

## Muawiyah Abu Sofyan

The text authored by Muhammad Al Tijani Al Samawi presents an english translation of the famous event of Raziyyat Yawm al-Khamees, known as Black Thursday which took place in the last days before the Holy Prophet's demise. It concerns an incident during the Prophet's illness when he asked for writing materials to dictate a will, but the people present around him said that he was talking nonsense. This event is a point of controversy between the two largest sects of Islam. This book presents the reality of what happened and who was the person involved who had the audacity to cast such aspersion on the Messenger of Allah (S).

This book, first published in 1977, discusses the Muslim contribution to mathematics during the golden age of Muslim learning from the seventh to the thirteenth century. It was during this period that Muslim culture exerted powerful economic, political and religious influence over a large part of the civilised world. The work of the Muslim scholars was by no means limited to religion, business and government. They researched and extended the theoretical and applied science of the Greeks and Romans of an earlier era in ways that preserved and strengthened man's knowledge in these important fields. Although the main object of this book is to trace the history of the Muslim contribution to mathematics during the European Dark Ages, some effort is made to explain the progress of mathematical thought and its effects upon present day culture. Certain Muslim mathematicians are mentioned because of the important nature of their ideas in the evolution of mathematical thinking during this earlier era. Muslim mathematicians invented the present arithmetical decimal system and the fundamental operations connected with it – addition, subtraction, multiplication, division, raising to a power, and extracting the square root and the cubic root. They also introduced the 'zero' symbol to Western culture which simplified considerably the entire arithmetical system and its fundamental operations; it is no exaggeration if it is said that this specific invention marks the turning point in the development of mathematics into a science.

Sheikh al-Mufid wrote nearly 194 books and treatises, out of which few have survived passage of time, and meticulously planned destruction of the Shia resources. Among the surviving ones, we have his "AL AMAALI" which is also known as "AL-MAJALIS". His student al-Najashi has mentioned it as "AL-AMAALI AL-MUTAFARRIQAAT".

While most countries today adopt secularism, Islamic nations are still actively embracing religion. As nations forge ahead in the fields of science and technological innovation, some Islamic societies appear frozen in time. Will Muslims join the ranks of those preparing for the challenges of the 21st century or slip back into an age where they close the doors to reason, insist on archaic laws, and are intolerant of dissent? Muslims today seem to be in a dilemma. Historians are questioning the integrity of their history. Islamic scholars are concerned about contradictions within the Hadith Literature, the backbone of Islam, and pressing for a complete review. Then there are the Quranists who are urging Muslims to revert to the fundamentals of the Quran. In this book, the author describes his quest to find the answers about God and discovers the Quran. He examines the evolution of the religion of Islam, its history, beliefs, the causes of Islam's Golden Age, and what the future holds for Muslims.

Unique Sacrifice of Imam Hussain for Humanity is a book compiled by Dr. Manzoor Rizvi which highlights many aspects of the great martyrdom and sacrifice presented by Prophet Muhammad's grandson Imam Hussain.

Most of us have wondered, sometime during our lifetime, about when Adam and Eve were really "expelled from paradise" in the Garden of Eden. "Can" we find a verifiable and replicable answer to this question? Most of us have questioned, sometime during our lifetime, the "accepted" sequential biblical timeline of Archbishop James Ussher who claimed that 4004 BC was the actual date for that initial biblical event in our current holy scriptures. Was he right? Most of us have questioned, sometime in our lifetime, how the Hebrew's "accepted" claim that 3761 BC could be the actual date for Adam's "expulsion." Were they right? "Can" we find a way to reconstruct the complete Hebrew Bible timeline, from Adam's "expulsion" from paradise to our day? Is this possible? Who believes that it can be done? Well, it has been done! Here, is how it is done! To reconstruct the Hebrew Bible timeline, we need to know only the simple math formula that they used! The employment of this simple formula shall enable us to rebuild that same sequential biblical timeline, block by block, in the exact same fashion that the Jewish people "use from the beginning," at Adam's "expulsion" from paradise, in the Garden of Eden. The formula used in reconstructing an "actual count" of the Hebrew Bible is found below:  $7 \times 7 = 49$   $10 = 490$   $10 = 4,900$  solar years  $7 \times 7 = 49 + 1 = 50$   $10 = 500$   $10 = 5,000$  lunar years Since both of these 49 solar, and 50 lunar, periods of time contain 18,200 days (approx), we can then "post the number" of any given sequential biblical event in its designated year position on a side-by-side comparison chart. If we "post the number" in this fashion, it will show us exactly when and where, on the timeline chart, there is an error in the sequential computations of any sequential biblical event that is propounded by any biblical chronologist, past or present! In this present book, we find that the Ussher biblical timeline is 112 years "too early." And the Hebrew biblical timeline of Codex Judaica is 131 years "too late." Obviously, 3892 BC is the only "year number" that can work for a

verifiable timeline! This book, "The Holy Bible "Chronicle" of Sequential Biblical Events," by Robert P. Killian, is the fruit of over seventy-year search for that verifiable and replicable answer to the long-sought question: "Can the Ussher biblical timeline be trusted?"

The aim of this volume is to explore entrepreneurship and business from the perspective of Islamic principles, which are usually based on collaboration, teamwork, generosity and altruism. The contributions deal with the confluence of Islamic Principles with entrepreneurial and business ownership characteristics; resource use by entrepreneurs; means of entrepreneurial success, and ethics and social responsibility.

On the Sunday following September 11, 2001, Reverend Kenneth Cragg worshipped as usual in his sanctuary, located directly across the street from a Muslim mosque. In a gracious act of good faith, the Islamic congregation invited the Christian congregation to join them after worship for an introduction to Islam. This event inspired Cragg to learn more about the true tenets of Islam. Was Islam really what the terrorists were saying it was, or were their beliefs terribly skewed by a deceptive human agenda? Cragg soon realized that Islam is not the enemy, terrorism is. In this study, Cragg carefully traces the history of Islam, clarifying the differences between true believers and radical terrorists. He encourages followers of Islam and Christianity alike to wage war on terror by acting as partners to build shared communities for a peaceful world. Cragg allows us to see Islam as one of the worlds great religions, not a front for terrorism.

This book is one of the many Islamic publications distributed by Ahlulbayt Organization throughout the world in different languages with the aim of conveying the message of Islam to the people of the world. Ahlulbayt Organization is a registered Organisation that operates and is sustained through collaborative efforts of volunteers in many countries around the world, and it welcomes your involvement and support. Its objectives are numerous, yet its main goal is to spread the truth about the Islamic faith in general and the Shi`a School of Thought in particular due to the latter being misrepresented, misunderstood and its tenets often assaulted by many ignorant folks, Muslims and non-Muslims. The Prophet Muhammad, peace and blessings of Allah be upon him, always taught his followers that people should always be given names with good meanings so they could take on their attributes and grow into the name. Not only being a representative for him or herself but for the rest of the Muslim Ummah. Because of this, the Prophet, peace and blessings of Allah be upon him, disliked names with no or bad meanings and told people to avoid them. Whether you are a revert, a parent or just someone that is curious about other names, this book could determine who you or someone you know will grow into inshah Allahu. A person's name is one of the most important gifts a parent can bestow on someone. Toys, clothes and books will eventually fade away in time but a person's name shall remain forever in shah Allahu. The editors searched around and we have been unable to find a larger compendium of Muslim names anywhere. In print or in ebook for the English speaking reader. We pray that this book reaches you all in good health and Iman.

"It is rare to see a publication which includes personalities from both Shia and Sunni schools of thought and which is so much needed in today's turbulent world. This book, I believe will . . . enrich our understanding of not only the historical but the contemporary history of the Muslim."—Ahmed J. Versi, chief editor of The Muslim News (London) Who have been the Muslim world's most influential people? What were their ideas, thoughts, and achievements? In one hundred short and engaging profiles of these extraordinary people, fourteen hundred years of the vast and rich history of the Muslim world is unfolded. For anyone interested in getting an intimate view of Islam through its kings and scholars, generals and sportsmen, architects and scientists, and many others—this is the book for you. Among those profiled are the Prophet Muhammad, the Caliph Umar, Imam Husain, Abu Hanifa, Harun al-Rashid, al-Khwarizmi, al-Ghazali, Saladin, Rumi, Ibn Battuta, Sinan, Atatürk, Iqbal, Jinnah, Ayatollah Khomeini, Malcolm X, and Muhammad Ali.

Mu'awiya Ibn Abi Sufyan From Arabia to Empire Oneworld Academic

The insider whose warnings about terrorism on U.S. soil went unheeded—and whose book *Against All Enemies* rocketed to the top of bestseller lists—now presents his first novel: an all-too-believable story of politics, oil, espionage, and the earthshaking consequences that may lie at the end of the road ahead... Brian Douglas, working for British intelligence, is in Bahrain's five-star Diplomat Hotel when the bomb goes off. He's as used to carnage as one can be, after his years in Iraq. But much has changed since that war. The sheiks have been driven out of Saudi Arabia—now called Islamiyah—and Iraq has become a virtual puppet of Iran, now packing nuclear heat. The coalition forces are long gone from Saddam's homeland, after pulling out their troops and leaving the mess behind. But the mess isn't going away, as this latest bombing suggests. And as Douglas and others try to sort out agendas and loyalties, motives and manipulations, the Middle East grows ever hotter—and this time withdrawal may not be an option...

As the birthplace of three principal religions, the Middle East is holy to 15 million Jews, 2 billion Christians, and 1 billion Muslims. As the cradle of western civilization, it is fundamental to world history, the place where humans transformed themselves from nomadic hunters to settled farmers capable of building great cities and societies. This detailed history covers the Middle East from its ancient beginnings to the present. The confluence of events that produced civilized society is fully discussed, along with the establishment of Judaism, Christianity, and Islam. The emergence and decline of the Byzantine and Ottoman empires, which laid much of the framework for the region to move into the modern era, is covered in depth. Analysis of the area in recent decades focuses on World War I and II and the regional conflicts that inflame the Middle East of the 21st century. Instructors considering this book for use in a course may request an

It was a time when the Umayyad Empire was aggressively expanding their jurisdiction. Finally, they reached the borders of Africa and Europe — a border separated by the narrow strip of a strait. The first commander to cross these straits and set foot on European soil was none other than Tariq ibn Ziyad. A brave and formidable warrior, Tariq was a smart strategist. He strategically took of advantage of the time the Christian rulers of Andalusia were engulfed in a civil war to attack and ultimately defeat them. Hence, the straits that he crossed was honorably named after him, as Jabal Tariq or Gibraltar. After the Andalusian soil was conquered, Tariq advanced towards Paris but was annihilated at the mountains of the Alps. Tariq was also forced to retreat because the Caliphs were worried they would lose contact with him. From then on forth, Andalusia became one of Europe's shining stars amidst the dark ages.

An important U.S. ally in the Middle East

A celebration of the great speeches of world history and cultural life. A VINTAGE ORIGINAL In this exuberant collection, acclaimed historian Simon Sebag Montefiore takes us on a journey from ancient times to the twenty-first century. Some speeches are heroic and inspiring; some diabolical and atrocious. Some are exquisite and poignant; others cruel and chilling. The speakers themselves vary from empresses and conquerors to rock stars, novelists and sportsmen, dreamers and killers, from Churchill and Elizabeth I to Stalin and Genghis Khan, and from Michelle Obama and Cleopatra to Ronald Reagan, Nehru, and Muhammad Ali. All human drama is here: from the carnage of battlefields to the theatre of courtrooms, from table talk to audiences of millions, from desperate last stands to orations of triumph, from noble calls for liberation to genocidal rants, from foolish delusions and strange confessions to defiant resistance and heartbreaking farewells. Voices of History spans centuries, continents, and cultures. In the accessible and gripping style of a master storyteller, Montefiore shows why these seventy speeches are essential reading and how they enlighten our past, enrich our present, and inspire--as well as hold warnings for--our future.

Buku ini mencatat kisah kehidupan perempuan-perempuan mulia yang mengisi perjalanan dakwah Rasulullah Saw.ŷ[Mizan, Mizania, Agam, Islam, Indonesia]

Muawiyah bin Abu Sufyan satu di antara ribuan sahabat Nabi saw yang paling kontroversial. Ia lahir dari kedua orangtua yang sebelumnya sangat memusuhi Islam: Abu Sufyan bin Harb dan Hindun binti Utbah. Sikapnya terhadap Khalifah Ali bin Abi Thalib, dianggap makar dan tergolong bughat (pemberontak). Tindakannya mengangkat putranya Yazid sebagai khalifah, dituding telah menciptakan sistem baru yang tak pernah ada sebelumnya. Di sisi lain, jasa Muawiyah tak bisa dipungkiri. Pencatat wahyu ini tak hanya mampu mengakhiri konflik antar kaum Muslimin di masanya, tapi juga berhasil menancapkan pondasi sebuah dinasti yang telah memberikan begitu besar jasanya bagi dunia Islam: Dinasti Umayyah. Maka, sosok Muawiyah pun mendapat banyak sorotan. Di satu sisi, ada yang membencinya habis-habisan. Berbagai julukan ditabalkan. Ia disebut licik, culas, musang berbulu domba dan pengkhianat! Di satu pihak, kita justru menemukan banyak 'nash' tentang keutamaan sahabat Nabi saw ini. Rasulullah saw pernah bersabda, "Tentara dari umatku yang mula-mula berperang mengarungi lautan sudah pasti mendapat surga," (HR Bukhari dan Muslim). Dan, Muawiyah adalah pemimpin armada angkatan laut umat Islam pertama di masa pemerintahan Utsman bin Affan. Ketika mengangkatnya sebagai gubernur Syam, Umar bin Khaththab berkata, "Janganlah kalian menyebut Muawiyah kecuali dengan kebaikan." Saat ditanya tentang mana yang lebih utama antara Muawiyah dan Umar bin Abdul Aziz, Abdullah bin Mubarak menjawab, "Demi Allah, debu yang berada di lubang hidung Muawiyah karena berjihad bersama Rasulullah saw, lebih baik daripada Umar bin Abdul Aziz!" Buku ini hadir untuk mendudukan masalah sebenarnya. Bagaimana kita menyikapi Muawiyah? Apa saja kiprahnya? Bagaimana peran politik pencatat wahyu di masa Nabi saw ini sebenarnya? Mujahidkah ia atau pemberontak?

The imam calls upon contemporary literature in the fields of marriage and counseling as well as his own insights from years of experience as an imam and counselor for the Muslim community. Imam Yaki offers a unique method of presenting the material. His presentation style and topic content keeps the audience engaged, while equipping them with practical means to implement Islamic principles (Rhonda Ragab and Omar Elkassed from Los Angeles, California). Some of the topics covered in this book are the following: Building a strong individual Building a strong family The Islamic perspective Premarital counseling Family network and their influences on marriage In addition to addressing proper manners (aadaab), Imam Yaki presents the aforementioned topics using resources from the following: Main sources (Fiqhul Usool) Secondary sources (Fiqhul Furu) Factual findings (Fiqhul Waaqie)

Dr. Nakshawani in the following work not only corrects the widespread misconception that the Shi'i intellectual tradition despises and curses all Companions, but also clarifies the reason for which some Companions were considered people of Paradise in the Shi'i (and usually the Sunni) tradition. In a few places, the author notes reasons for which the Shi'i tradition does not venerate certain Companions. Discussing controversial history as it relates to Companions and the ahl al-bayt remains a difficult enterprise, where methods and premises, let alone conclusions, substantially differ from scholar to scholar. As an expert of the Shi'i tradition, Dr. Nakshawani presents relevant Shi'i narratives for non-specialists who would otherwise be unaware of them. Thus, the following biographies fill a gap in knowledge about Companions not only revered in the Shi'i tradition, but according to the collective memory of pro-Alid Sunni and Shi'i authors, granted Paradise.

In this accessible study, Stephen Humphreys introduces the most elusive of the early caliphs, Mu'awiya ibn abi Sufyan (602-680). Notoriously guarded about his thoughts, motives and emotions, Mu'awiya was universally known as a figure of immense political acumen. Beyond this, opinions are deeply divided. Throughout history, some have accused him of being the first caliph to diverge from Muhammed's model of ideal Muslim leadership whilst others credit him with uniting an empire in disarray and transforming the Caliphate into a practicable form of government. In light of this, Humphreys critically analyses his sources, and seeks to get as close as possible to a historical account of the great man.

Muslims need a passion for unity. All Muslims believe and follow the Qur'an and Prophet Mohammad and highly respect and admire Imam Ali ibn Abi Talib. Yet despite similar traditions, there is a lack of unity because of an inaccurate understanding of Imam Ali ibn Abi Talib's vision and mission among many Muslims. In Know and Follow the Straight Path: Finding Common Ground between Sunnis and Shi'as, author Tallal Alie Turfe, a champion of religious tolerance, explores the Qur'an and traditions to find the common ground and common principles between the

Islamic schools of thought. He is a strong advocate of intrafaith dialogue that offers the chance for better understanding, collaboration, and partnership among all Muslims. This book is a road map for Muslims to trek the path of truth and certainty in the hope their efforts will lead to a genuine unity as they celebrate their differences as windows of opportunities. As they uproot ignorance with knowledge, they will learn to cooperate with each other. The pledge to unity must begin within themselves, within their families, within their communities, and with each other. Know and Follow the Straight Path: Finding Common Ground between Sunnis and Shi'as provides the whys and hows necessary to winning that unity.

This daily digest of intellectual challenge and learning will arouse curiosity, refresh knowledge, expand horizons, and keep the mind sharp Millions of Americans keep bedside books of prayer and meditative reflection—collections of daily passages to stimulate spiritual thought and advancement. The Intellectual Devotional is a secular version of the same—a collection of 365 short lessons that will inspire and invigorate the reader every day of the year. Each daily digest of wisdom is drawn from one of seven fields of knowledge: history, literature, philosophy, mathematics and science, religion, fine arts, and music. Impress your friends by explaining Plato's Cave Allegory, pepper your cocktail party conversation with opera terms, and unlock the mystery of how batteries work. Daily readings range from important passages in literature to basic principles of physics, from pivotal events in history to images of famous paintings with accompanying analysis. The book's goal is to refresh knowledge we've forgotten, make new discoveries, and exercise modes of thinking that are ordinarily neglected once our school days are behind us. Offering an escape from the daily grind to contemplate higher things, The Intellectual Devotional is a great way to awaken in the morning or to revitalize one's mind before retiring in the evening.

THE REMEDY OF SOULS reveals that Islam is represented by the Prophet Muhammad (PBUH), who delivered its final Message through the Holy Quran. The Prophet is the sole teacher of Islam, as well as the embodiment of Truth therein the foundation of his infallibility. The author discusses nineteen accusations of this infallibility, which accuse the Prophet (PBUH) of acting against the Qurans Message. These violations defame his character and belittle his role as the Messenger. It also opens the door to false prophets wishing to override the Messengers teachings by preaching their own version of Islam. These false teachings are still in circulation, accepted by many from within Muslim hierarchy and often used to defend violent extremism.

In World History, History of Islam is a glorious chapter. In fact, Muslim History involves the history of the Islamic faith as a religion and as a social institution. Through various periods, Islam made many a long stride and its influence spread far-off over the globe. Apart from religion, Muslims made considerable contribution in areas, like philosophy, literature, arts, law, economy, science, medicine and commerce etc. At the academic level, Muslim philosophers, educationists and experts of Islamic law have made great contributions. The evolution of Islam has impacted the political, economic and military history of an enormous geographical region. A century after the demise of Prophet Muhammad (Pbuh) the, Islamic empire extended from the Atlantic Ocean in the west to Central Asia in the east. Islamic civilization gave rise to many centers of culture and science and produced notable philosophers, scientists, astronomers, mathematicians, doctors and nurses, during the Golden Age of Islam. In today's world, Islam is one of the major religions and perhaps there is hardly any corner of the world, where Muslims are not found. History of Islam is a vast subject. Here it is in a concise form. This modest work, a comprehensive book in one cover, is an effort in the direction of recording the history of Islam in nutshell, authentically. This excellent book is an asset for all scholars and academics in all spheres of learning.
