Life Is a Wheel Bruce Weber, 2015-03-17 Based on his popular series in the New York Times chronicling his cross-country bicycle trip, bestselling author Bruce Weber shares his adventures from his solo ride across the USA. Riding a bicycle across the US is one of those bucket-list goals that many dream about but few achieve. Bestselling author and New York Times reporter Bruce Weber made the trip, solo, over the summer and fall of 2011--at the age of fifty-seven. Expanding upon his popular series published in The New York Times, Life Is a Wheel is the witty and inspiring account of his journey, where he extols the pleasures of cycling and reflects on what happened on his adventure, in the world, in the country, and in his life. The story begins on the Oregon coast with a middle-aged man wondering what he's gotten himself into and ends in triumph on the George Washington Bridge, wondering how soon he might try it again. Part travelogue, part memoir, part paean to the bicycle as a simple and elegant mode of both mobility and self-expression--and part wry and panicky account of a fifty-seven-year-old man's attempt to stave off mortality--Life Is a Wheel is an elegant and entertaining escape for any armchair traveler--

*Play On* Jeff Bercovici,2018-05-01 A lively, deeply reported tour of the science and strategies helping athletes like Tom Brady, Serena Williams, Carli Lloyd, and LeBron James redefine the notion of “peak age.” Season after season, today’s sports superstars seem to defy the limits of physical aging that inevitably sideline their competitors. How much of the difference is genetic destiny and how much can be attributed to better training, medicine, and technology? Is athletic longevity a skill that can be taught or a mental discipline that can be mastered? Can career-ending injuries be predicted and avoided? Journalist Jeff Bercovici spent extensive time with professional and Olympic athletes, coaches, and doctors to find the answers to these questions. His quest led him to training camps, tournaments, hospitals, antiaging clinics, and Silicon Valley startups, where he tried cutting-edge treatments and technologies firsthand and investigated the realities behind health fads like alkaline diets, high-intensity interval training, and cryotherapy. Through fascinating profiles and first-person anecdotes, Bercovici illuminates the science and strategies extending the careers of elite older athletes, uncovers the latest advances in fields from nutrition to brain science to virtual reality, and offers empowering insights about how the rest of us can find peak performance at any age.
