

Pharmacology Questions And Answers

So you think you've got a handle on therapeutic management? How drugs work and interact with each other, how the body handles them and how drug treatments are assessed? This self-assessment volume allows you to learn, revise and test yourself on all aspects of clinical pharmacology and therapeutics. Four different question types are provided to test your knowledge in this important area - multiple choice questions, extended matching questions, 'best of fives' and problem-solving questions. Detailed explanatory answers ensure this book solves your queries as well as providing essential revision for those all-important exams. Test your knowledge with *Clinical Pharmacology and Therapeutics: Questions for Self Assessment* and not only develop your exam technique but become a better prescriber. *Pharmacology Test Prep* is an outstanding collection of 1500 clinical multiple-choice questions written according to USMLE guidelines and classified by learning objective and difficulty. The questions and answers in this book cover all the areas that are included in topic-based and organ system-based courses in the first two years of medical school. This book provides medical students preparing to take the USMLE with a thorough review of pharmacology concepts and is an excellent review book for those needing to brush up on pharmacology for their rotations. Key Features: Questions require students to analyze information before choosing the best answer Full explanations are included with answers, giving students a comprehensive USMLE review tool Organized along clinical as well as pharmacological lines, making it suitable for both Step 1 and Step 2 exam preparation
