SHE KILLED MY FATHER. I'M BRINGING THE WAR TO HER. ? My name is Synn El'Asim and I live on an airship. Our way of life is dictated by seasons—predominately the four-year-long winter that completely freezes the oceans. We are nomads by necessity. Some of us live in the skies, like me. Some on land. Few on the seas. Others reside in the tentacles of large jellyfish we call lethara. ? The Hands of Tarot threaten our ways of life. They're ruled by a queen, Nix, who is trying to destroy the larger tribes. I thought my family and I were safe. We have the largest fleet. We're fast and we're strong. ? I was wrong. She catches up to us with her metal flying machines and horrifically kills my father. The time for running is over. I'm taking the fight to her and her gear-filled city in the clouds.

Each of us has something that feels essential to who we are. For Hans Frambach, it's the crimes of the Nazi era, which have hurt him for as long as he can remember. That's why he became an archivist at the Bureau of Past Management; now, though, he's wondering if he should make a change. For his best friend, Graziela, that past was also her focal point – until she met a man who desired her. From then on, sexual pleasure became the key to her life; a concept she's now beginning to doubt. Hans and Graziela thought the Nazi crimes were the inheritance that neither could bear, but can we really blame Nazism for everything? Iris Hanika shows how the crimes of the Nazi era hold the Germans in their clutches to this day, and the absurdities to which institutionalising commemoration leads. Can a country manage its past, or ought we to remain helpless in the face of the horrific crimes of the Holocaust?

Thought-provoking case studies on cities, photographs and books
Photographic books are almost as old as photography itself, and the city is one of their first and more recurring themes. Cities have been, and they continue to be, intensely photographed under a wide variety of forms, materialities, intentions and genres. This volume examines how a city can be moulded through the particularities of a photographic book, suggesting how urban portraits configure an overlooked, yet quite specific, photo-textual practice. Ranging from early photography to contemporary works, *Paper Cities* gathers thought-provoking case studies from several international contexts, providing new insights into art, material culture, history, heritage and memory, while simultaneously illuminating the debate on cities, photographs and books.

This original book looks in detail at arguably the two most significant characters on either side in the middle years of the great Peloponnesian War and the showdown in and around Amphipolis that led to both their deaths in 422 BC. The Spartan commander Brasidas was already a veteran of many campaigns when he headed for the strategically important northern theatre. Cleon was the key hawk in the Athenian assembly who led his fellow citizens in a major effort to counter the impact that Brasidas was having in the north. The two finally clashed in battle outside the Athenian colony of Amphipolis which Brasidas had by then captured (the great historian Thucydides being exiled for his failure to defend it). The Spartans won but both men died in the fighting, their passing having far-reaching consequences for the subsequent course of the war. By focussing on the fatal duel between Brasidas and Cleon, and drawing on all available sources to supplement Thucydides' seminal account, Mike Roberts offers a valuable new perspective on the Peloponnesian War.

"Great and terrible was the year of Our Lord 1918, of the Revolution the second." It is 1918: the Russian Revolution has just ended, Ukraine is in the midst of civil war, and in Kiev, the two Turbin brothers are preparing to fight for the White Guard in the wake of their beloved mother's death. Friends charge in from the streets amid an atmosphere of heady chaos, downing vodka, keeling over, taking baths, playing the guitar, falling in love. But the new regime is poised for victory, and in its brutal triumph lies destruction for the Turbins and their world. This novel, Mikhail Bulgakov's literary debut, may in fact have saved the writer, whose works were often censored under the Soviet regime: Stalin was an avid fan of a play based on The White Guard and allegedly went to see it more than fifteen times. Michael Glenny was the first to translate Bulgakov's works into English--this edition makes his deft, brilliant translation once again available for new readers.

The classic work on the evaluation of city form. What does the city's form actually mean to the people who live there? What can the city planner do to make the city's image more vivid and memorable to the city dweller? To answer these questions, Mr. Lynch, supported by studies of Los Angeles, Boston, and Jersey City, formulates a new criterion—imageability—and shows its

potential value as a guide for the building and rebuilding of cities. The wide scope of this study leads to an original and vital method for the evaluation of city form. The architect, the planner, and certainly the city dweller will all want to read this book.
