Ask a Science Teacher Larry Scheckel, 2013-12-17 Fun and fascinating science is everywhere, and it's a cinch to learn—just ask a science teacher! We've all grown so used to living in a world filled with wonders that we sometimes forget to wonder about them: What creates the wind? Do fish sleep? Why do we blink? These are common phenomena, but it's a rare person who really knows the answers—do you? All too often, the explanations remain shrouded in mystery—or behind a haze of technical language. For those of us who should have raised our hands in science class but didn't, Larry Scheckel comes to the rescue. An award-winning science teacher and longtime columnist for his local newspaper, Scheckel is a master explainer with a trove of knowledge. Just ask the students and devoted readers who have spent years trying to stump him! In Ask a Science Teacher, Scheckel collects 250 of his favorite Q&As. Like the best teachers, he writes so that kids can understand, but he doesn't water things down—he'll satisfy even the most inquisitive minds. Topics include: •The Human Body •Earth Science •Astronomy •Chemistry Physics •Technology •Zoology •Music and conundrums that don't fit into any category With refreshingly uncomplicated explanations, Ask a Science Teacher is sure to resolve the everyday mysteries you've always wondered about. You'll learn how planes really fly, why the Earth is round, how microwaves heat food, and much more—before you know it, all your friends will be asking you!

**Station Eleven** Emily St. John Mandel, 2014-09-09 NATIONAL BESTSELLER • NATIONAL BOOK AWARD FINALIST • A PEN/FAULKNER AWARD FINALIST • Set in the eerie days of civilization's collapse—the spellbinding story of a Hollywood star, his would-be savior, and a nomadic group of actors roaming the scattered outposts of the Great Lakes region, risking everything for art and humanity. • Now an original series on HBO Max. • Over one million copies sold! One of the New York Times's 100 Best Books of the 21st Century Kirsten Raymonde will never forget the night Arthur Leander, the famous Hollywood actor, had a heart attack on stage during a production of King Lear. That was the night when a devastating flu pandemic arrived in the city, and within weeks, civilization as we know it came to an end. Twenty years later, Kirsten moves between the settlements of the altered world with a small troupe of actors and musicians. They call themselves The Traveling Symphony, and they have dedicated themselves to keeping the remnants of art and humanity alive. But when they arrive in St. Deborah by the Water, they encounter a violent prophet who will threaten the tiny band's existence. And as the story takes off, moving back and forth in time, and vividly depicting life before and after the pandemic, the strange twist of fate that connects them all will be revealed. Look for Emily St. John Mandel's bestselling new novel, Sea of Tranquility!

Car Guys vs. Bean Counters Bob Lutz, 2011-06-09 A legend in the car industry reveals the philosophy that's starting to turn General Motors around. In 2001, General Motors hired Bob Lutz out of retirement with a mandate to save the company

by making great cars again. He launched a war against penny pinching, office politics, turf wars, and risk avoidance. After declaring bankruptcy during the recession of 2008, GM is back on track thanks to its embrace of Lutz's philosophy. When Lutz got into the auto business in the early sixties, CEOs knew that if you captured the public's imagination with great cars, the money would follow. The car guys held sway, and GM dominated with bold, creative leadership and iconic brands like Cadillac, Buick, Pontiac, Oldsmobile, GMC, and Chevrolet. But then GM's leadership began to put their faith in analysis, determined to eliminate the waste and personality worship of the bygone creative leaders. Management got too smart for its own good. With the bean counters firmly in charge, carmakers (and much of American industry) lost their single-minded focus on product excellence. Decline followed. Lutz's commonsense lessons (with a generous helping of fascinating anecdotes) will inspire readers at any company facing the bean counter analysis-paralysis menace.

**Chinese Astrology** Shelly Wu, 2005-01-01 Draws on the archetypes of the 12 signs of the ancient Eastern zodiac to offer insight into astrologically influenced personalities, providing coverage of such related topics as how a birth element shapes one's destiny, Chinese love signs and the qualities of one's Chinese birth-hour companion.

**Fundamentals of the Process of Spiritual Perfection** Bahram Elahi, MD, 2022-04-12 Written as a concise handbook, this Practical Guide presents a novel paradigm for addressing the enduring questions of our existence, while providing a roadmap to the rational pursuit of spirituality in contemporary life. Approaching our spiritual development as one would any experimental science, Bahram Elahi, MD, describes the nature of the human soul, or self, through a series of original diagrams and functional analogies to medicine, psychology, and physics. In so doing, he introduces a new medicine of the soul that not only establishes how to nourish and develop the soul through the practice of correct divine and ethical principles, but also how to diagnose and treat its various ailments. Explaining the purpose of our presence on earth as the completion of the first stage in our spiritual development, he summarizes this fundamental work in three main points: examining and mending one's faith, sufficiently developing one's sound reason, and cultivating one's humanity. Ultimately, this timely Practical Guide offers readers of all backgrounds an accessible roadmap to our spiritual journey that is adapted to life in modern society.

**Seberson Method: New SAT® Vocabulary Workbook** Katya Seberson, 2020-02-25 Further your SAT vocabulary knowledge to get farther down the road to success This SAT vocabulary workbook helps students master more than 700 words that frequently appear in the SAT's reading, writing, and essay sections. The book's approach reflects changes made to the test in recent years, focusing on understanding vocabulary more than rote memorization. It's a modern workbook designed to give students the edge needed to improve their SAT scores. 145 short lessons—Each lesson features a theme to help contextualize vocabulary and concludes with a mini quiz to test understanding. Practical organization—Chapters focus on different elements of the SAT, including words for reading topics like history and science, transition words, and commonly

confused words. Learning that lasts—With extra tips for retention, this focused approach works equally well for students who are taking the test in a week or in a year. Perfect for summer learning—This guide makes a great summer workbook for students planning to take the SAT this coming year who want to get a head start on studying before heading back to school. Get the ideal resource for students looking to master SAT vocabulary.

**The Bubble and Beyond** Michael Hudson,2012 *The Bubble and Beyond*, describes how the fabulous expansive forces of industrial capitalism have been subverted by a predatory finance capitalism. What the FED hailed as The Great Moderation has left the middle class to take on a lifetime of bank debt to obtain access to housing, education to get a job, an auto to drive to it, and simply to maintain living standards that wages and salaries no longer support. What has derailed the economy is the take-over of academic economics and politics by the financial sector in order to censor criticism and misrepresent statistics so as to give the impression that the economy can borrow its way out of debt. The reality is that income used to pay down today's debt overhead is not available to be spent on goods and services. The result is debt deflation, followed by austerity and the fire sale or decay of infrastructure at the national and local levels. The most controversial claim by Prof. Hudson is that Debts that can't be paid, won't be. The question he poses is whether their non-payment will lead to worldwide foreclosures including sell-offs of the public domain by debt-strapped local and national governments or whether they will be written down in line with the ability to pay. This is the economic issue that will dominate politics over the next generation. Illustrated with charts and exhibits that make it plain where money goes versus where it should go.

**Thousands... Not Billions** Dr. Donald DeYoung,2005-09-01 Evolutionary models for life, earth, and space are questioned today by a significant group of scientists worldwide. They are convinced that the earth and the entire universe are the result of a supernatural creation event which occurred just thousands of years ago, not billions of years. Why do conventional methods for dating rocks differ so radically? What does carbon-14 found in diamonds tell us? Was there accelerated nuclear decay in earth's history? Are the creation and Flood accounts genuine historic events? These and many other questions are addressed in *Thousands...Not Billions*. This book summarizes eight years of research by the Institute for Creation Research (ICR) and a team of scientists, whose goal was to explore the age of the earth from a biblical perspective. The project title was Radioisotopes and the Age of The Earth, or RATE. The age of the earth is one of the most divisive topics today, much debated by scholars and laypersons alike. What one believes about the age of the earth goes a long way in determining world views. The Bible is explicit that the earth is young, but many people feel that science has proved our planet is more than four billion year old. *Thousands...Not Billions* provides a compelling challenge to Darwinian evolution.

Biased Jennifer L. Eberhardt, PhD,2019-03-26 Poignant....important and illuminating.—The New York Times Book Review Groundbreaking.—Bryan Stevenson, New York Times bestselling author of Just Mercy From one of the world's leading experts on unconscious racial bias come stories, science, and strategies to address one of the central controversies of our time How do we talk about bias? How do we address racial disparities and inequities? What role do our institutions play in creating, maintaining, and magnifying those inequities? What role do we play? With a perspective that is at once scientific, investigative, and informed by personal experience, Dr. Jennifer Eberhardt offers us the language and courage we need to face one of the biggest and most troubling issues of our time. She exposes racial bias at all levels of society—in our neighborhoods, schools, workplaces, and criminal justice system. Yet she also offers us tools to address it. Eberhardt shows us how we can be vulnerable to bias but not doomed to live under its grip. Racial bias is a problem that we all have a role to play in solving.

**The Lasting Connection** Michaela Thomas,2021-02-11 A love that lasts is all about choosing to stay connected. Struggling with your relationship is normal. Many of us lash out at our partner, we blame them when things go wrong, and we fear rejection, criticism and failure. So how do you get back the kindness and connection that once made you both so close? In The Lasting Connection, clinical psychologist and couples therapist Michaela Thomas explains her Pause-Purpose-Play method for strengthening the connection between couples through brain science, mindfulness, compassion, values and playfulness. Learn how: - To build a stronger foundation for your relationship - To soothe yourself to make everyday interactions smoother - Past experiences may be influencing your current situation - To be more compassionate with yourself and your partner - To deepen your connection with the one you love Are you ready to start on the first chapter of your new story together?

**Change Anything** Kerry Patterson,Joseph Grenny,David Maxfield,Ron McMillan,Al Switzler,2011-04-11 A stunning approach to how individuals can not only change their lives for the better in the workplace, but also their lives away from the office, including (but not limited to) finding ways to improve one's working relationship with others, one's overall health, outlook on life, and so on. For example, why is it that 95% of all diet attempts fail? Why do New Year's Resolutions last no more than a few days? Why can't people with good intentions seem to make consistent and positive strides? Based upon the

latest research in a number of psychological and medical fields, the authors of Change Anything will show that traditional will-power is not necessarily the answer to these strivings, that people are affected in their behaviors by far more subtle influences. Change Anything shows how individuals can come to understand these powerful and influential forces, and how to put these forces to work in a positive manner that brings real and meaningful results. The authors present an array of everyday examples that will change and truly empower you to reexamine the way you go about your business and life.

**Shadow Me** Tahereh Mafi, 2019-03-05 Fan favorite character Kenji Kishimoto narrates this gripping companion novella to Tahereh Mafi's New York Times bestselling Shatter Me series, set during the explosive events in Restore Me! Juliette is still reeling from Warner's betrayal, and Kenji is trying to balance his friendship with her with his responsibilities as a leader of the resistance against the Reestablishment. Things get even more interesting when an unexpected person from Omega Point's past surfaces. The ending of Restore Me left readers gasping, and this novella full of Kenji's signature sass and big heart is the perfect story to tide fans over until Defy Me, the shocking fifth book in the Shatter Me series.

God & the World of Insects Josh Shoemaker, Gary Brans, 2017-07-15 Viewed through the eyes of entomologists and scientists who believe in a Creator God, the chapters discuss the design, nature, and purpose of insects in the world while at the same time showing the beauty and diversity of insects.
