Textbook of Family Medicine, 3/e has been thoroughly revised and updated as per the requirement of general practitioners. Chapters contributed from a number of national and international experts in their respective fields makes this an authoritative text. The chapters have been thoroughly revised not only to incorporate symptomatic approach and management at primary care level but also the advanced treatment options available in tertiary care centres. With its contemporary approach and lucid presentation, the text would be of immense value to the general practitioners as well as students pursuing courses in Family medicine.

Now in two colours throughout, this new edition of Lecture Notes: Neurology contains the core neurological information required, whichever branch of clinical medicine you choose. Reflecting current clinical practice, the latest advances in the diagnosis and management of neurological diseases are concisely covered. The book is divided into two parts. The Neurological Approach looks at neurological history taking. The neurological examination is then discussed in detail – consciousness, cognitive function, vision and other cranial nerves, motor function, sensation and autonomic function. In part two, Neurological Disorders, the common neurological conditions are described, along with neurological emergencies and neuro-rehabilitation. Featuring a self-assessment section, and with clinical scenario and key points boxes throughout,

LectureNotes: Neurology is ideal for medical students, junior doctors, and specialist nurses who want a concise introduction to clinical neurology that can be used as a core text or as a revision resource.

Organic reactions are chemical reactions involving organic compounds. The basic organic chemistry reaction types are addition reactions, elimination reactions, substitution reactions, pericyclic reactions, rearrangement reactions and redox reactions. In organic synthesis, organic reactions are used in the construction of new organic molecules. The production of many man-made chemicals such as drugs, plastics, food additives, fabrics depend on organic reactions. Organic reactions are chemical reactions involving organic compounds. The basic organic chemistry reaction types are addition reactions, elimination reactions, substitution reactions, pericyclic reactions, rearrangement reactions, photochemical reactions and redox reactions. In organic synthesis, organic reactions are used in the construction of new organic molecules. The production of many man-made chemicals such as drugs, plastics, food additives, fabrics depend on organic reactions. The book is likely to serve as a useful textbook and reference book to the undergraduate and postgraduate students in developing an insight into the mechanistic aspects of the organic chemistry as a whole.

This book is designed for NEET-PG aspirants to help them revise and master core topics from multiple subjects
Key Features: Chapter-wise concise but complete and up to date text to help the students get a clear concept in ENT
Many image-based practice questions as per the recent exam pattern
A Large number of explanatory figures in each topic which make understanding and remembering easy and many easy-to-grasp mnemonics
Explained answers of previously asked questions in various PG entrance examinations following every chapter
Not only the answer but all the other choices in the MCQs have been discussed thoroughly making it a unique book. This will enhance the chances of solving new questions in future
Also contains visuals and important instruments of ENT

The third edition of this manual has been fully revised to provide the latest developments in the diagnosis and treatment of common eye diseases. Disorders are arranged in alphabetical order and each condition is presented over two colour coded pages, with 'Diagnosis' (definition, symptoms, differential diagnosis etc) on one page, and 'Treatment' (diet and lifestyle, treatment aims, prognosis etc), on the other. Authored by internationally recognised, Professor Myron Yanoff from Drexel University College of Medicine, Philadelphia, this new edition includes many new or revised images and illustrations and features two tables of contents – one listed alphabetically, the other by specialty, for quick reference. Each disorder includes its diagnostic code for record purposes. Key points Fully revised, new edition presenting latest developments in diagnosis and treatment of eye diseases Quick reference, alphabetically-ordered, colour coded format Contents searchable by disease name or specialty Previous edition published in 2007

A 24-year-old woman is referred from the emergency department with sudden onset of left iliac fossa pain and you are the medic on duty... 100 Cases in Obstetrics and Gynaecology presents 100 commonly seen obstetric and gynaecological scenarios. The patient's history, examination and initial investigations are presented along with questions on the diagnosis and management of each case. The answer includes a detailed discussion on each topic, providing an essential revision aid as well as a practical guide for junior clinicians. Making clinical decisions is one of the most challenging and difficult parts of training to become a doctor. These cases will teach medics and medical students to recognize important obstetric and gynaecological conditions and help them develop their diagnostic and management skills.

Rev. ed. of: Gross and developmental anatomy / N. Anthony Moore, William A. Roy. 2nd ed. c2007.

First and only available book for NEET SS exams. Contains NEET pattern surgical superspeciality pattern questions superspeciality entrance examinations. Edited by the leading faculties of surgery. All answers and their explanations are provided by the subject experts. Anticipated questions are marked in the explanations. Explanations have been referred from the Bailey 27th edition and Sabiston 20th edition.

• Most preferred book of surgery for PG aspirants in 2018 • Only book on surgery for PGMEE written by leading faculty and super specialty surgeon • First book to cover sample video questions on Surgery seeing the changing trends of examinations • The complete content has been updated from the latest Editions of Bailey and Love 27/e, Sabiston's 20/e, Schwartz 10/e, Campbell-Walsh Urology 11/e, Harrison's 20/e, Blumgart's 6/e, Shackelford's 8/e and Devita 11/e • Latest updates of AJCC Cancer staging 8th Edition & ATLS 10th Edition included • All chapters are reviewed and inputs are given by the concerned super specialty consultants • Every chapter starts with One Liners which will help you learn the basic points related to the respective chapter • Several important points like—Extra-Mile, Recent Advances, Must Know, Controversy Desk and High Yield Facts are added to pay special attention while you read the text. • Highest number of illustrations are given to supplement the text for better understanding of intricate concepts • Author's Facebook Help Group Page "Surgery Sixer" to clarify all doubts of the readers.

It has been conceived keeping in mind the latest trend of questions according to the level of different types of students. The whole syllabus of Biology has been divided into day wise learning module. Each day is assigned with two exercises – Foundation Question exercises – having topically arranged question exercise, and Progressive Question Exercise consists of higher difficult level question. Along with daily exercises, this book provides 8 Unit Test and 3 Full length Mock Tests for the complete practice. At the end of the book, NEET Solved Papers 2021 have been given for thorough practice. TOC Preparing NEET 2022 Biology in 40 Days! Day 1: The Living World, Day 2: Plant Kingdom, Day 3: Animal Kingdom, Day 4: Unit Test 1, Day 5: Morphology of Flowering Plants, Day 6: Anatomy of Flowering Plants, Day 7: Structural Organisation in Animals, Day 8: Unit Test 2 Day 9 Cell: The Unit of Life, Day 10: Biomolecules and Enzymes, Day 11: The Cell Division, Day 12: Unit Test 3, Day 13: Transport in Plants, Day 14: Mineral Nutrition, Day 15: Photosynthesis, Day 16: Respiration in Plants, Day 17: Plant Growth and Development, Day 18: Unit Test 4, Day 19: Digestion and Absorption, Day 20: Breathing and Exchange of Gases, Day 21: Body Fluids and Circulation, Day 22: Excretory Products and Their Elimination, Day 23: Movement and Locomotion, Day 24: Neural Control and Chemical Coordination, Day 25: Unit Test 5, Day 26: Reproduction in Plants, Day 27: Animal Reproduction and Reproductive Health, Day 28: Genetics, Day 29: Molecules Basis of Inheritance, Day 30: Evolution, Day 31: Unit Test 5, Day 32: Biology and Human Welfare, Day 33: Biotechnology Principles and its Applications, Day 34: Organisms and Ecosystem, Day 35: Biodiversity and Wildlife Conservation, Day 36: Environmental Issues, Day 37: Unit Test 8, Day 38: Mock Test 1, Day 39: Mock Test 2, Day 40: Mock Test 3, NEET Solved Papers 2019 (National & Odisha), NEET Solved Papers 2020, NEET Solved Papers 2021."

diFiore's Atlas of Histology with Functional Correlations explains basic histology concepts through realistic, full-color composite and idealized illustrations of histologic structures. Added to the illustrations are actual photomicrographs of similar structures, a popular trademark of the atlas. All structures are directly correlated with the most important and essential functional correlations, allowing students to efficiently learn histologic structures and their major functions at the same time. This new edition features: • New chapter on cell biology accompanied by both drawings and representative photomicrographs of the main stages in the cell cycle during mitosis • Contents reorganized into four parts, progressing logically from Methods and Microscopy through Tissues and Systems diFiore's Atlas of Histology is the perfect resource for medical and graduate histology students.

Salient Features First of its kind when the book is not written by the senior authors but by the student who is in the race

of PGMEET competition. Being the student ourselves, we have observed that giving sleepless nights to textbooks, class notes and question-based books, studying the whole year but failing to compile and revise everything in the final lap was the most common regret that students have. We came up with an idea during our own preparations to compile the maximum possible important facts and data, along with necessary diagrams, mnemonics and Photographs together at one place in the most concise and simplified way and this idea came into reality by completing this herculean task which ended with a fruit in your hand- " My PGMEET Notes" In these Notes we are using inclusive target oriented approach based on the new exam patterns that we have experienced in the last few years. The Notes itself defies "Jack of all trades and master of SOME". It is like "SEA IN A POT". • It contains: • All the important topics of 19 Subjects of MBBS • Perfect illustrations, diagrams and clinical photographs wherever necessary • Important Tables from Authentic Textbooks and journals • Most Recent updates from latest Textbooks, Journals and Important Website • Mnemonics for various topics for a quick recall of the topics when needed • Content Reviewed by Various PG Aspirants from PAN India Medical Colleges & Subject Experts. • Each page in the Notes is provided with a "Space for Extra Points". In that space students can add their extra points which they feel are important for that particular topic. This way at the end, the Notes will have everything at one place perfectly tailored for you. How to make the best out of this Notes? To make the best out of this Notes, make a schedule to complete this notes by studying it for a specific number of hours/day (like 1–2 hours/day) or a specific number of pages per day (like 20–30 pages/day), complete it, add the Special Points, Revise and Re-revise. For example: Make a cycle of 40 days, try to complete this notes in 40 days (studying 20 pages/day). The way Notes has been represented it will take hardly 2 hours for you to complete your 20-page quota of the day. As soon as your one cycle is over start with another cycle which may be shorter this time (say 32 days with 25 pages/day). With this plan, till your exams knock your door you would have already revised the Notes "n" number of times and then re-revise these Notes in the last week before the exam. This is sort of "must follow step" for you. To make this Notes more fruitful, optimize it according to your needs by adding the extra points/newer updates in the space provided below each page in respective topics and make it a complete package for your last month preparation.

The book "Chapter-wise Daily Practice Problem (DPP) Sheets for Biology NEET" contains: 1. Carefully selected Questions (45 per DPP) in Chapter-wise DPP Sheets for Practice. 2. The book is divided into 38 Chapter-wise DPPs based on the NCERT. 3. Time Limit, Maximum Marks, Cutoff, Qualifying Score for each DPP Sheet is provided. 4. These sheets will act as an Ultimate tool for Concept Checking & Speed Building. 5. Collection of 1755 MCQ's of all variety of new pattern. 6. Covers all important Concepts of each Chapter. 7. As per latest pattern & syllabus of JEE Main exam.
