Judith's marriage to Adam is failing fast. Despite her best efforts, his attention is entirely taken up by his law practice while her existence-if he remembers it-is merely something to criticize. Thankfully, Judith has an antique shop and her best friend and business partner, Susan, to keep her focused on the good things in life. Tired of being overlooked and undervalued, Judith decides to leave her husband and reconnect with herself as a single woman rather than as Adam's wife. Soon, Judith's world expands to include a support group of women also facing divorce. Slowly learning to extend to herself the same compassion she offers her friends, Judith begins to rediscover her own value as a person and as a woman. And her efforts don't go unnoticed. While Judith rebuilds her life, with the encouragement of her growing circle of friends, a secret admirer starts leaving thoughtful gifts on her doorstep-which she begins to hope will lead to a face-to-face meeting. A celebration of friendship and love, where every character counts, "The Things That Fall Away" is an insightful story that brings to light the beauty of everyday things and the wonder of being truly cherished.

Children of all ages can enjoy this book, from Kindergarten to the 6th grade This story explains diversity. I have always used it as a tool to explain how wrong it is to hate other people because of how they pray or worship. Questions can be asked throughout the entire story of how wrong it is to mistreat others because of the color of their skin, where they are from. Being mean to another because they are hungry or hurt. I did make reference to bullying which a teacher can stop and ask the important question of being mean for no reason. The story explains what can happen to people who do not tell the truth.

Painting With Fabric is Jeanine Malaney's technique of creating artworks with fabric utilizing fabric collage, raw edge appliqué and free-motion quilting. This is a How-To book using this technique which will allow you to paint a picture with fabric! It's not a typo...it is not painting on fabric, though Jeanine does utilize paints minimally for shading or highlighting; rather, this is creating a "painting" with the medium of fabric instead of paint! Soooooo fun and less threatening than using paints. Jeanine's technique is basically fabric collage, enhanced with sewing techniques (raw-edge appliqué and free-motion quilting). She cuts fabric pieces and compose a collage by gluing and rearranging pieces on a background fabric she call my "canvas". After college, Jeanine may add shading and detail features with fabric paint. She then secures the image with clear or smoke monofilament thread. After squaring up she may add fabric borders, then she layers with backing and batting. With a quilting process you can then increase texture and highlight features creating a three-dimensional effect. You can then produce your own continuous binding to match or compliment borders. Each unique piece should be titled, signed, and framed.

Fundamental to this technique is a process of finding an inspiration, establishing a design based on the elements of artistic composition, selecting appropriate fabrics, collage layering, free-motion quilting, use of paint for detail and shading, and finishing touches for a professional look (borders, squaring, binding, labeling). All steps are explained and illustrated in detail in the book. Also included are design tips for skies and water, for mountains, rocks and cliffs, for foliage and trees, figures and buildings. Many examples from photo inspiration to a finished fabric collage "painting" are provided in this book. This technique is for the artist who wants to create original and unique fabric collages, one-of-a-kind watercolor or landscape quilts, and without the purchase of any kind of kit. You can even use the fabric that already exists in your stash and your existing sewing setup.
