This volume is both a study of women as writers and performers in Britain, France, Germany and Italy, and a study of conditions in theatre as they affected women from the 17th century to the 1970s.

The second novel in a brilliant fantasy trilogy from the international bestselling author of *Prince of Thorns*. Behind its walls, the Convent of Sweet Mercy has trained young girls to hone their skills for centuries. In *Mystic Class*, Novice Nona Grey has begun to learn the secrets of the universe. But so often even the deepest truths just make our choices harder. Before she leaves the convent, Nona must choose which order to dedicate herself to--and whether her path will lead to a life of prayer and service or one of the blade and the fist. All that stands between her and these choices are the pride of a thwarted assassin, the designs of a would-be empress wielding the Inquisition like a knife, and the vengeance of the empire's richest lord. As the world narrows around her, and her enemies attack her through the system she is sworn to, Nona must find her own path despite the competing pulls of friendship, revenge, ambition, and loyalty. And in all this only one thing is certain: there will be blood.

A massive bestseller in its native Italy, and a book that can justly be compared with Roberto Saviano's *Gomorra*, *Blood Ties* is a terrifying account of the 'ndrangheta's criminal activities over the last four decades. Originally from Calabria, this sinister organization has - like the Mafia in Sicily and the Camorra in Naples - a vicious hold over northern Italy and much of the rest of the country, too, a stranglehold that is growing every day. Told to the authors by an insider, Pippo di Bella, a 'pentito', a former member of the gang now turned state's evidence, it reveals many hitherto unknown operations, as well as throwing new light on well-known cases from the past. It shows an organization which retains and strengthens its position through corruption, drug smuggling, gun running, violence, extortion and kidnapping. Visceral, compelling and terrifyingly readable, it paints a brutally vivid picture of the most dangerous and powerful of the Italian mafias, one which demands to be read.

Bringing together scholars from the Italian and English-speaking worlds, Bosworth and Dogliani's edited book reviews the history of the memory and representation of Fascism after 1945. Ranging in their study from patriotic monuments to sado-masochistic films, the essays here collected ask how and why and when Mussolini's dictatorship mattered after the event, and so provide a fascinating study of the relationship between a traumatic past and the changing present and future.

The articles in this volume reflect the wide interest of the Jozef Ijsewijn. They cover a period of almost 300 years, from an early 15th-century commentary on

Cicero's speeches to the oratory in the eighteenth-century Amsterdam Athenaeum of P. Francius.

This important collection of eight interrelated essays fills a gap in English-language literature in public finance and fiscal theory. The author consistently emphasizes the central role of collective decision making in fiscal theories as well as the methodological setting in which positive proportions in fiscal theory must be developed. Italian Women Writers looks at the work of three of the most significant women in late nineteenth century Italy whose domestic fiction and journalism addressed a growing female readership.

Translating Children's Literature is an exploration of the many developmental and linguistic issues related to writing and translating for children, an audience that spans a period of enormous intellectual progress and affective change from birth to adolescence. Lathey looks at a broad range of children's literature, from prose fiction to poetry and picture books. Each of the seven chapters addresses a different aspect of translation for children, covering: · Narrative style and the challenges of translating the child's voice; · The translation of cultural markers for young readers; · Translation of the modern picture book; · Dialogue, dialect and street language in modern children's literature; · Read-aloud qualities, wordplay, onomatopoeia and the translation of children's poetry; · Retranslation, retelling and reworking; · The role of translation for children within the global publishing and translation industries. This is the first practical guide to address all aspects of translating children's literature, featuring extracts from commentaries and interviews with published translators of children's literature, as well as examples and case studies across a range of languages and texts. Each chapter includes a set of questions and exercises for students. Translating Children's Literature is essential reading for professional translators, researchers and students on courses in translation studies or children's literature.

In this new collection of essays, Andrew Feenberg argues that conflicts over the design and organization of the technical systems that structure our society shape deep choices for the future. A pioneer in the philosophy of technology, Feenberg demonstrates the continuing vitality of the critical theory of the Frankfurt School. He calls into question the anti-technological stance commonly associated with its theoretical legacy and argues that technology contains potentialities that could be developed as the basis for an alternative form of modern society. Feenberg's critical reflections on the ideas of Jürgen Habermas, Herbert Marcuse, Jean-François Lyotard, and Kitaro Nishida shed new light on the philosophical study of technology and modernity. He contests the prevalent conception of technology as an unstoppable force responsive only to its own internal dynamic and politicizes the discussion of its social and cultural construction. This argument is substantiated in a series of compelling and well-

grounded case studies. Through his exploration of science fiction and film, AIDS research, the French experience with the "information superhighway," and the Japanese reception of Western values, he demonstrates how technology, when subjected to public pressure and debate, can incorporate ethical and aesthetic values.

Meredith Ray shows that women were at the vanguard of empirical culture during the Scientific Revolution. They experimented with medicine and alchemy at home and in court, debated cosmological discoveries in salons and academies, and in their writings used their knowledge of natural philosophy to argue for women's intellectual equality to men.

The *De Amore* of Andreas Capellanus (André the Chaplain), composed in France in the 1180s, is celebrated as the first comprehensive discussion of theory of courtly love. The book is believed to have been intended to portray conditions at Queen Eleanor of Aquitaine's court at Poitiers between 1170 and 1174, and written the request of her daughter, Countess Marie of Troyes. As such, it is important for its connections to themes of contemporary Latin lyric, in troubadour poetry and in the French romances of Chrétien de Troyes. Thereafter its influence spread throughout Western Europe, so that the treatise is of fundamental importance for students of medieval and renaissance English, French, Italian and Spanish. In this comprehensive edition, P.G. Walsh includes Trojel's Latin text with his own facing English translation with explanatory notes, commentary and indexes, along with introduction which sets the treatise in its contemporary context and assesses its purpose and importance.

*Dubliners* is a collection of picturesque short stories that paint a portrait of life in middle-class Dublin in the early 20th century. Joyce, a Dublin native, was careful to use actual locations and settings in the city, as well as language and slang in use at the time, to make the stories directly relatable to those who lived there. The collection had a rocky publication history, with the stories being initially rejected over eighteen times before being provisionally accepted by a publisher—then later rejected again, multiple times. It took Joyce nine years to finally see his stories in print, but not before seeing a printer burn all but one copy of the proofs. Today *Dubliners* survives as a rich example of not just literary excellence, but of what everyday life was like for average Dubliners in their day. This book is part of the Standard Ebooks project, which produces free public domain ebooks.

Infamous erotica author and accomplished dominatrix Nora Sutherlin is doing something utterly out of character: hiding. While her longtime lover, Sren -- whose fetishes, if exposed, would be his ruin -- is under scrutiny pending a major promotion, Nora's lying low and away from temptation in the lap of luxury. Her host, the wealthy and uninhibited Griffin Fiske, is thrilled to have Nora stay at his country estate -- especially once he meets her travelling companion. Young, inexperienced and angelically beautiful, Michael has become Nora's protg, and this summer with Griffin is going to be his training, where the hazing never ends. But while her flesh is willing, Nora's mind is wandering. To thoughts of Sren, her master, under investigation by a journalist with an axe to grind. And to another man from Nora's past, whose hold on her is less bruising, but whose secrets are no less painful. It's a summer that will prove the old adage: love hurts.

Steps forward in mathematics often reverberate in other scientific disciplines, and give rise to innovative conceptual developments or find surprising technological applications. This volume brings to the forefront some of the proponents of the mathematics of the twentieth century, who have put at our disposal new and powerful instruments for investigating the reality around us. The portraits present people who have impressive charisma and wide-ranging cultural interests, who are passionate about defending the importance of their own research, are sensitive to beauty, and attentive to the social and political problems of their times. What we have sought to document is mathematics' central position in the culture of our day. Space has been made not only for the great mathematicians but also for literary texts, including contributions by two apparent interlopers, Robert Musil and Raymond Queneau, for whom mathematical concepts represented a valuable tool for resolving the struggle between 'soul and precision.'

The searing conclusion of the thrilling epic fantasy trilogy that saw a young girl trained by an arcane order of nuns grow into the fiercest of warriors... They came against her as a child. Lactantius has always commanded respect and admiration for his Latinity, but of his numerous works on various subjects only his Christian writings survive. He lived (c. AD 240-320) in an age of bureaucracy, inflation and narrow-minded ideology when civilized men had lost confidence in their world and when powerful forces were threatening the very existence and freedom of the Roman way of life. At such a time of crisis, with all the resources of the classical inheritance behind him, he turned to the god of the Christians. This makes his writing all the more significant for us today. Lactantius was not a great thinker, but he is very representative of his times, and he is perhaps the most Classical of all early Christian writers. This study provides a detailed analysis of his literary background and of the books that he actually read.

Mr King describes the interests and activities of nearly two hundred music-collectors from the period of c.1600 to 1960.

Humour found in audiovisual products is, of course, performative in nature. If we consider instances of humour - any droll moment occurring in today's fare of mixed-genre products as a composite of cognition, emotion, interaction and expression - we see that the verbal code becomes just one component of four equally significant elements. And, as 'expression' is not limited to verbal output alone, humour may of course be created in absence of a verbal code. Translating humour for audiovisuals is not too different from translating verbal humour tout court. What makes humour occurring within audiovisual texts more problematic is the fact that it may be visually anchored; in other words a gag or a joke may pivot

on verbal content directed at a specific element that is present within the graphic system of the same text. As the term itself suggests, audiovisuals contain two overlying structures: a visual and an auditory channel each of which contain a series of both verbal and non-verbal elements which inextricably cross-cut one another. The contributors in this collection of essays present a series of case studies from films and video-games exemplifying problems and solutions to audiovisual humour in the dubs and subs in a variety of language combinations. Combining close textual readings with a broad theoretical perspective, *Gender, Narrative, and Dissonance in the Modern Italian Novel* is a study of the ways in which gender shapes the principal characters and narratives of seven important Italian novels of the nineteenth and twentieth centuries, from Alessandro Manzoni's *I promessi sposi* (1827) to Elsa Morante's *Aracoeli* (1982). Silvia Valisa's innovative approach focuses on the tensions between the characters and the gender ideologies that surround them, and the ways in which this dissonance exposes the ideological and epistemological structures of the modern novel. A provocative account of the intersection between gender, narrative, and epistemology that draws on the work of Georg Lukács, Barbara Spackman, and Teresa de Lauretis, this volume offers an intriguing new approach to investigating the nature of fiction.

An important book in the series . . . Many elements which will be exploited to huge degree and cast a huge shadow over later pages are introduced here for the first time. . . . Most contemporary poets wear their cultural and artistic influences on their sleeve. Picking up a book in an English language bookstore, it is easy to see where the poet is coming from, either geographically, or culturally (ironic and formal; confessional and free etc). This may seem reductive until you read a book like the one you have in your hands. Put simply, Mia Lecomte is a quietly dazzling poet on her own terms. She is fed by multiple cultures, she is widely read, but her writing is unique and absolutely genuine. You won't have read anything like this.
