New York Times bestselling author Lauren Dane welcomes you back to Diablo Lake, Tennessee: a town founded by witches, governed by werewolves and brimming full of secrets. It's autumn in Diablo Lake and the town is buzzing with preparations for Halloween, Samhain, Collins Hill Days, and the wedding of the newly elected mayor and her wolf shifter fiancé. Ruby Thorne can't think of a better time of year to come back for good and open the health clinic she's been planning for the last six years. Her connection to the town and its veins of magic have snapped back into place, flooding her with a power eager to jump to her call. She has a sense of rightness. This witch is exactly where she's supposed to be. So it's not much of a surprise that he comes back into her path just like he was meant to... Damon Dooley has spent the last few years learning how to run the pack at his older brother's right hand. There's been upheaval. Outrage. Violence. Old rules have created a silence so crushing it's collapsed the fabric of not just the wolf shifters, but the town as a whole. And yet, Ruby has returned. Man and wolf agree she needs to be in their life regularly, and before long, things move from serious to something magically deeper. Bound to one another heart and soul, both committed to what's best for Diablo Lake, Ruby backs Damon as he pushes for much-needed change. But when something falls into Ruby's lap and she learns the whole, terrible truth, secrets need to be spilled. How—and by whom—becomes the only question. Street life in the slums of Accra is realistically portrayed in this socially-committed, subtle novel about four educated women who are inspired by the plight of a 14-year old girl, Fofo. As the main characters convert their library center into a practical street initiative, the novel invokes the squalor, health risks, and vicious cycles of poverty and violence that drive children to the streets and women to prostitution; and, from which, ultimately, no one in the society is free.

and every Liberian student for future examinations thereby setting the stage for an easy transition to the emerging West African Senior Secondary Examinations (WASSCE). I am explicitly confident that you will definitely find your journey through this guide very rewarding as you prepare to sit the next WAEC Exam.—David S. Massaquoi, Sr., director of Education, The Salvation Army–Liberia Command Education Secretariat Our students sit the exam in constant fear of proctors and supervisors. They know nothing about the exam and its structure and this fear lead to them failing massively. We need to build the confidence level of our students and help them to study hard and understand the roles of proctors and supervisors to stop the intimidation during the exam. Thanks to LIPACE and the “Turning the Tide” project, we have helped our students achieved an amazing achievement for the first time in the history of Gbarpolu County where all senior students successfully passed the exam.—Lartey Bemah, principal of Bopolu Public School (2012-2013), Gbarpolu County, Liberia

The role humans play in the field of information technology continues to hold relevance even with the industry's rapid growth. People contribute heavily to the physical, cognitive, and organizational domain of computing, yet there is a lack of exploration into this phenomenon. Humanoid aspects of technology require extensive research in order to avoid marginalization and insufficient data. The Handbook of Research on the Role of Human Factors in IT Project Management is a collection of innovative research on the methods and applications of the task of human characteristics in the design and development of new technology. While highlighting topics including digitalization, risk management, and task analysis, this book is ideally designed for IT professionals, managers, support executives, project managers, managing directors, academicians, researchers, and students seeking current research on the dynamics of human influence in technological projects.

Gle, a chief priest, abandons his role as custodian and defender of age-old customs to fight voluntarily on the side of the British in the Second World War. When the war ends, Gle and his fellow African soldiers do not receive their promised rewards. But they do not return peacefully to their homesteads or reassume their traditional values. Politicised by their role in the foreign conflicts they join together and march in protest to present a petition to the Governor of the Gold Coast (now Ghana), in an act of self-determination. The colonial forces respond with fire;

soldiers are shot dead. The angry protesters descend into Accra and loot the shops, in what became the famous looting of 28 February 1948, and would mark the beginning of Ghana's fight for independence from Britain.
