mauro and Elena, fall in love in a market stall as teenagers against a backdrop of civil war and social unrest. We see them leave Bogotá with their firstborn, Karina, in pursuit of safety and opportunity in the United States on a temporary visa, and we see the births of two more children, Nando and Talia, on American soil. We witness the decisions and indecisions that lead to Mauro's deportation and the family's splintering—the costs they've all been living with ever since. Award-winning, internationally acclaimed author Patricia Engel, herself a dual citizen and the daughter of Colombian immigrants, gives voice to all five family members as they navigate the particulars of their respective circumstances. Rich with Bogotá urban life, steeped in Andean myth, and tense with the daily reality of the undocumented in America, *Infinite Country* "is as much an all-American story as it is a global one" (Booklist, starred review).

This is a story about a life lived in two halves. It's about what happens when real life collides with the world accessed through a screen. It's about where we go when existential threats loom and high-stakes reality claims us back. It's about living in world that contains both an abundance of proof that there is goodness, empathy, and justice in the universe, and a deluge of evidence to the contrary. Irreverent and sincere, poignant and delightfully profane, *No One Is Talking About This* is a meditation on love, language and human connection from one of the most original voices of our time.

"The really important things in life are your family and friends. And what will people say about you at your funeral—that you won an Emmy once, or that you were a good person, kind and generous? Well, as for me, I hope it's the latter. And the fact that I recently commissioned an Emmy-shaped coffin just eliminates the need for anyone to bring it up." Everybody knows that Patricia Heaton plays the hilarious, wise, and tempestuous married-with-kids everywoman on

Everybody Loves Raymond. What they might not know is that in real life she is married, has four boys under eight years old, and is just as funny offscreen as on. *Motherhood and Hollywood* is Patricia Heaton's humorous and poignant collection of essays on life, love, marriage, child-rearing, show business, having parents, being a parent, spousal rage, surviving fame, success, and the shame of underarm flab. She is warm, witty, and refreshingly irreverent. Heaton grew up in suburban Cleveland, one of five children of devout Roman Catholic parents. Her father was a noted sportswriter for *The Plain Dealer*; her mother died suddenly and unexpectedly when Heaton was twelve. Love, fast food, and an unflagging sense of humor held the clan together and propelled Patricia on a showbiz career that began with hilariously nightmarish struggles in New York, eventually leading to a triumphant move to Los Angeles. In *Motherhood and Hollywood*, Patricia Heaton pours out her heart and minces no words. She's taking all prisoners for cookies and a glass of Jack Daniel's and diet ginger ale. Laughter ensues. The first wave of trailblazing female law professors and the stage they set for American democracy. When it comes to breaking down barriers for women in the workplace, Ruth Bader Ginsburg's name speaks volumes for itself—but, as she clarifies in the foreword to this long-awaited book, there are too many trailblazing names we do not know. Herma Hill Kay, former Dean of UC Berkeley School of Law and Ginsburg's closest professional colleague, wrote *Paving the Way* to tell the stories of the first fourteen female law professors at ABA- and AALS-accredited law schools in the United States. Kay, who became the fifteenth such professor, labored over the stories of these women in order to provide an essential history of their path for the more than 2,000 women working as law professors today and all of their feminist colleagues. Because Herma Hill Kay, who died in 2017, was able to obtain so much first-hand information about the fourteen women who preceded her, *Paving the Way* is filled with details, quiet and loud, of each of their lives and careers from their own perspectives. Kay wraps each story in rich historical context, lest we forget the extraordinarily difficult times in which these women lived. *Paving the Way* is not just a collection of individual stories of remarkable women but also a well-crafted interweaving of law and society during a historical period when women's voices were often not heard and sometimes actively muted. The final chapter connects these first fourteen women to the "second wave" of women law professors who achieved tenure-track appointments in the 1960s and 1970s, carrying on the torch and analogous challenges. This is a decidedly feminist project, one that Justice Ruth Bader Ginsburg advocated for tirelessly and admired publicly in the years before her death.

Bringing together diverse scholars to represent the full historical breadth of the early modern period, and a wide range of disciplines (literature, women's studies, folklore, ethnomusicology, art history, media studies, the history of science, and history), *Ballads and Broadides in Britain, 1500-1800* offers an unprecedented perspective on the development and cultural practice of popular print in early modern Britain. Fifteen essays explore major issues raised by

the broadside genre in the early modern period: the different methods by which contemporaries of the sixteenth through nineteenth centuries collected and "appreciated" such early modern popular forms; the preoccupation in the early modern period with news and especially monsters; the concomitant fascination with and representation of crime and the criminal subject; the technology and formal features of early modern broadside print together with its bearing on gender, class, and authority/authorship; and, finally, the nationalizing and internationalizing of popular culture through crossings against (and sometimes with) cultural Others in ballads and broadsides of the time.

Trevor Noah's unlikely path from apartheid South Africa to the desk of *The Daily Show* began with a criminal act: his birth. Trevor was born to a white Swiss father and a black Xhosa mother at a time when such a union was punishable by five years in prison. Living proof of his parents' indiscretion, Trevor was kept mostly indoors for the earliest years of his life, bound by the extreme and often absurd measures his mother took to hide him from a government that could, at any moment, steal him away. Finally liberated by the end of South Africa's tyrannical white rule, Trevor and his mother set forth on a grand adventure, living

openly and freely and embracing the opportunities won by a centuries-long struggle. Born a Crime is the story of a mischievous young boy who grows into a restless young man as he struggles to find himself in a world where he was never supposed to exist. It is also the story of that young man's relationship with his fearless, rebellious, and fervently religious mother—his teammate, a woman determined to save her son from the cycle of poverty, violence, and abuse that would ultimately threaten her own life. The stories collected here are by turns hilarious, dramatic, and deeply affecting. Whether subsisting on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to survive the life-and-death pitfalls of dating in high school, Trevor illuminates his curious world with an incisive wit and unflinching honesty. His stories weave together to form a moving and searingly funny portrait of a boy making his way through a damaged world in a dangerous time, armed only with a keen sense of humor and a mother's unconventional, unconditional love.

W. B. Yeats and Fernando Pessoa (1888-1935) regarded style as a tool for metaphysical inquiry and, consequently, they adopted distinct poetic styles to convey different attitudes towards experience. Silva-McNeill's study examines how the poets' stylistic diversification was a means of rehearsing different existential and aesthetic stances. It identifies parallels between their styles from a comparative case studies approach. Their stylistic masks allowed them to maintain the subjectivity and authenticity associated with the lyrical genre, while simultaneously attaining greater objectivity and conveying multiple perspectives. The poets continuously transformed the fond and form of their verse, creating a protean lyrical voice that expressed their multilateral poetic temperament and reflected the depersonalisation and formal experimentalism of the modern lyric.

COLLOIDAL SILVER Everything You Need To Know about Colloidal Silver Silver has found application medically as a long way back as 4000 B.C. The ancient Persians gives account specially about the exercise of setting water in silver vessels; the historic civilizations of the Greek and Babylonian had been additionally given account of silver's anti-biotic properties. Also, before the rampant use of antibiotics in practically every part of the world now, compounds of silver were applied in the prevention of an infection especially during world war one. Within the 1880's the method of the application of silver in remedy for infection was changed because of the creation of colloidal silver. It was discovered that its smaller silver debris gave a much more secure and greater effective opportunity to the primitive silver drugs formerly applied for treatment. This book covers everything you need to know about colloidal silver, the historical uses of colloidal silver, how colloidal silver works, the various benefit of colloidal silver, the various method on how you can prepare colloidal silver and the precaution you need to put in mind when using colloidal silver. **GRAB YOURS NOW**

'My New Year's Eve Toast: to all the devils, lusts, passions, greeds, envies, loves, hates, strange desires, enemies ghostly and real, the army of memories, with which I do battle - may they never give me peace' **PATRICIA HIGHSMITH** (New Year's Eve, 1947) Made famous by the great success of her psychological thrillers, *The Talented Mr Ripley* and *Strangers on a Train*, Patricia Highsmith is lauded as one of the most influential and celebrated modern writers. However, there has never been a clear picture of the woman behind the books. The relationship between Highsmith's lesbianism, her fraught personality – by parts self-destructive and malicious – and her fiction, has been largely avoided by biographers. She was openly homosexual and wrote the seminal lesbian love story, *Carol*. In modern times, she would be venerated as a radical exponent of the LGBT community. However, her status as an LGBT icon is undermined by the fact that she was excessively cruel and exploitative of her friends and lovers. In this new biography, Richard Bradford brings his sharp, incisive style to one of the great and most controversial writers of the twentieth century. He considers Highsmith's bestsellers in the context of her troubled personal life; her alcoholism, licentious sex life, racism, anti-Semitism, misogyny and abundant self-loathing.

This volume brings together a broad range of academics, school-based educators, and policymakers to address research, policy, and practice issues related to improving the education of English language learners in U.S. schools today. It emphasizes throughout that instructional improvements cannot be achieved via curriculum alone--teachers are key to improving the education of this large and growing population of students. The focus is on the quality of preparation and development of pre-service and in-service educators. Contributors include leading educators and researchers in the field and from nationally recognized professional development programs. Their recommendations range from promising new professional development practices to radical changes in current state and federal policy. *Preparing Quality Educators for English Language Learners* is an important resource to help teacher educators, administrators, and policymakers address critical issues as they develop programs for English language learners.

Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of

unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.

This National Book Award nominee from two-time finalist Patricia McCormick is the unforgettable story of Arn Chorn-Pond, who defied the odds to survive the Cambodian genocide of 1975-1979 and the labor camps of the Khmer Rouge. Based on the true story of Cambodian advocate Arn Chorn-Pond, and authentically told from his point of view as a young boy, this is an aching raw and powerful historical novel about a child of war who becomes a man of peace. It includes an author's note and acknowledgments from Arn Chorn-Pond himself. When soldiers arrive in his hometown, Arn is just a normal little boy. But after the soldiers march the entire population into the countryside, his life is changed forever. Arn is separated from his family and assigned to a labor camp: working in the rice paddies under a blazing sun, he sees the other children dying before his eyes. One day, the soldiers ask if any of the kids can play an instrument. Arn's never played a note in his life, but he volunteers. This decision will save his life, but it will pull him into the very center of what we know today as the Killing Fields. And just as the country is about to be liberated, Arn is handed a gun and forced to become a soldier. Supports the Common Core State Standards.

In its seventeenth-century heyday, the English broadside ballad was a single large sheet of paper printed on one side with multiple woodcut illustrations, a popular tune title, and a poem. Inexpensive, ubiquitous, and fugitive—individual elements migrated freely from one broadside to another—some 11,000 to 12,000 of these artifacts pre-1701 survive, though many others have undoubtedly been lost. Since 2003, Patricia Fumerton and a team of associates at the University of California, Santa Barbara have been finding, digitizing, cataloging, and recording these materials to create the English Broadside Ballad Archive. In this magisterial and long-awaited volume, Fumerton presents a rich display of the fruits of this work. She tracks the fragmentary assembling and disassembling of two unique extant editions of one broadside ballad and examines the loose network of seventeenth-century ballad collectors who archived what were essentially ephemeral productions. She pays particular attention to Samuel Pepys, who collected and bound into five volumes more than 1,800 ballads, and whose preoccupations with black-letter print, gender, and politics are reflected in and extend beyond his collecting practices. Offering an extensive and expansive reading of an extremely popular and sensational ballad that was printed at least 37 times before 1701, Fumerton highlights the ballad genre's ability to move audiences across time and space. In a concluding chapter, she looks to Shakespeare's *The Winter's Tale* to analyze the performative potential ballads have in comparison with staged drama. A broadside ballad cannot be "read" without reading it in relation to its images and its tune, Fumerton argues. To that end, *The Broadside Ballad in Early Modern England* features more than 80 illustrations and directs its readers to a specially constructed online archive where they can easily access 48 audio files of ballad music.
