Il selvatico in cucina: piante spontanee buone per liquori fatti in casa, vini e aceti aromatici, sciroppi e bevande Pietro Ficarra,Stefania Scaccabarozzi,2022-11-02 Questo lavoro è l'ultimo degli approfondimenti della collana Cucina Selvatica ed offre ai lettori interessati all'utilizzo alimentare e gastronomico delle piante selvatiche un approfondimento sulla raccolta e sull'uso di specie spontanee in un ambito specifico, quello della liquoristica casalinga, ma è ampliato anche a vini e aceti aromatici, bevande e sciroppi. Si aggiunge ai precedenti per soddisfare un'esigenza di completezza e perché l'approccio al tema dei liquori fatti in casa con le piante selvatiche è in coinvolgente espansione: oggigiorno raccogliere e utilizzare piante spontanee o parti di esse per ottenere liquori, vini o aceti aromatici, succhi o sciroppi, al di là di residuali motivazioni economiche, è diventata la passione di tanti. Il libro, con numerose schede delle specie più interessanti utilizzabili e una ricca proposta di ricette, può tornare utile a molti e non solo agli appassionati del tema e della cucina creativa. Qui è trattato dal punto di vista casalingo piuttosto che da quello dei liquoristi professionali, perché scopo della guida è di rivolgersi a tutti coloro che vogliono avvicinarsi a questo mondo, neofiti o già un po' esperti.

ESCO Silvia Maria Nepote Fus,2023-06-30T00:00:00+02:00 Un manuale che insegna a riconoscere le piante spontanee e a sfruttare le loro proprietà officinali in cucina.

Il selvatico in cucina: le erbe spontanee più buone e versatili. Piante, consigli e gastronomia. Pietro Ficarra, Stefania Scaccabarozzi, 2020-07-24 La guida offre agli appassionati del selvatico un approfondimento sull'uso in cucina delle erbe spontanee più buone e versatili, che appartengono però a buon titolo a quella categoria di vegetali spontanei presenti nel nostro Paese che da lungo tempo fanno parte della nostra tradizione alimentare. È il quarto degli approfondimenti che seguono la “Guida alla cucina selvatica quotidiana per tutti” e le guide dedicate alle piante selvatiche alimentari dei territori della Brianza e del Triangolo Lariano (Lombardia) e dei Nebrodi (Sicilia). Il lavoro tratta di piante importanti di cui non si è parlato negli altri approfondimenti e dà attenzione sia agli utilizzi più consueti che a quelli innovativi che si possono fare di piante di interesse gastronomico, note ai più ma spesso trascurate o magari meglio utilizzate in altre culture alimentari. L'intento divulgativo del libro è quello di suggerire quanti buoni sapori spontanei siano disponibili intorno a noi per la cucina di ogni giorno. Tiene conto di abitudini attuali così come di usi residui locali, ma vengono proposte al lettore anche 250 ricette per sperimentare strade nuove rispetto all'idea che può avere del selvatico in cucina.

Il selvatico in cucina: erbe amare e altre erbacce spontanee. Piante, consigli e gastronomia. Pietro Ficarra, Stefania Scaccabarozzi, 2020-05-29 La guida offre agli appassionati del selvatico un approfondimento sull'uso in cucina delle così dette “erbe amare” e di molte altre che, nell'accezione comune, possono essere considerate “erbacce” e che appartengono però a buon titolo a quella categoria di vegetali spontanei presenti nel nostro Paese che sono conosciuti per il loro utilizzo alimentare. È il terzo degli approfondimenti che seguono la “Guida alla cucina selvatica quotidiana per tutti” e le guide dedicate alle piante selvatiche alimentari dei territori della Brianza e del Triangolo Lariano (Lombardia) e dei Nebrodi (Sicilia). Il lavoro dà attenzione agli utilizzi che si possono fare di piante di interesse gastronomico, talvolta note ai più ma spesso trascurate, poco apprezzate o misconosciute, e magari meglio utilizzate in altre culture alimentari. L'intento divulgativo del libro è quello di suggerire quanti buoni sapori spontanei siano disponibili intorno a noi per la cucina di ogni giorno. Tiene conto di abitudini ancora attuali così come di usi residui locali, ma vengono dati al lettore suggerimenti per ampliare le sue conoscenze e sperimentare strade nuove rispetto all'idea che può avere del selvatico in cucina.

Il selvatico in cucina: le aromatiche spontanee. Piante, consigli e gastronomia. Pietro Ficarra - Stefania

Scaccabarozzi,2020-04-20 La guida offre agli appassionati del selvatico un approfondimento sulla raccolta e sull'uso gastronomico delle specie spontanee presenti nel nostro Paese che, per le loro funzioni in cucina, sono considerate aromatiche. È il primo degli approfondimenti che seguono la recente Guida alla cucina selvatica quotidiana per tutti e delle guide dedicate dagli autori alle piante selvatiche alimentari dei territori della Brianza e del Triangolo Lariano (Lombardia) e dei Nebrodi (Sicilia). Il lavoro dà attenzione agli utilizzi che si possono fare di aromatiche insolite ma di sicuro interesse gastronomico, spesso trascurate, poco apprezzate o sconosciute, e magari meglio utilizzate in altre culture alimentari. L'intento divulgativo del libro è quello di suggerire quali e quanti buoni profumi e sapori spontanei siano disponibili intorno a noi per la cucina di ogni giorno e non solo per quella alta degli chef stellati. Tiene conto delle abitudini diffuse e ancora attuali così come di usi residui locali, quanto meno tradizionali, ma vengono dati al lettore anche suggerimenti e consigli per ampliare le sue conoscenze, invitandolo a sperimentare strade nuove con le aromatiche spontanee.

History of the Italian Agricultural Landscape Emilio Sereni,2014-07-14 Emilio Sereni's classic work is now available in an English language edition. History of the Italian Agricultural Landscape is a synthesis of the agricultural history of Italy in its economic, social, and ecological context, from antiquity to the mid-twentieth century. From his perspective in the Italian tradition of cultural Marxism, Sereni guides the reader through the millennial changes that have affected the agriculture and ecology of the regions of Italy, as well as through the successes and failures of farmers and technicians in antiquity, the middle ages, the Renaissance, and the Industrial Revolution. In this sweeping historical survey, he describes attempts by successive generations to adapt Italy's natural environment for the purposes of agriculture and to respond to its changing ecological problems. History of the Italian Agricultural Landscape first appeared in 1961. At the time of its publication it was a pathbreaking work, parallel in its importance for Italy to Marc Bloc's masterwork of 1931, The Original Characteristics of French Rural History. Sereni invented the concept of the historical agricultural landscape: an interdisciplinary characterization of rural life involving economic and social history, linguistics, archeology, art history, and ecological studies. Originally published in 1997. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Education for Rural People David Acker, Lavinia Gasperini, Food and Agriculture Organization of the United Nations, 2009 Nearly one out of six people of the current inhabitants of the world is suffering from hunger and illiteracy. This book was developed to assist policy makers dealing with rural poverty, food insecurity and education challenges confronting rural people. It seeks to address the correlation between education, training, empowerment and food security, mainly through a number of examples from all over the world. It is about strengthening the capacity of rural people to achieve food security. It identifies different dimensions of education and training that have proven useful, and covers formal education as well as non-formal education, literacy as well as skills training.

Constructing Messapian Landscapes Gert-Jan Burgers, 2023-01-16 Over the last three decades, archaeologists have progressively embarked on field-walking projects all around the Mediterranean basin. The aim of most of these projects is to investigate the ancient settlement and landscape dynamics of specific Mediterranean regions. They greatly contribute to the new liveliness which characterizes present-day classical archaeology, not only by introducing new research methods but also, and in particular, by widening its subject matter to include the history of societies in the margins of the Graeco-Roman urban world. It is within this recent tradition that the present book has been written; the author aims to examine the ancient settlement and societal dynamics of the Brindisi region, in the north-east of the Salento peninsula. The field surveys indicate that during the pre-Roman period the regional society was characterized by processes of centralization and urbanization. Subsequently, from the 3rd century BC onwards, it gradually integrated into the Roman orbit. Burgers emphasizes an active indigenous role in the successive colonial situations in southern Italy. He focuses on the internal dynamics of the local communities and investigates how social strategies manifested themselves, especially in external contacts and in the organization of settlement and landscape.

Parallel Botany Leo Lionni, 1977 Leo Lionni here presents ... [an] imaginary plant kingdom .. Lionni marshals all the facts, all the fabulous lore and scholarship surrounding parallel plants ... And, too, he provides his own elegant, detailed, and scientifically accurate drawings of each nonexistent plant species--Cover.

Italy and the Potato: A History, 1550-2000 David Gentilcore, 2012-01-26 Little has been written about the potato's Italian history. This book examines the important role it has played in Italy's social, cultural and economic history.

Mountain Landscapes Massimo Sargolini, Roberto Gambino, 2015-04 According with the Alps and Carpathian Conventions, the European Landscape Convention, and the Birds, and Habitats Directives the research project Access2Mountain, illustrated in this book, aims to promote the improvement of the accessibility in mountain areas, as a crucial factor for their social, economic and cultural sustainable development, with particular regard for tourism. In the meanwhile, it aims to enlight methods, models and tools for the containment and the reduction of negative impacts of traffic, infrastructures and tourist flows on the environment, landscape and natural-cultural heritage, particularly in the most

sensitive areas of South-East Europe. The landscape vision becomes the way to approach the analysis, interpretation and design. It requires a trans-scale dimension, moving from the local level, to the environmental component, the interested context and the model region. The final output is a system of thinking for the decision making processes in sensitive mountain landscapes.

Theory and Practice in Archaeology Ian Hodder, 2004-08-02 In this latest collection of his articles, of which seven are written especially for this volume, Ian Hodder captures and continues the lively controversy of the 1980s over symbolic and structural approaches to archaeology. The book acts as an overview of the developments in the discipline over the last decade; yet Hodder's brief is far wider. His aim is to break down the division between the intellectual and the dirt archaeologist to demonstrate that in this discipline more than any other, theory must be related to practice to save effectively our rapidly diminishing heritage.
